Contractor's Hoist

This hoist is designed for use with our verti-
 cal engines and is intended for general con-
 tractor's use where a double platform ele-
 vator is employed, one plat-
 form descending as the other
 ascends. It is equipped with
 winch head on one side which
 can be used for elevating
 beams or other material that
 cannot be taken up on regu-
 lar elevator. The drum
 sheave over which the ele-
 vator cable runs is placed on
 the other side of hoist. This
 sheave and the winch head
 are interchangeable so that
 they can be placed on either
 side desired. Can be operated
 by steam, gasoline or electric
 power.

**EUREKA SUPREMACY IT IS SELF-
 EVIDENT**

Furnished with Steam, Gasoline or Electric Power.

The Eureka Concrete Mixer
 is adaptable to all kinds and
 classes of work. Easily moved
 and ready for work instantly
 when on the job. The measur-
 ing is automatic and guaran-
 teed accurate and reliable.

THIRTY-SEVEN plow-shaped
 blades in an open mixing
 trough mix the material thor-
 oughly, first dry, then wet.

For justice to yourself, it will pay
 you to know more about
 Eureka mixing. We have
 some astonishing evidence of
 Eureka superiority. Ask for it.
