How Canada's Trade Must Be Carefully Conducted to Capture and Hold the British Markets -Dessicated Vegetables Are Needed for Army and Nav:

DEPARTMENT OF AGRICULTURE, Commissioner's Branch, Ottawa, Feb. 25, 1904.—A. W. Grindley, agent of the department of agriculture in Great Britain, gives the following information in regard to the trade in canned seas." and evaported goods during 1903. in addition to the extracts from his annual report published last week:

FRUIT PULPS. There is a good demand for the following fruit pulps which can be put

pears, apricots. The above fruits are largely used in jam factories in Great Britain. Canadian packers of fruit pulps should observe the following points: 1. Use a heavy grade of charcoal tin plates for making the cans.

2. Do not use rosin for soldering the inside seams, as the least portion imparts a bad flavor to the contents. cause there is less loss in case of a puncture or other cause of damage. 4. For colored pulps an internally lacquered tin is very much preferred. 5. No coloring matter or preservatives of any kind should be added. 6. Have cases holding can's made strongly and with tight covers, not

CANNED MEATS. There is a good demand in Great Britain for tinned meats, but com-

plaints are made than Canadian tinned meats, etc., are often colored next the building rebuilt. tin by some acid action. This may be caused by using light grade tin plates for making the cans. These plates are rolled after being tinned, and so much of the tin being taken off, the iron is exposed in spots and a chemical action packed, Some British firms who import heavy lines of canned goods from Canada furnish the tin plates from which the cans are made, and also have an export representative to supervise the packing of their goods held last Thursday evening. The trial during the season, the result being boring that is being made at Halfway general satisfaction and increased de- River has now reached a depth of more

Whatever sized tins are packed be sure they contain strong net weight. TINNED LOBSTER.

There is a good demand for Canadian tinned lobster if properly put up. Only heavily tinned plates should be used for making cans (lobster works quickly on light plates), the inside of which should be lined with heavy quires large packing factories. Small and George Patterson, M. P. P., of New factories do not, as a general rule, Glasgow. employ skilled labor, and as they cannot pack as fast as supplies come | in St. John. in during the packing season, the result is that stale or partially stale goods are packed, which go off flavor very quickly.

DESSICATED VEGETABLES. There is a growing demand for dessicated vegetables in Great Britain, not for home consumption, but for

naval stores and the war office. W. A. CLEMONS, Publication Clerk.

N ... WOLFVILLE AND ACADIA.

WOLFVILLE, N. S., Feb. 27 .- The Hon. J. W. Longley of Halifax gave a very delightful lecture last night before the Acadia Athenaeum, the students' literary society, on "People I Have Met." He first took his hearers to London and introduced them to a group of statesmen with whom he formed acquaintance through Edward CARSON-On Feb. 16th, at 69 Medford street, Blake, viz., Harcourt, Asquith, Morley, Balfour and Chamberlain. The latter he extalled very highly as a ERBB-At McDonald's Point, Friday, Feb. very eminent statesman and of most commanding personality. He attended a dinner given by the Benchers of Gray's Inn, where he met Lord Herschel, Sir Richard Webster, Cardinal Vaughan, Lord Roberts and the Prince of Wales. He spoke at some length of the literary personages he met in London as Louise C. Mrs. Alexander, Frances H. Burnett Mrs. Custer, Jerome K. Jerome, Marie Corette, Grant Allen and Sir Gilbert On this side he spoke of Cleveland and considered the late Joseph Howe as the most eminent

Canadian he had ever met.

ONE IN FOUR PERSONS One person in every four suffers more or less from itching piles. Some do not know the nature of their ailment, and others have not heard of Dr. Chase's Ointment, as the only absolute and guaranteed cure for this distressing disase. If you are a sufferer ask your neighbors about this great preparation. It has grown popular as a result of the news of its merits being passed from friend to friend.

KAISER CAUSED RUSSO-JAP WAR. ADVICE TO CANNERS Prominent Frenchman Blames Trouble on German Intrigues.

> PARIS, Feb. 29 .- Paul Deroulede, the oyalist refugee, who has been living in Spain since his expulsion in 1900. San Sebastian. He said that at the present moment, when he was advised by friends in the chamber of deputies to keep silence, it was not fitting for him to talk, but he upheld the principle that France must honor her en gagements at whatever cost, postpon ing until afterward the discussion as to whether a pact signed by the president of the republic was really in the interest of the nation. However, he added that Foreign Minister Delcasse which lacks neither skill nor patriot-

"It is evident to me," said M. Deroulede, "that M. Delcasse is doing his best to prevent a general conflagration in which we could only burn our fingers to the great delight and greater profit of the German emperor. It is mpossible not to see that the Emperor William urged Russia to undertake this Asiatic campaign which temporarily draws the Russian forces out of Europe, as Bismarck formerly urged France to undertake colonial expeditions. The result the emperor indirectly aims at is to coalesce Europe against Great Britain and if necessary monopoly for German commerce by

M. Deroulede added that it was an be capable of overcoming the combined Anglo-American fleets, but that at all events the French coasts and the French colonies would be the first sufferers. Minister Delcasse understood up in Canada: Strawberry, raspberry, this, said M. Deroulede, and therefore gooseberry, black currant, peaches, it would be a mistake not to allow him liberty of action.

