GROCERY FIGURES IN THREE CITIES OF THE DOMINION

The following comment on the market situation as regards foodstuffs appeared in Canadian Grocer last week. The markets generally are firm to higher with advances registered on many lines of commodities. Sugar supplies are short throughout Canada and just when an improvement can be expected nothing can be learned with definiteness.

Montreal. The future of the markets this week is the reduction in the price of butter and eggs, amounting to one cent a pound on the butter and one cent per dozen on eggs. Fresh fish is in good supply and lake fish are appearing for the first time this season. Cheese remains strong after the advance of last week. Lard is one cent per pound higher.

Molasses is higher and corn syrup follows in the advance. Starches have all taken another step in the advance of prices. Rice is scarce and strong, but Siam rice is offered cheaper. Jams are dearer this week and canned meats of some brands are higher. Vegetables are for the most part cheaper and fruit remains firm. Hay is two dollars a ton higher.

Toronto. Supplies of sugar continue scarce and just when shipments will be coming forward, nothing can be learned with definiteness. Raw sugar has firmed up and quotations are around 21 cents laid down at the port of New York. Corn syrups have again advanced; quotations are now 30 to 60 cents per case higher. This is the largest single advance for some time.

Bulk corn syrup has also advanced one cent per pound. Breakfast food has advanced 8 1/2 cents per bag. All starches have advanced one cent per pound. The coffee market is firm with the tendency to reach higher prices. Spot stocks are low, due to the difficulty of transportation.

Canned peas are scarce and advances have been registered on canned soups, peaches, strawberries and raspberries. Crisco prices have been reduced 70 cents per case. Shelled walnuts and almonds continue in a weak market. Starches, however, are firm. Kivohlines have advanced. Some shipments of Siam, Japan and Texas rice have arrived, but supplies, generally, are small, with the result that prices are higher. Spot stocks of spices are not large and new shipments to arrive will be quoted at higher figures.

Ginger, nutmegs and cream of tartar are scarce. Evaporated apple market has weakened considerably during the past week. Potato supplies are very scarce and quotations are higher. Dealers are looking for a famine in potatoes before the new crop arrives.

Southern vegetables are in good supply. New Florida potatoes are on the market and quotations range from \$12.50 to \$17 per barrel, according to the grade. Cuban pineapples are arriving freely. Quotations, however, remain high. Strawberries are arriving daily and prices are lower. Bananas are quoted one-half cent per pound higher. Advances have been registered on chocolate, cocoa, salad dressing, cotton twine, chewing gum, condensed mince, blue, jelly powder, mullings and matches.

The produce and provision markets show little change. Butter and eggs are easier and quotations are lower. Meats are firm but quotations are lower. Poultry is in fair supply and prices are well maintained. Winnipeg. There has been no startling advances or declines since last week. Raw sugar on the New York market has reached a record that has never been equalled before in the sugar market. Cane syrup advanced 80 cents a case this week, but no supplies are available. Corn syrup and starches are strong and indications point to an increase. Cereals and rolled oats are firm, while canned goods are considerably stronger. The coffee market remains firm, with Santos and Brazil coffee much firmer. The primary tea market is a little easier temporarily, due to the anticipated trade relations with Russia. If this materializes, the price of tea will be much higher this coming year. Very few lines of fruits, except bananas and oranges, are arriving, while the same pertains to new vegetables. Bottles advanced 1 1/2 cents, also flour advanced 8 1/2 cents per 98-pound sack.
