A CHRISTMAS GIFT—The Farmer's Advocate

The Pas residents already feel themselves highly favored even with the steel laid, for they can furnish their own motive power. One of the weaknesses of The Pas townspeople is that they have little regard for the rights of others when it comes to traveling on a handcar. If a party go to The Pas on a car and fail to take off a wheel and cache it, they may rest assured their car will be borrowed during the night and will be left at Etomami.

North of The Pas, where the Government surveyors are at present running a line to the bay, is rather low. After forty years in the country an old trader said he had seen the country immediately north of the river so that a steamer could navigate with ease over it. Turning to the eastward and running near the chain of lakes to the north seems to be, in the opinion of the residents, the right direction. For more than one hundred miles the character of the country is much the same. Then the high, rocky land is reached where prospectors are already busy. Over this land the railway will be able to go straight to the bay in safety. When this line is completed, Winni-

peg will be 850 miles from the bay even by this indirect route.

Immense timber limits to the northwest of The Pas are held by Smith & Finger, and when the railway is opened they will start operations. A mill site has been secured at the town, and the logs will be driven down the river and the lumber shipped south over the line. This will be the biggest business of the line for some time. Then there is the fishing business. In winter many carloads of whitefish and jackfish are taken out of the lakes about forty miles northeast of the town. If the fishing is not prosecuted this winter it will mean a loss of revenue to the Indians, for that was their winter work. Mining will also be a good business some day toward the bay, and will furnish considerable freight. Then there will be the return freights from the Old Country, which will all combine when the time comes to make the railway a paying proposition. When that day comes, The Pas will have achieved its object and will become a city with a large country, all its own, surrounding it. Meanwhile it waits.—George Fisher Chipman, in Collier's.

OFFER TO WEAK MEN!

I make this offer to weak men, particularly those men who have spent their earnings for years on dope (the drugs that make them feel like a young colt one day and like an old, broken-down hack the day after), those men who have tried so many things, that they are tired of fooling and want a cure. These are the men I appeal to, and to any man who will give me reasonable security I am willing to give my

Electric Belt on Trial Until You Are Cured

I claim that I can cure weak men; that I can pump new life into worn-out bodies; that I can cure your pains and aches, limber up your joints and make you feel as frisky and vigorous as you ever did in your life. That's claiming a good deal, but I have got a good remedy, and know it well enough to take all the risk if you will pay me when you are cured. No man can lose on this. If the cure is worth the price you don't have to pay for it until you get it. When you are ready to say you are a big, husky and frisky specimen of vigorous manhood; that you haven't got an ache or pain in your whole body and that you feel better than you ever did in your life, I get paid. If you can't say it after using my Belt for three months, then give me back my old Belt and I won't ask a cent. A short time ago I took a case that I couldn't cure, and I didn't see why, as I had cured hundreds like it. Anyway, my patient returned the Belt and said I hadn't done him any good. He said he thought I had treated him honestly and wanted to pay me the cost of the Belt, because it could not be used again. I refused, and told him that I had made a contract to cure him or get nothing, and I wouldn't take a dollar I hadn't earned. Take my Electric Belt for what it will do for you. Wear it when you sleep at night, or while you are resting after your work. You will find it a vitalizer, a tonic to your nerves, a rejuvenator of waning vitality. Use it for any ailment which drugs have failed to cure, and you will never cease praising it. I've cured lots of men who had paid over a thousand dollars to doctors before they came to me.

This is the Way They Feel

The men who had given up hope, who thought there was no cure for them, until they came upon Dr. McLaughlin's Electric Belt. Now they are full of life and overflowing with joyous spirits. Pains are gone, weakness has gone, and full vigor is in every action. Do you want to feel like that? Then wear the grand life-giving appliance for two months at night. I will charge every nerve with electric life, and you will feel rejuvenated and invigorated. It puts steam into your run-down body, drives away pain, and renews youth.

Tell me where you are, and I'll give you the name of a man in your town that I've cured. I've got a cure in every town. That's enough. You don't need to pay me a cent. Come to my office and throw any away. While the glass is in your hand, throw yourself in the glass and say, "I've got a cure for you."

Free Book I've got a book full of the best talk about how men are made big and strong. It's on free, so I'll send this copy. Call for consultation free.
