Certain German expenses are declared to have been multiplied 75 times over those of 1919, and certain German taxes are shown to be far below those the Allied populations are paying. The report says:

"Many figures in the ordinary budget seem to have been established by an administration and parliament equally desirous of showing the world the precarious financial condition of Germany and her difficult situation."

If the various recommendations made are followed, the budget should be speedily balanced, says the report. Thus, with a continuation of Germany's economic recovery, the experts declare that Germany, "in a relatively short period can meet her treaty obligations through taxation, without continuing to increase her floating debt or inflate her currency."

The budget for 1920 carried 42,000,000,000 marks for execution of the peace treaty while only 17,000,000,000 marks had been paid out up to December 1 last.

DUBLIN, Feb. 3.—Since the announcement by General Sir Edward Strickland a fortnight ago of a decree of martial law the "Irish Republican Army" appears to have been growing in volume, both in the martial law areas and in districts like Galway, which previously had been quiet. This was the largest crowd that they have had to deal with recently.
