## Grad class president

#### BEY HICKMAN Phys. Ed. 4

This being my fourth and final year at UNB has made me feflect upon the friends I have made and the ex-periences I have become involved with, all of which have provided me with many fond memories. would like to incorporate past ac-Therefore, I would like to be given tivities with new ideas from other the opportunity to have an active role similar organizations, as well as, ob-in the organization of grad activites, taining feedback from the graduating so that all the graduating students students.

#### LYNN FRASER Arts 4

During my three previous years at UNB, I have been actively involved with various aspects of university life; I cannot see myself spending my final term at UNB without having someting other than school work to occupy myself. I feel I know enough of the "ins and outs" of this university to

will have some good times to remember at UNB, just as I have had.

During my years at UNB, I have taken the initiative to become involved in a variety of organizations and activites, all of which have been both administrative, i.e. organizational and people oriented. I was social chairman at Lady Dunn Hall I was also involved in Red'n Black last year and will be again this year. I served as a group leader on the Orientation Committee this year and am presently holding the position of vicepresident on the Phys. Ed. Society.

If elected to the position of grad class president, I would like to provide a variety of fun-filler activities for the graduating students to take part in. This would be achieved by extending the previous two-day period set aside for grad events to four days or possibly a Grad Week. This would allow an increase in the number of activities. To do so, I would like to incorporate past acstudents.

#### capably handle the position of life executive president.

During junior and senior high school, I was involved with student government; ina period of four years, I held the positions of secretary-treasurer, social chairperson and president of

the student council. At UNB, I was the representative of the arts faculty for three terms. During this period, I sat on the administrative board, SAAC, Campus Safety Council and three other SRC committees. I presently hold the position of director of this year's Red'n Black Revue.

The duties of grad class president seem to be somewhat vague; as I understand it, the president is responsible for the organization of the various Graduation Week events. If I am successful in this campaign, I would concentrate on creating a theme and format for Grad Week that would unify the "Class of '82" and perpetuate a feeling of accomplishment. In other words, I would like to see this year's Grad Week end our years at UNB with the biggest Bash we've ever experiencedñ

athletics and for this reason I feel I want to insure through personal action that this year's grads remain active.

#### COLLEEN FLANAGAN Business 4

I am seeking the position of graduation class vice-president because I see graduation as the high point of all our university experiences and therefore, I hope to make it an exciting, fun and memorable graduation for everyone. I'm hopin that the events and publicity provided by the graduation committee will encourage the majority of graduates to return for the ceremony, special events and to see their friends.

Firstly, my experience on university committess includes a year's service on Lady Dunn's House Committee acting as secretary, three years experience on both Winter Carnival and Orientation Committees. Secondly I served as prom committee chairman on my high school graduation com-mittee and thus I'm familiar with hiring bands, decorating for events and organizing activities from start to inish. Thirdly having held public relations positions for the past three summers I feel that I have the abilities necessary to deal with various groups, alumni and students effectively and helpfully and widely publicize the events so that the graduates have a good idea of the graduation committee's progress with events.

Basically the graduation committe is responsible for planning and raising funds. In addition to the regular events such as the prom and the tree planting ceremony, I would like to see a drop-in social organized for the afternoon of the day prior to graduation--I feel that this enable all of the graduates to run into their friends and chat as well as providing a great warm-up party for the extravaganza. Another idea for graduation is a variety show similar to Red'n Black.

Because the graduation committee serves a life-long membership, this group is also responsible for class reunions. In this respect, I would like to see our class' tenth reunion a huge event, supplemented in number by the invitation of graduates for two years on either side of our graduation.

## Science 4

Basically I feel apathy is on the upswing in university life. I hope that I could use my position to increase interest amon my classmates in future years in the university. I feel alumni support is important in all aspects of university life from academics to

to be limited in the areas of university politics however I am pleased to say that I feel I have been active in the non-limelight position. I have verbally represented my opinions on such issues as the closing of house bars to the dropping of sports on campus and I have expressed these opinions to my peers, representatives of the SRC as well as faculty members.

As class president I would hope to increase my peers' interest in the university in future years.

I would hope that it would be within my power to lead the students back to UNB with their support as well as to reunite them in spirit and in person. After all university is really one big good time and we all should get together later to remember the good times and insure that they continue to happen.
