

Just Received, a Fresh supply of Moffat's VEGETABLE LIFE PILLS AND PHENIX BITTERS.

IT A CONTRARY - All nations from the remotest ages, have had ships, but Columbus only found out the way to America. Before the time of this great Spanish navigator, people were only enabled to paddle about the shores. Just so with the Life Medicines. It is not two short years since I first ventured upon an unknown ocean, and I have discovered the precious oil I was in search of - HEALTH.

Persons whose constitutions have been nearly ruined by the use of alcohol, mineral preparations of the day, will be the first to feel the benefit of these Medicines, and such only, are the true course to permanent health.

GENERAL REMARKS RELATIVE TO MOFFAT'S LIFE PILLS AND PHENIX BITTERS.

These medicines have long been known and appreciated, for their extraordinary and immediate power of restoring perfect health, to persons suffering under nearly every kind of disease to which the human frame is liable.

In many hundreds of certified instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed, and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing.

The frequent rejoices in the opportunity afforded by the universal diffusion of the daily pills, for placing his VEGETABLE LIFE PILLS within the knowledge and reach of every individual in the community.

Their first operation is to loosen from the coats of the stomach, and loosen the various impurities and cruditates constantly settling upon the stomach, and to remove the hardened foci which collect in the convolutions of the small intestines.

Other medicines only partially cleanse these, and leave such collected masses behind, as to produce habitual costiveness, with all its train of evils, or sudden diarrhoea, with its attendant dangers.

This fact is well known to all regular anatomists, who examine the human bowels after death, and hence the prejudice of those well informed men against the quack medicines of the age.

The second effect of the VEGETABLE LIFE PILLS is to relieve the kidneys, bladder, and by these means, the liver and the lungs the healthy action of which entirely depends upon the regularity of the urinary organs.

The blood, which takes its red color from the agency of the liver and lungs before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, and receding to the various parts, renews every part of the system, and triumphantly restores the vigor of health in the blooming cheek.

The following are among the distressing variety of human diseases, to which the Vegetable Life Pills are well known to be infallible.

Diarrhoea, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acid kind - Flatulence, Palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Rheumatism, Headache, Stomachic, and Menstrual, which are the natural symptoms of Dyspepsia, as a natural consequence of its cure.

Costiveness, the cleansing the bowels, and the removal of the bile, by the process, and without violence; all violent purges leave the bowels clogged within two days.

Diarrhoea and Cholera, by removing the sharp acrid humors, which these complaints are occasioned, and by promoting the lubricative secretion of the mucous membrane.

Fever of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in some cases, and the thorough solution of all intestinal obstructions in others.

The LIFE PILLS have been known to cure Rheumatism permanently in three weeks, and found to kill the cause, by removing local inflammation from the muscles and ligaments of the joints.

Profuse sweating of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of Gravel. Also, Borne, by dissolving from the margins of the bowels the slimy matter to which these creatures adhere; Asthma and Consumption, by relieving the air vessels of the lungs from the mucus, which even slight colds will accumulate in the bronchiae.

These medicines have been found a certain remedy for the worst cases of Gravel. Also, Borne, by dissolving from the margins of the bowels the slimy matter to which these creatures adhere; Asthma and Consumption, by relieving the air vessels of the lungs from the mucus, which even slight colds will accumulate in the bronchiae.

may be taken by the most delicate females under any circumstances. It is, however, recommended that those in later periods of pregnancy should take but one at a time, and thus continue to keep the bowels open, and even two may be taken when the patient is very constive. One pill in a solution of two table spoons full of water, may be given to an infant in the following doses - a tea spoon full every two hours till it operates; for a child from one to five years of age, half a pill - and from five to ten, one pill.

THE PHENIX BITTERS are so called, because they possess the power of restoring the expired color of the face, to a glowing vigor throughout the constitution, as the Phoenix is said to be restored to life from the ashes of its own dissolution.

