Jerseys Have Been Proved Best

Buy a good Jersey and you don't have to experiment. There is no speculating as to her performances. There is no doubt but that she eats less and gives better milk, richer in butter fat, than the milk of any other breed. All of the experimenting has been done already. Jersey history is made up of facts--not theories. Whether you sell milk or butter, or both, you'll get a higher percentage of profit out of Jerseys than you can get out of any other breed for the same feeding cost.

Look into the matter. The more you investigate, the more Jerseys you'll buy. Booklet of facts on request.

building large enough could not be secured elsewhere.

A larger exhibit of boxed fruit is expoeted, as practically all of the counties
and big shippers are putting in more
displays and entries. The entry may
number 3,000 boxes. Educational exhibits
will portray the difference between fruit
from sprayed and unsprayed and from
thinned and unthinned trees.
