"I Found a Cure"
 Dr. McLaughlin's Electric Belt Did It
 So Writes Mr. G. Herman. This is His Experience in His own Words Cured When Medicine Failed

Whitemouth, Man.
 Dear Sir,—I wish to tell you what your Belt has done for me. When a lad of 18 years, I was carrying a heavy bag of corn, and somehow or other I must have hurt myself. A pain came on soon after, like a cramp in the stomach, and it was getting steadily worse until I found relief from your Belt. I tried doctors and patent medicines with no benefit. I then read in the papers of your Belts and their wonderful cures. After purchasing one of your Belts I found relief at once, and it has now completely taken the trouble away, and I can now lift anything without feeling that hated pain. My food digests better, and I can now enjoy pleasure, whereas before it was useless to be where it was. I am very well pleased with your Belt, and would not part with it at any cost. I would gladly recommend it to any sufferer, as I have proved it to be a cure for what medicine would not reach. I remain yours faithfully, **G. HERMAN, Wardrop's Camp.**

Hundreds of men are writing me letters like this, men who have been cured right in your own neighborhood. Let me furnish you their names, so that you can talk to them personally.

You Run No Risk in Using My Belt—I Take All Chances

Do you doubt it? If so, any man or woman who will give me reasonable security can have my Belt, with all the necessary attachments suitable for their case, and they can **PAY WHEN CURED**

Give me a man broken down from dissipation, hard work, or worry, from any cause which has sapped his vitality. Let him follow my advice for three months, and I will make him as vigorous in every respect as any man of his age.

I will not promise to make a Hercules of a man who was never intended by Nature to be strong and sturdy. Even that man I can make better than he is; but the man who has been strong and has lost his strength I can make as good as he ever was.

I can give back to any man what he has lost by abuse of the law of Nature.

A man who is nervous, whose brain and body are weak, who sleeps badly, awakes more tired than when he went to bed, who is easily discouraged, inclined to brood over imaginary troubles, who has lost ambition and energy to tackle hard problems, lacks the animal electricity which the Dr. McLaughlin Electric Belt supplies.

The whole force of vitality in your body is dependent upon your animal electricity. When you lose that in any manner my Belt will replace it, and I will cure you.

appointed as possible. Sufficient warmth and comfort in the roosting pen is the key to success with the cold poultry house. Consequently, the roosting pen, D must be warmer than the rest of the house; otherwise, in certain parts of the country the hens would freeze. We, therefore, recommend the construction of that part of the house, but that portion only, with a double ply of lumber with building paper on both sides of the scantling, NNN. The plat-

form, J, should be constructed with two ply of boarding without any space between.

That portion of the roof, O, should be built in the same manner as the sides, OOO, of a single thickness of boards. If the lumber used is not tongued and grooved (matched), it is advisable to clap-board the outside. The roof may be covered with shingles or roofing paper. Besides the roosting pen, D, (horizontal plan) we have placed special quarters for the male bird, L. The nests are 22 inches above the ground. The

object is to utilize the space under the nest and enable us to shelter a greater number of birds under the same roof.

MATERIALS REQUIRED FOR COTTON-FRONT HOUSE

A load of stone for the foundation, 220 feet (lumber measure) of 2 by 3 and 3 by 4 scantling. 800 feet 1/2-inch boards. One window frame. One roll roofing paper. Twelve yards muslin. Six yards 2-inch mesh wire netting. Fifteen clapboards. Roofing. Molding (10 lengths). Hardware, \$1.25. The descriptions furnish all the other information, and also those dimensions of the cotton-front poultry house, which ex-

The proofs of the hundreds of really remarkable cures are too strong to be doubted or denied. Yet she makes no charge for her help, (she asks for no money and accepts none) so there is no reason why you should not write her at once.