The Phoenix Bitters are entirely vegetable, composed of roots and only in certain parts of the western country, which will infallibly cure FEVERS AND AGUES of all kinds; will never fail to eradicate entirely all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla, and will immediately cure the determination of BLOOD TO THE HEAD; never fails in the disease called by the name of Dropsy, and will be found a certain remedy in all cases of nervous debility and weakness of the most impaired constitutions.

As a remedy for the disease called Dropsy, it is infinitely more powerful than the most powerful preparations of Sarsaparilla, and will immediately cure the determination of BLOOD TO THE HEAD; never fails in the disease called by the name of Dropsy, and will be found a certain remedy in all cases of nervous debility and weakness of the most impaired constitutions.

withered it away or paralyzed it with distention, because of the excessive use of the medicine, the circulation, and instead of discharging it through the gall bladder, leaves it to come through the skin in jaundiced and swollen form, and to rush upon the stomach in irregular and excessive quantities.

Knowing this to be a sound and demonstrated fact, in scientific experience, W. EVANS'S system of practice is in faithful accordance with it.

These medicines, which can be purchased either together or separately, are confidently recommended for the following complaints, and directions for use accompany them - Dyspepsia, in all its forms; Bilious and Liver affections, in every stage and degree; Female diseases, more particularly the menues inaccess to mothers; Fluor Albus; Fever and ague; Incipient Consumption or Decline, whether of the Liver or Lungs; Headache and Giddiness; Loss of Appetite; Nervous Tremor; Insatiation, or Dotrium Tremens; spasmodic Affections of all kinds; Rheumatism, whether Chronic or Inflammatory; Nervous Paralysis of every variety, scrofula, salt Rheum and all blotches, humors, and impure complexion of the skin. Resolvents at night and daily irritability, mealy, the former Complaint of Cholera Morbosus, or Diarrhoea in grown persons. Worms and Flatulency with bad breath, Chlorosis, and Palpitation of the Heart; Head, Chest, most part of all other Constitutional; and for unpaired and disorganized constitutions, in either sex which have been permanently relieved by any other medicine. A single trial of Dr. W. EVANS'S Medicines to any of these cases will produce such effects as will indicate their incomparable superiority, and introduce such use of them as will ensure a speedy and irrefragable cure.

prevail diseases may be arrested and removed, is the object of Dr. Evans in this and other pathological summaries which he will publish, upon the authority of the highest medical writers of the age. His mission will necessarily be brief, but its accuracy will be undeniable.

CONSUMPTION - Of this disease, in one or other of its forms, four thousand persons have died in the city of New York within the last seven years; this is proved by the city bills of mortality; and it is victims throughout the country, have been in almost the same proportion to the population. Consumption of Marasmus Pithicus is of three kinds, the Catarrhal, the Aponeurotic, and the Tubercular. In catarrhal consumption, the cough is frequent and violent, with a copious expectoration of a thin, offensive, purulent mucus, sometimes, but not frequently, streaked with blood. There is generally a soreness about the chest, with temporary pains shifting from side to side. Its ordinary course is a neglected cold, and is therefore a common kind of consumption in a climate subject to such sudden and extreme changes as ours. 2 In Aponeurotic Consumption, the cough returns in fits, and is for some time dry, but with very little expectation, and that very different. There is often in this kind, a fixed, full, circumscribed pain in the chest, which is increased by lying upon the side - The dry cough at length changes to a copious expectoration of purulent matter, which occasionally contains blood, and is accompanied by other painful symptoms, as temporary relief. At this stage, the disease is rarely if ever cured. 3 In Tubercular Consumption, the cough is short and tickling, and is often an exertion of the watery, while the expectoration, tinged with blood. The pain in the chest is slight, and there is an almost insupportable dryness of the throat, which is usually the result of a serous fluid in the lungs, can seldom be arrested in its fatal progress unless in its first advances.