COTTON MILL BURNED.

Five Hundred People Thrown Out of Work by a \$125,000 Blaze in Utica.

UTICA, N. Y., Feb. 29.-A fire which caused \$125,000 damage occurred in the plant of the New York Mills Cotton One gallon tins are preferable to Co., this morning. The building decans holding five gallons, chiefly be stroyed is a stone structure that was erected in 1840, and which was worth \$25,000. It was fitted with machinery used in the finishing of fancy corduroys and also contained a large amount of stock nearly or quite completed. fire probably started from a harrel of waste and spread so quickly through the inflammable materials that it could not be checked, though its spread to other buildings was prevented. Probably five hundred people will be temporarily out of employment though the plant will be re-opened as soon as new machinery can be secured and the

BOSTON LETTER.

in Spain since his expulsion in 1900, has been interviewed by the Matin at Over Half U. S. Exports Go to British Territory.

> Will Not Run a Line from St. John to the Canary Islands and the Congo.

> BOSTON Feb. 29 .- Mrs. Charles Harison Brock, state president of the Daughters of Veterans (formerly Miss Grace M. Putnam of Leominster) will shortly remove to Amherst, N. S. where her husband has established himself in business. At the annual convention of the state organization in Worcester on Friday Mrs. Brock was accorded a farewell reception. Col. Thomas T. Stokes of the British

Military and Naval Veterans of this city denies a report from Ottawa that against the United States, ensuring a he and other Britishers here are about to form a new steamship line between the destruction of rivals beyond the Boston St. John, Madeira, Canary Islands and the Congo. Mr. Stokes says there is no intention of organizing such open question whether Europe would a line here. He wrote a confidential letter of enquiry to the state depart ment at Ottawa about the export trade to the African coast, but never thought of a proposition to establish a new

> from the United States in 1903 went to British territory, and practically one third of the imports into the United States came from British territory. Total exports to British territory in the calendar year 1903 were \$768,000,000 or 52 per cent. of the total exports, and total imports from British territory \$308,000,000, or 31 per cent, of the total, speaking in round terms. These facts are shown by an analysis of the year's commerce made by the department of commerce and lapor, through the bureau of statistics. By British territory is meant the United Kingdom and its colonies, dependencies and protector

The territory included under the esignation of the United Kingdom tectorates contains over 11,000,000 has a population of 400,000,000, or onefourth of the population of the world. The largest exportation to British territory was to the united kingdom-\$543,000,000—and this was the largest exportation to any single country. Next in order of magnitude of exports 000,000; British Australasia, \$32,000,000; from the effects of an operation in a marriage of Albert V. Forbes of North | British Africa, \$28,000,000; British West | hospital in New York. Deceased, who Sydney and Miss Rebecca Peirce of Indies, \$10,000,000; Hong Kong, nearly sets in shortly after the goods are Parrsboro caused a little ripple in \$10,000,000; India, nearly \$5,000,000; and born in St. Stephen, and at an early social circles last week. The cere- the remainder scattered through the age went to sea, when by his usual from Liverpool for New York.

smaller British dependencies. Of the \$308,000,000 worth of imports into the United States from British territory, \$177,000,000, speaking in round terms, came from the United Kingdom, \$53,000,000 from Canada, \$48,-000.000 from India, \$12,000,000 from British West Indies, \$7,000,000 from Australasia, \$1,000,000 worth from British Africa, and the remainder from num- G. McFarlane and Miss Georgianna erous British dependencies of less importance.

Thus, of the foreign commerce of the United States, aggregating nearly \$2,500,000,000 in the calendar year 1903, more than \$1,000,000,000 represented commerce with British territory. Next in order of magnitude of commercial transactions with given countries is Germany, to which United States exports in 1903 were \$225,000 -000, and from which United States imterritory, outside of Germany, United States commerce is small. To German and to German Africa \$19,000, while imports from German territory, out-

"THE TIGER'S TAIL" AT PORT ARTHUR.

