QUESTIONS AND ANSWERS. Veterinary.

LAME IN NEAR HIND LEG.

My horse starts off lame in near hind leg. He has done so for a year. Some mornings he is worse than others. There is no sign of a spavin or other enlargement. Would you advise a blister on the seat of spavin? H. M.

Ans.—The symptoms indicate spavin lameness. In some cases spavins do not cause an enlargement, and these are usually the hardest to treat. It would be wise to blister as you suggest, and if this does not cure, get your veterinarian to fire and blister. In fact, it would be wise to have him fired at once, as it is highly improbable that blistering will be effective in a case of so long standing. V.

PIGS WITH COUGH.

My pigs commence to cough at from two weeks to three months old. They gradually waste away and die. I killed one, and a post-mortem revealed the lungs a dull blue color, and when cut open a light-colored fluid was noticed. Some do not die, but they mature very slowly. D. BROS.

Ans.—The symptoms indicate lung worms, or infectious bronchitis. If the former, a very close examination of the lungs of the pig you killed would have revealed the presence of very small, fine, thread-like worms. In either case, treatment is not usually satisfactory. It consists in shutting the pigs in a close compartment and burning sulphur so long as you can stand the fumes, then opening door and windows to admit air. Repeat treatment every two weeks as long as necessary. It is usually wise to destroy the lot, and thoroughly disinfect pens and yards before introducing fresh stock. I think it would be wise for you to get a veterinarian to slaughter and hold a post-mortem on a pig showing well-marked signs of the trouble in order to make a definite diagnosis before treatment or general slaughter. V.

GOSSIP.

The latest shipment of Clydesdales from Glasgow, bound for Canada, sailing October 7th, totalled 66 head, the importers being W. J. McCallum & Bro., Brampton, Ont.; A. F. McNiven, St. Thomas, Ont.; John Clark, Crowfoot, Alta., and John Graham, Carberry, Man.

Fourteen head of registered Aberdeen-Angus cattle, five bulls and nine females, are advertised to be sold by auction on November 16th, at Clarksburg, Ont., 1 1/2 miles from Thornbury Station, G. T. R. (Barry and Meaford branch). Parties interested will do well to look up the advertisement.

Geo. Davis & Sons, Alton, Ont., a station on the Orangeville branch of the C. P. R., in their advertisement of Aberdeen-Angus cattle, offer for sale at a moderate price, a choice fifteen-months-old bull, by the good breeding sire, Cochrane of Tweedhill, and out of Queen Easter 3rd of Glengore.

A. A. Colwill, Newcastle, Ont., the well-known breeder of Tamworth swine and Cotswold sheep, writes: I have had a very satisfactory season, with prospects for a splendid fall trade, in Tamworths especially. I have as fine a lot of pigs from three weeks to ten months old as I ever owned. My January and March sows are, I think, the best lot I ever owned. Several of my March pigs weigh from 225 to 265 lbs., and are as sleek and smooth as silk, with wonderful length and depth, and extra heavy bone, just suitable to carry such heavy-weight bodies as these pigs possess. I also have a nice bunch of pure-bred Cotswold sheep and lambs of both sexes for sale; also my stock ram of three shears. These will be sold at good bargain prices.
