ADIES BASQUE, WITH PLAITS LAID ON AND CLOSED UNDER THE PLAIT AT THE LEFT SIDE OF THE FRONT. (TO HAVE THE SLEEVES GATHERED OR PLAITED.) (For Illustrations see Page 153.)

No. 1737.—A different development of this basque is shown

figure No. 33 H in this number THE DELINEATOR.

Basques of this style are popular parts of tailor-made suits or to ear with independent skirts. The newest lines are seen in the hisque, which is here shown made mixed cheviot, with a finish of hachine-stitching. The basque is

LADIES' DOUBLE CIRCULAR CAPE, WITH VANDYKE COLLAR. (TO HAVE THE FRONT EDGES STAYED BY A RIBBON

BELT OR LEFT LOOSE.) (For Description see Page 148.)

being rolled in small lapels that form notches with the ends of the coat collar, and the closing is made below the lapels with small buttons and button-holes. The darts and all the seams are smartly strapped with the material. The lower front corners of the fronts may be rounding or square. The sleeves are in two-seam style, and the fulness is collected at

the top in a double row of shirring. The outside scam of the sleeve is also strapped, while the inside seam is terminated a short distance from the bottom and decorated with buttons.

To retain the strictly tailor effect most suitable for a basque of this description a stiff chemisette of white linen, a high standing linen collar and the fashionable Ascot tie should be worn. Serge, mohair, heather mixtures or any stylish woollen dress material is suitable for this attractive basque. The strapped seams, however, are more satisfactorily for plain cloth or whipcord. For rough or mixed materials machinestitching is appropriate.

We have pattern No. 1753 in twelve sizes for ladies from thirty to forty-six inches, bust measure. For a lady of medium size, the basque requires three yards and five-eighths of material

twenty-two inches wide, with five-eighths of a yard of goods twenty-two or more inches wide, extra for strapping. Price of pattern, 10d, or 20 cents.

LADIES' TUCKED OR CORDED BASQUE-WAIST. (TO BE MADE WITH OR WITHOUT THE CAPS AND CUFFS.) (For Illustrations see Page 154.)

1767.—This waist is again shown at figure D68. Yale-blue taffeta was here combined with white taffeta

and somely adjusted by a center seam, side-back gores extending to the shoulders, under-arm gores and single bust darts, and stylish fulness is introduced in the skirt by an under box-hait below the waist at the center seam. The side-back seams are covered by plaits that are pointed at their lower ands and narrowed toward the waist-line to give a graceful tapering effect, and corresponding plaits are applied on the fronts, the closing being made under the

applied on the fronts, the closing being made under the plant at the left side of the front. The standing collar closes at the left side, and its overlapping end is prettily pointed. The sleeves are in two-seam style and may be gathered or formed in five box-plaits at the top, accord-

ing to preference; they are encircled at the wrists by traps having pointed ends lapped on the upper side. The mode is extremely stylish, but it must be per-

feetly adjusted, as the smart effect de-lends upon its graceful lines. Durable materials will be selected, and the basque will do service for general wear or for golf, cycling, etc. Such materials as overt cloth, cheviot, serge and broadloth are appropriate for the developpent of this mode.

We have pattern No. 1737 in twelve izes for ladies from thirty to forty-six anches, bust measure. To make the basque for a lady of medium size, will require two yards and a half

f material forty inches wide. Price of pattern, 10d. or

20 cents.

ADDIES' BASQUE, WITH NOTCHED COLLAR. (TO HAVE THE LOWER FRONT CORNERS ROUNDING OR SQUARE) (For Illustrations see Page 153.)

No. 1753.-Another view of this basque is given at igure No. 32 H in this number of The Delineaton. This style of tailor made basque is universally becoming; t is here illustrated made of fine castor cloth and finished with machine-stitching and strappings of the material. It is aultlessly adjusted by double bust darts, under-arm and sideback gores and a center seam, and cont-plaits appear at the side-back seams. The basque is open at the neck in front,
