

VOTE ON MARCH 30

Vice President Grad Class

Peter Arthur

Hi! My name is Peter Arthur and I am a third-year Arts student majoring in Economics. In the past year, I have served on the executive of the Arts Undergraduate Society, I have served as Assistant Director of AIESEC-UNB's "Dream Auction" and I have also served as a member of the orientation committee.

For the Grad Class of 1988-89, I will attempt to develop a delivery system ensuring that each graduate receives his or her yearbook. Also, I will attempt to increase the participation of all graduates in social events, because I think it is important that all faculties unite for their final year! Vote Peter Arthur and make it a year to remember.

Heather McNeil

If you are graduating next year, then this is for your eyes only! (There's a song title in there somewhere...)

My name is Heather McNeil and I'm running for Vice-President of Grad Class '89. I'm a third-year Science student and in the past three years, I have been involved in many activities on campus. Besides being a devoted member of the CHSC, I have been a member of the Health Sciences Society for two years, a member of the Biology Society and a member of the Scuba Club. I have participated in the Arts Cabaret and in the Red and Black Revue for two consecutive years. I have also been involved with the Orientation Committee for two years and this year I am Vice Chairperson for the Committee. I have acquired a lot of valuable experience and I know I would be a definite asset to the Grad Class Executive.

After reading my resume, you know basically who I am. Now I'd like to tell

you why I'm running. Primarily it is an excellent form of exercise... (just kidding)

One of the most important things that involvement in these activities has taught me is that it's the extra-curriculars that make your year. If you have been waiting for your grad year to get involved... well this is it!

My main goal is to form a very active Grad Committee to provide valuable input into planning events. Even more importantly, I want to really increase participation in these events and promote grad class unity. After all... our days as students are becoming numbered. So let's live it up in our final year together. Let's make more friends than we thought possible and create memories that we will share twenty-five years from now. If you want to make your grad year the one you will never forget... get involved! And start by voting... for Heather McNeil on March 30th.

Senate

James Gill

Allow me to begin with an introduction. My name is James Gill, I am a first-year Law student, and I am the Chairman of the SRC. I am very pleased to have the opportunity to represent my fellow students on the Fredericton Senate of the University.

If there is one over-riding theme with which I wish to mark my tenure, it would be co-operation. That is by no means a descent into complacency, nor an acceptance of the status quo, but rather, an expression of my desire to achieve the best possible situation for students in the best manner. We do not serve ourselves with automatic gainsaying of any decision made by those in authority, nor do we serve ourselves by making demands that are impractical or impossible.

There is much which needs to be corrected. For example, course offerings do not reflect what is presented in the calendar. Demanding that departments offer every course in every year is no way to go about solving the problem, though. Rather, those courses which cannot be offered, or will not be offered due to a lack of resources should be dropped, and a system of rotation be implemented with the remainder.

Campus media are a current source of concern. I am on record as supporting the creation of an independent Board of Directors for the *Brunswickan*. Surely an independent Board in charge of the paper is preferable to Council exercising its control! If students really want Council to keep its power over the paper then so be it, but it seems to me more reasonable to create a Board with representation from the Students, Faculty, Administration, the *Brunswickan* staff, and even Alumni. Let us attempt to communicate and cooperate, or we simply descend into the outrageous state of affairs which has unfortunately marked student affairs on this campus. Antagonism only serves to make people dig in their heels. To be most effective, one must work from within.

No representative can act in a vacuum. Your student representatives, regardless of the body on which they serve, cannot work for you unless you do your part by letting them know what you want done. Exercise your powers to vote, and to use your representatives to achieve your goals, otherwise on your head lies the blame when you are dissatisfied.

Engineering Rep

James MacGee

My name is James MacGee and I am running for Engineering Rep. on the Student Union. I am a first-year Chemical Engineering student who is interested in actively participating in, and improving student activities here at U.N.B.

The reason I am running in this election is that the Engineering students, representing as they do a major portion of the student body, deserve to be represented by someone who is going to look after their interests. Someone, who if elected, will be willing to speak out in favour of the needs of Engineering students here at U.N.B. I believe that I am that person and that I have the characteristics which will enable me to do the job. So, on March 30, vote for Jim MacGee and give him the chance to help you.

Comp. Science Rep

Megan Bawn

As a fourth year CS student, I'm running for the position of Computer Science Faculty Representative on the SRC.

