

Maxwell \$850

F. O. B. WINDSOR

*We make it better—
sell it for less—*

**—that's why the
Maxwell is so popular!**

A good, honestly built car, designed and constructed to stand continuous hard usage—and to give such service at the lowest possible cost—that is the Maxwell.

In addition you have every convenience, such as electric starter and lights, demountable rims, one man top, irreversible steering gear, speedometer, instrument board, gasoline gauge, dash lamp, rain-proof windshield, etc.

You enjoy driving the Maxwell. It is so very easy to operate, has so much life, quick pickup—and power for any road. Your wife or daughter can drive it with perfect satisfaction, too.

Next comes the price: \$850 for the touring car, and \$830 for the roadster. Compare these prices with those you pay for other cars offering the same advantages.

And the upkeep expense is in keeping with this low first cost. Twenty-five miles per gallon of gasoline—and from six to eight thousand miles per set of tires—surely that eliminates any thought of extravagance in driving the Maxwell.

Remember that the Maxwell is in no way a compromise. It is the kind of a car you have in mind—the ultimate car. And the price enables you to own such a car without the heavy investment required for most cars offering the same features of construction and equipment.

We probably have a dealer near you who will gladly show you the Maxwell and explain all about it. If you will let us hear from you, we will put you in touch with him quickly.