Description of the Narbor and the Varying Depths of the Shallow

Water There. Port Arthur harbor is formed by an oval outlet of the sea, two miles long stroyed. from east to west and a mile from

north to sea. It is surrounded by hills and its sole entrance is on the south ern side by a narrow channel guarded at the southwestern end by a couple of dangerous reefs, and protected against bad weather by a narrow spit of rocky land known as the Tiger's Tail, which runs diagonally across its orthern extremity. Before the extensive dredging opera tions were undertaken no vessel of any

size could enter, owing to the shallowness, and even now there are berths for only three battleships in addition smaller craft. The major portion of the Russian fleet has thus always been forced to lie outside the heads of else enter the large swing basin or wet dock, which lies to the east, facing the entrance to the harbor proper. The approach to the harbor and basin is very confined. The width of

the entrance from Pinnacle Rock on the west to the opposite shore is barely 850 yards, while the three fathom channel at its narrowest is not more than 500 feet in width. Within the heads it widens out somewhat, and between the end of the Tiger's Tail O. Hanson, Francis Armstrong, aged 76 and the entrance to the basin there BELYEA-In this city, on Feb. 27th, Jane, makes it a most difficult task for any vessel over 800 feet in length to enter year of her age, leaving a husband and or leave either the harbor or basin. ten children, four boys and six siris, to This was particularly shown a few bring temptations to misappropriate mourn the sad loss of a kind wife and days before the outbreak of war, when taken from the inner harbor into the happy in his home is less tempted than roads. The operation took the greater one running at large.

The basin or east port was excavated primarily by the Chinese, as also who, for the privilege of earning less REEND-On Sunday, Feb. 28th, at Ringwood, was the dry dock cut in its northern than \$1,000 a year, will subject his so-Mount Pleasant avenue, Helen Maria Wil- side. It has an average depth of 31-2 cial and domestic concerns to the comliams, widew of the late James Reed, Esc. fathoms, or 21.2 feet, and can accom- plete dictation of employers only selfmodate nearly a dozen large vessels. | interested?

The western end is devoted exclusively to torepdo craft, though a dock for these small boats is in construction

on the eastern side. The dry dock, repaired and enlarged by the Russians, is 452 feet over all, 370 feet over blocks, 90 feet wide at the entrance, and has a depth on the sill at high water ordinary spring tides of 32 feet. Thus, even with her draught augmented nearly six feet, the Retvisan could still enter the dock for repairs at high water. Just inside the Tiger's Tail the mud has been dredged away so as to allow destroyers to lie right alongside the building ship, and here eight to a dozen are nearly always moored.

On the Tiger's Tail are placed seven Canet 5.5-inch quick fireers in an open battery at an elevation of not more than ten feet above the sea. At the extreme end of the spit is a quadruple launching ship for destroyers, from which two lots of four have recently been launched after being sent out in sections.

Ships moored in the inner harbon can lie in perfect safety. It is a moot point whether the dock yard could be damaged by high angle fire. The works and arsenal lie so closely under the Kwang-Chin Hill that any projectiles so discharged would range far into the town at the back.

CHATHAM, Mass, Feb 27—Can buoy No 5, marking the dangerous Stone Horse Shoal, has been carried from its position, probably by the drift ice. Can buoy No 1, on the northeast end of Handkerchief Shoal, has

OWEN JONES BEQUEST.

been carried away.

The Ten Thousand Dollar Legacy and What Will Become of It.

Speaking of the Owen Jones bequest, one of the doctors connected with the General Public Hospital suggests that became a reality or not depended the legacy could be used to make good the reduced income from the Savings Bank fund of that institution. When this appropriation from the accrued had been shown in the present war. profits was made to the hospital it was suggested that artillery be made po one of the conditions that the capital fect and that a reserve of supplies should be invested in six per cent government or municipal bonds, and be made to give garrison artillery bet the interest used for maintenance. At ter opportunity for gun practice that time six per cent was the usual rate for such securities. But as these the question of compensation for in bonds fell due it was not easy to replace them at the same rate. Practically the only public bonds bearing six per cent were issued long ago and can only be bought from the holders by the payment of a large premium. It comes to the same thing whether the the by-elections that members of the money is invested in six per cent bonds, government refuse to indicate bought at a price which gives four per cent on the investment, or is used to buy four per cent bonds at par. In either case the income is much less They seem to think that it will than the money was expected to pro- easier to get them accepted by a magduce and did yield on the original in-This circumstance was vestment. mentioned by the doctor, who was ment is presumed to represent. asked what would be done with the bequest recently announced. He thought that the addition of \$10,000 to the endowment might help meet the deficiency, in case the donor had not expressed a desire that it should be de- BENTLEY'S Liniment to keep thele yoted to some particular purpose.