My platform is simple: to keep students well informed of the activities of Council, especially those of particular interest to CS students. For example, it is a fact that we, as well as most Engineering students, have no space in Head Hall allocated for a student lounge. This is despite the fact that the Maritime Provinces Higher Education Commission recommends lounges and study areas, and the Engineering Faculty was criticized for this on the last accreditation review. The lack of a meeting place results in less unity between students, which promotes apathy.

It is issues such as this that I feel a stronger student voice could have an impact on.

Science Rep

Alan Robinson

Hi, my name is Alan Robinson. I am a fourth year science student majoring in Biology with the aspirations of heading into a career in dentistry.

I've been a member of the Biology Society for three years, the Health Sciences Society for two years, as well as an executive member of the Health Sciences Society in this past year.

Being involved with these societies in the past few years, I have become more aware of the needs of the science students on campus. With this experience, I now believe that I can be a responsible representative of the science students as a member of the student council.

Carol Sharpe

A strong Student Union fuels an enthusiastic and active student body. I believe a student orientated Student Union is necessary to improve life on campus. To involve students directly, better communication should be established between faculty societies and their elected representatives on Council.

Through involvement with the Biology Society (President 87-88, Secretary 86-87) and Orientation

(Group Leader 87, Field Staff 86), I have come into contact with a wide variety of students. I feel I know the opinions of the majority of Science

students to effectively voice their ideas on Council.

Please support the UNBSU by voting Carol Sharpe on March 30, 1988.

Executive

Independent candidates

President

Candidate for U. S. President

Hitler-Kitty

Meowrr!!! Hi! Yes, it's me the cat for student rights. My name, as many of the student electorate are aware of by now, is Hitler Kitty, I'm the unofficial running candidate for the position of Student Union President (which means that my name won't be printed on the ballot but should be written in by the voter).

Why should a cat be running in the election for the presidency? Why not? I'm just as cute and as lovable as the other candidates for this position (HA!) and I'm just as willing to have my fur ruffled in a real cat fight for this seat.

What do I stand for? I believe that I am in touch with the needs of the students on this campus and that from being an active observer, as I'm so small and no one really notices me while I'm eavesdropping, that I know what concerns you - the students and my electorate. This past presidential year has brought with it many issues that were handled by the Student Union that directly affected the student populace and created an awareness of issues that have previously been neglected to be addressed. It's going to keep happening and change is progressive with the key word being "progressive". We have to progress to the point that we are willing, as a team, to work together to solve dilemmas that arise and confront the students of UNB.

Think about what these issues have been -- sexual harassment, the increasing cost of trying to better your position in life by enrolling at UNB, the apathy that has been demonstrated throughout campus, the tearing out the heart of your wallet when you purchase books and beer, the fear of dying from AIDS because you're too shy to purchase the "right" protection and too embarrassed to ask the little lady or big hunk if they have adopted the right attitudes towards safe SEX. These issues directly affected you - did you care enough about yourself or others to even consider them? I'm not promising you the answers to these issues as I'm not the cat who swallowed the canary, but I CARE!!!

Cooperation is something that I learned from "Sesame Street" just as most UNB students did, and it is the key to success in any campaign, in any event, and in anything that any individual wishes to accomplish. I reach out my paws to you - to the students of UNB - to do something not for me but for yourself - VOTE! If not for me, then for someone else, but the key thing to remember is if you don't vote, you're not stepping on my tail, you're hurting yourself; it's YOU who is allowing the minority to rule the majority. Don't waste your vote - if you don't know who to vote for, vote anyway and vote for me, the unofficial candidate of the UNB election - WRITE IN "HITLER KITTY" on your election ballot.

Treasurer

Ernest Dunphy

Hello, my name is Ernest Dunphy and I am running for the position of Treasurer. During the past couple of years I have been involved with the *Brunswickan* as the Editor-in-Chief and Managing Editor. Besides being responsible for the content of the paper I also managed the 87-88 budget and created the 88-89 budget. I am a business student concentrating in accounting which gives me an excellent background for the position of Treasurer.

The Treasurer must work with clubs and societies regarding their current and future budgets. I will try to be reasonable with groups regarding their current budget situations. Ensuring that organizations receive fair and equitable budgets is a top priority for me.

Many of the organizations on our campus deserve office space but cannot get it. I think the Student Union should attempt to locate space for these groups that contribute so much to the culture of our university.

As Treasurer I would also like to investigate the way Bar Services operates. Under the current system it is nearly impossible for student groups to make money from the bar. As a result many groups now hold events off campus. What we must do is develop alternatives to Bar Services so more events are held on campus to improve campus life.

I offer to you, the students, practical experience, knowledge and the promise to work diligently for you if elected as Treasurer.
