STRIKING BAKERS HELD IN BAIL OF \$840,000

Chicago.—Forty-two members of Bakery and Confectionery Workers' local union No. 2 of this city have been held in \$840,000 bail on charges of conspiracy in carrying on a strike against a reduction of wages. The original bail fixed by the district attorney and grand jury made a total of more than \$7,000,000. The judge of the court in which the case was docketed, evidently realizing the exorbitant sum demanded as bail to be in violation of the constitution of the United States, reduced the original amount. But the reduction in bail will have little influence in getting the arrested men their liberty. The main purpose served will be that the smaller amount looks better in print and gives it the appearance of "justice tempered with mercy." The bail must be provided in real property without encumbrance. Commenting on the strike out of which the charges of conspiracy have been made, the Bakers' Journal says "that when the full history of the crimes committed during the bakers' strike will be written it will be found that the responsibility will have to be laid at the doors of the Chicago bakers employers' association. The bakers' union disclaims all responsibility." "Confessions" made by employers of the conspiracy charges. These spies, spies in the union are the basis of expelled from the union, are said to be living at first-class hotels at the expense of the taxpayers of Cook County.

"STAMPEDE" STRIKES HARMFUL TO LABOR

Indianapolis.—"Unauthorized or stamped-strikes," says the United Mine Workers' Journal, "cast discredit upon the union and prevent its progress. There are men within the ranks of the union who are even trying to destroy the labor organizations from the inside. These men must be made to conform to the discipline of the trade union movement by carrying out trade agreements." The "stamped" strike is a basis for providing evidence to legislative committees on which to hang compulsory arbitration laws, "can't strike" legislation and other legal methods to ensnare labor. The persons usually responsible for them know the purposes of which they are hired, and they are on the job to deliver the goods.

Flooring That Wears

There are few floors that are subject to greater vibration than those in our Sheet Metal Factory, yet they show no effects of the strain. This is because they are covered with Rock Mastic Flooring. Rock Mastic is elastic and resilient, so does not crack easily and is dust and damp-proof. Rock Mastic will withstand heavy traffic and the constant vibration from heavy machinery. Prices and particulars gladly given upon request.
