

Frost Fence First

FIRST, because we make the wire for Frost fence in our own mills. The steel has the right temper, and the wires the smooth, careful galvanizing that is required to withstand extremes of Western Canadian temperature.

Frost fence is first on account of its durable, tight lock. Look at it and you will say there is nothing cheap or flimsy about it. Plenty of wire, and to spare, is used to wrap it around the stay and lateral so that it cannot work loose. Frost fence is first in quality and first in sales. If you do not know the name of a nearby dealer—write us.

A style for every purpose.
