Eye Talk

HAVE YOU ANY TROUBLE YOUR EYES?

Perhaps you see well enough at a distance, but your principal difficulty is in reading, especially in the evenings, or that after reading awhile the print runs together, or the eyes water, or it may be you have to stop awhile and close the eyes and rub them before again attempting to read.

Or perhaps your difficulty is in reading or writing or any close work, and you cannot recognize your friends on the street.

Or possibly your vision is not satisfactory for either reading or distance.

Test Your Eyes, as we have one of the most complete tes cases obtainable and are therefore in a position to test your eyes and fit glasses to both your and our own satisfaction.
