No Guesswork.

Our method of testing eyes and
fitting them with glasses, is mod-
ern, up-to-date and scientific.

THERE IS NO GUESS-WORK

It costs you nothing to let us
examine your eyes.

If you are suffering from head-
aches, pain in back of eyes, or
vision is blurred, or you get diz-
zy easily. Something is the
matter with your eyes. We fit
glasses that relieve the strain.

Prices Moderate.

Pert Paragraphs.

The quickest way to find happiness is
in the dictionary.

Never try to kill time; time is bound
to kill you in the long run.

Mr. Luker—"No, sir! My daughter
would starve if she married you."

Mr. Nomoney—"Oh, we'll, if you are
the sort of man who would let your own
daughter starve, I've no desire to be-
come a relative of yours. I withdraw
my request."

Medical specialists, who have had
Arneil Love under their observation
for the past six weeks, express the op-
inion that he is telling the truth—that he
did eight years ago kill his mother as he
has confessed. It is believed that the
father helped dispose of the body and
out of affection for and pride in the boy
went to his death a willing sacrifice.
The memory of a man with a spirit as
noble as this should be cleared of stain.

That gasoline is plentiful as water and
gushes in never ending streams from
everlasting underground oceans would
seem to be the attitude of many an
unthinking motorist these days. Such
folk live in a fool's paradise. As a mat-
ter of fact, the world's reservoirs are
being rapidly depleted with the tremen-
dous increase in the number of autos
and motorboats. Gasoline rationing is
actually in sight. And unless a substi-
tute is discovered it looks as though an
abrupt halt might soon have to be called
in the indiscriminate use of motors and
in the output of new machines.

Couldn't Get Tax Collector

Nobody desires the position of tax
collector in Warton. At least that is
the finding of the town council after ad-
vertising for applications for the position
As a result the council at its recent
meeting decided to have the taxes pay-
able to the town treasurer until the sec-
ond instalment is due and then the
names of delinquents, if any, will be
handed over to a regular collection agen-
cy for further action. The treasurer
will receive an additional \$100 for the
extra work.

A Specimen of Billy Sunday.

The League of Nations was made a
target by Billy Sunday in an address be-
fore the Epworth Assembly. "I am not
in favor of allowing a bunch of mutts,
mollycoddles and cornudgers to sit
around a table and decide when we are
to declare our wars" he said "I am not
for a league without reservations, and if
Jim Cox and the Democratic party stand
by the kind of league of nations Wilson
brought home with him, they will go to
digging graves so deep they will never
hear Gabriel's trumpet on judgement
day.

Tossed by Angry Cow.

While driving a cow up to the barn a
week ago Monday, Mrs. W. J. McLean
of Walter's Falls was attacked by the
angry animal and severely injured, her
arm being broken by the fall which she
sustained after being lifted by the cow's
horns and tossed into the air. The fact
that the cow had given birth to a calf
the night before was the cause of her
anger. On seeing Mrs. McLean ap-
proach the calf the cow rushed at her
and knocked her down, trampling her
about the upper part of the body. As
the other cows in the field approached
the spot where the calf was lying, the
angry animal withdrew her attention
from Mrs. McLean and rushed to op-
pose the new enemy. This undoubtedly
was what saved the woman from being
gored or trampled to death, as the cow
would certainly have attacked her again
had it not been for the intervening cir-
cumstance related. Fortunately Mrs.
McLean, though suffering from a broken
arm as well as from bruises on the head
and body, was able to get up and walk
to the fence where her children were
standing horror-stricken. With much
difficulty she managed to get to the
house where she phoned for a doctor
who reduced the fracture.

KNECHTEL & KNECHTEL

**Constipation Cured
By Christian Science**

Seventy five people out of one
hundred can be cured by Christian
Science methods, which proves the
great power of the Mind over the
Digestive Apparatus and the fre-
quency of Nervousness as a cause of
Constipation.

When these methods fail
Hacking's Kidney and Liver Pills
are recommended. They are purely
vegetable and do not Gripe or Ir-
ritate; many people have found them
excellent for Headache, Dizziness,
Bad Breath, Coated Tongue, Loss of
Appetite, Indigestion, Gas on the
Stomach, and many other evils that
are due to Constipation.

Where there is Extreme Nervous-
ness and you are "all run down" and
"tire easily" it would be just as well
to take
Hacking's Heart and Nerve Remedy
along with these Pills. This com-
bination goes well together and re-
stores the good health of your
younger days. The Heart action be-
comes normal, the Nerves take on
new Life, Power and Vigor and the
"human machine" becomes full of
"pep" and vitality.

If you are tired of sickness and
have lost the Power, Ability and
Nerve Force to do your daily work
and your Nerves are all Shattered
just give these two Remedies a trial
and we will positively guarantee
beneficial results. Go to your dealer
to-day and ask for Hacking's, and do
not take any other kind for if you
do you will be fooled right at the
start and you will not get the results
that we guarantee. Hacking's Limit-
ed, Listowel.

DRUGGIST

The United States is the greatest con-
troller of oil fields of the world, but
Britain is gradually strengthening her
hold on the future oil supply. She has
recently acquired exclusive concessions
in the five provinces of Northern Persia

Through Oxford county the sow thistle,
one of the most noxious weed pests
of the age, is gaining an alarming foot-
hold in practically all of the townships.
This weed has a yellow flower, some-
what resembling the dandelion, and the
stalk and foliage are something like a
Scotch thistle. It grows with alarming
rapidity, and is most prolific in both
seed and root. Some farmers find that
a well-cared-for root crop is the best
way of clearing out the pest, and others
advise early gang-plowing.

**What would You
do with it?**

If you owned this Company, what would you aim to
do with it?

You would want to give good service to your patrons—

To pay good wages and provide agreeable working
conditions for your employees—possibly make pro-
vision also for their old age—

And to pay a fair return to investors who had put
their money into the business—such a return as would
attract other investors so that you would be certain to
obtain necessary new money for extending the system.

This is just what we are aiming at—no more; no less!
These things cannot be done on our present revenues!

That is why we are asking for a readjustment of our
rates for service!

THE BELL TELEPHONE COMPANY
OF CANADA

Not long ago an old fellow died out in
Kansas, leaving a fortune. He had a
houseful of children—ten or a dozen.
It cost considerable to feed them. The
old man evolved a scheme. He would
say to the children in the evening "Now
how many of you will take a dime and
go to bed without supper?" They all
took dimes and went to bed hungry.
Next morning he would say, "Now, chil-
dren, how many of you will give me a
dime for a nice warm breakfast?" Of
course they would all give up their dime.
The old man thus saved the cost of their
suppers. This was just one of his
schemes; he had others. That's why
he died rich.
