terrible man any terrible man any mosper when the air we breathe, the water we drink.

The gorm can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of wital force, languar, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pleros's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of row composition and with a record of 40 years of cares. Accept no substitute—there is nothing "just as good." Ask your neighbors.

### EASTPORT CANNERIES READY, BUT SARDINES ARE VERY SCARCE

Eastport, Me., April 14—The open season for canning American sardines opens tomorrow. Everything is ready, but the sardines, which so far have not visited the shores of Eastport. This unwonted shyness on the part of the sardines has forced the price the packers will nay the forced the price the packers will pay th fishermen up to about double what it wa

last year.

If the fish put in an appearance soon packers forecast a prosperous season, a of last season's output, which was smalle than usual, having been sold. Despit these bright market prospects, the fac-tories, which are all ready to open, may have to lose the early part of the season through the perversity of the fish in ling-ering at the southern resorts. The season ends December first. Inspector Steeves, of Sussex, has appointed May 6th as arbor day in school district No. 5. Empire day will be observed on the last school day before Victoria day. # VIGOROUS MANHOOD

Two "Health Belt Men" One 50 Years Old, the Other 30 CAN YOU PICK OUT THE YOUNGER?

"Health Belt man" CANNOT grow old; he must be young forever. Years count for nothing in this life, so long as you have great vitality. Weakness. Nervousness, Unmanliness are conditions to be laughed at by the inreligent user of my great appliance, for it gives, in abundance, all that vim, vigor and nerve force which the weakened system craves. Worn every night and all night for two or three months, it sends a great, warm, glowing volume of electricity into your body through the nerve centers at small of back; from the first hour's use you experience a decided benefit; there is a great, mysterious force which gets right to work. No drugs to be taken; no conditions imposed except that dissipation must cease. Help nature that much; the Belt will do the rest. It takes the weakness and kink out of your back; it drives rheumatic pains away from all parts of the will feel and look young and strong again; women and men noticing your physical change will be more attracted toward you on account of your new vitality and life; in two menths you can experience the full vigor of perfect manhood, or you need not pay me. I will accept your case on the "No Cure, No Pay" plan, or if you prefer to pay cash, I will

## Do You Realize What an Important Work the Kidneys Do?

Do you know that every drop of your blood goes to the kidneys hundreds of times every day? Do you know why? To be filtered and purified from its impurities. That is the great work the kidneys have to do. They filter the blood. Then these impurities go to the bladder and are passed out of the body along with the urine.

Do you think it possible for you to be well, unless the kidneys do this work thoroughly?

Moncton, which has been growing more rapidly than perhaps any place in New Brunswick, is experiencing a new access of confidence as a result of the discovery of natural gas in Albert county, twelve miles out of town, and the proposal to pipe the gas into Moncton for light, heat and power purposes.

A. H. Jones, a prominent Moncton business man and former alderman, who was in St. John yesterday, spoke most hopefully of the outlook for an expansion of business as a result of the gas discovery. The present charges for light, heat and power, he says, will be greatly reduced if the proposed arrangement between the city
