N^o 305-1-9
1940

German Short Wave Broadcast -- Feb 28, 1940

Announcer quoted Le Soleil to the effect that there was no enthusiasm for the war, that many Canadian soldiers had been forced into service, that equipment was insufficient, clothing was poor and that there were more cases of sickness among Canadian forces than there had ever been before. Further, that ~~the~~ French-speaking Canadians were not behind the Government and that only British officials were enthusiastic for the war.
