

DE LAVAL

THE finest built machine of its kind in the world. Made from the best material that money can purchase, by the most skilled expert mechanics obtainable from both sides of the Atlantic. All this, backed up by twenty-five years' experience in this particular line of work, and a well deserved and unapproachable reputation, are reasons why you can safely leave separator experimenting to some one who has time and money to waste.

CREAM SEPARATORS

Times Are Changed...

There is very little profit for the farmer raising hay or grain as principal crops.

There is a fortune in raising stock of all kinds if properly done.

You lose one third of the value of your grain if you feed it whole.

Perhaps you get yours chopped, but why not chop it yourself?

By arrangement with the oldest manufacturers of grain grinders in Canada, we are enabled to furnish our subscribers with a fully guaranteed machine at a special price for cash, or on small monthly payments.

CUT THIS OUT AND MAIL TO US

THE FARMING WORLD,
Confederation Life Building, Toronto

Please send me particulars, price, terms, etc., for your grain grinder. It is understood that this is not an order.

NEW BOOKS

FOR THE

Business Farmer

Animal Breeding. By Thomas Shaw, Professor of Animal Husbandry at the University of Minnesota. Author of *The Study of Breeds, Forage Crops Other Than Grasses, Soiling Crops and the Silo, etc.*

This book is, beyond all comparison, the most complete and comprehensive work ever published on the subject of which it treats. It is the first book of the kind ever given to the world which has systematized the subject of animal breeding. It includes thirty chapters, each of which treats of some particular phase of the subject. Illustrated, substantially and handsomely bound in cloth, 5 by 7 inches, 406 pp. Price, postpaid, \$1.50. One new subscription to THE FARMING WORLD and "Animal Breeding," both for \$2.00.

The Study of Breeds. By Professor Thomas Shaw.

Origin, history, distribution, characteristics, adaptability, uses, and standards of excellence, of all the pedigreed breeds of cattle, sheep and swine in America. The accepted text book in colleges, and the authority for farmers and breeders. 372 pages, 12 mo, 5 by 8 inches, 60 full page plates. Price, postpaid, \$1.50. One new subscription to THE FARMING WORLD and "The Study of Breeds," both for \$2.00.

Soiling Crops and The Silo. By Professor Thomas Shaw.

The growing and feeding of all kinds of soiling crops, conditions to which they are adapted, their place in the rotation, etc. Not a line is repeated from the Forage Crop book. Best methods of building the silo, filling it and feeding ensilage. Illustrated, 11mo, 5 by 8 inches, 364 pages. Price, \$1.50. One new subscription to THE FARMING WORLD and "Soiling Crops and the Silo," both for \$2.00.

Forage Crops Other Than Grasses. By Professor Thomas Shaw.

How to cultivate, harvest and use them. Indian corn, sorghum, clover, leguminous plants, crops of the brassica genus, the cereals, miller, field roots, etc. Intensely practical and reliable. 208 pages, illustrated, 12 mo, 5 by 8 inches. Price, \$1.00. One new subscription to THE FARMING WORLD and "Forage Crops Other Than Grasses," both for \$1.70.

Milk and Its Products. By Henry H. Wing, Professor of Dairy Husbandry in the Cornell University.

A treatise upon the nature and qualities of dairy milk, and the manufacture of butter and cheese. 12mo, cloth, Price, \$1.00. One new subscription to THE FARMING WORLD and "Milk and Its Products," both for \$1.70.

Fruit. A Practical Guide to the Picking, Storing, Shipping and Marketing of Fruit.

The subject has been treated strictly from the standpoint of the fruit producer. The commission business, for instance, is thoroughly and fairly but not pedantic, and the commission men can hardly be displeased with the advice given, yet it is all plainly directed to the benefit of the fruit grower. Evaporating and canning are handled the same way—not by telling how to run a canning factory or a commercial evaporator—but by explaining those points which are of interest to the man who grows the fruit. The whole subject is tersely, plainly and adequately illustrated. It is a book which every one can read and enjoy, and which no fruit grower, large or small, can do without. Illustrated, 5 by 7 inches, pp. 280. Cloth price postpaid, \$1.00. One new subscription to THE FARMING WORLD and "Fruit," both for \$1.70.

Cabbage, Cauliflower and Allied Vegetables, from Seed to Harvest. By C. L. Allen.

A practical treatise on the various types and varieties of cabbage, cauliflower, broccoli, Brussels sprouts, kale, collards and kohlrabi. An explanation is given of the requirements, conditions of sowing and general management pertaining to the entire cabbage group. After this, each class is treated separately and in detail. The chapter on seed raising is probably the most authoritative treatise on this subject ever published. Insects and fungi attacking this class of vegetables are given due attention. 80 cents. One new subscription to THE FARMING WORLD and "Cabbage, Cauliflower and Allied Vegetables, from Seed to Harvest," both for \$1.25.

Prize Gardening. How to Derive Profit, Pleasure, Health, from the Garden. Compiled by G. Burnap Fiske.

Five thousand gardeners all over America kept a daily record of the methods and results for a whole season, and reported thereon fully in competition for many and large prizes. They represented all grades from the small amateur to the professional market gardener. This unique book summarizes the most useful of all this experience. Illustrated with many charts, sketches, etc., from original photos, 323 pages, 5 by 7 inches, bound in cloth. Price, \$1.00, postpaid. One new subscription to THE FARMING WORLD and "Prize Gardening," both for \$1.70.
