GRIEF TURNED TO JOY

An incident in Empress of Ireland Death Shed in Quebec—Another Search For Sweetheart, However, Has Not Happy Ending

Quebec, June 3.—A small group stood around a coffin in the morgue where the victims from the Empress of Ireland have lain since Sunday morning...

Then he gave his own name, Vincent Kallio of Kinross, Mich., and said that he was her brother...

They took him to the office of the coroner at the morgue, where he might examine the articles found on the body and confirm the identification...

They took him to the office of the coroner at the morgue, where he might examine the articles found on the body...

It was one of the few gleams of joy that broke through the pall of grief that again hung over St. John...

There were no such joyful climaxes to the search of Jacob Peterson, from Winnipeg, who had seen Annie Jensen, his sweetheart, on the train just a week ago...

The little man with the fair moustache and the pensive expression showing in his eyes, broke into tears fresh, but this time they were tears of joy...

IT DEPENDS ON CARRANZA NOW

Next Move From Him in Mediation Proceedings

HUERTA WILL RESIGN. Mexican Delegates Say He is Ready as Soon as Mexico is Politically Pacified—More Hopeful Feeling at Niagara Falls

Niagara Falls, Ont., June 3.—Attention of the mediators today was turned toward General Carranza. From him must come the next move which will determine whether or not Mexico will be pacified by diplomacy...

The Mexican delegates have also taken a forward step in publicly announcing last night that General Huerta is preparing to withdraw from the provisional presidency and will turn over the government to an administration constituted so as to command the support of public opinion...

The peace plan before mediators is a simple one. It reaches into internal questions only in a general way. Suggestions as to personnel will have to be agreed upon privately. The protocol, which will be signed later, will be a declaration of principles on agrarian and educational reforms, and advice to Mexico to set up a provisional government having due regard to the interests of all factions.

The Mexican delegates were decidedly hopeful today that all internal problems would be worked out promptly if the United States accorded the new government recognition. The general feeling here is one of optimism. Upon the Constitutionalists depend chiefly whether the trend of developments shall be for a peaceful solution or a continuation of the bitter civil strife.
