BROCKVILLE CUTTING SCHOOL

IN ORDER to meet the demand for first-class cutters, which is steadily increasing, I have opened up in connection with my tailoring establishment a Cutting School, to be known as the Brockville Cutting School where the latest up-to-date systems of cutting will be taught, also instructions on the practical work of the tailor shop, which is most essential for a young man to become a first-class cutter, and which will enable him to command a salary of from One Thousand Dollars to Fifteen Hundred Dollars per year in this country and from Fifteen Hundred Dollars to Two Thousand Five Hundred Dollars per year in the United States. This is a rare chance for young men to fit themselves for a lucrative position in a short time. Persons attending this school will receive a thorough training in everything connected with Garment Cutting, and after graduating are competent of filling a position as custom cutter at once.

Pupils will be taught individually and may commence their instructions at any time convenient to themselves.

For all information, see catalogue, which will be mailed to you upon application.

Yours truly,
M. J. KEHOE

REV. MR. McMULLEN INDUCTED.
The Merrickville Star in its issue of the 17th inst. gave a lengthy account in the induction services held in the Presbyterian church there by which the Rev. Mr. McMullen, of Springfield was inducted into the pastorate of the churches at Merrickville and Jasper. The Rev. Mr. Frizzelle, pastor of St. Paul's church, Athens, preached the induction sermon. Following is the Star's report of it:

The service was opened at two o'clock by Rev. Frizzelle, of Athens, and after the opening exercises and prayer by the Rev. Mr. McArthur of Cardinal, Rev. Mr. Frizzelle preached. The reverend gentleman's theme was "The Church," and preached a very able and scholarly sermon. He said the church was a living body and every man may unlock the door that holds its mysteries. He asked how Christianity had its rise and spread. It arose in the mystic depths of man's soul and was spread abroad. It does not take its rise from outward things and cannot be produced by mechanical means. The crusades, the reformation and such risings all originated from religion. It is the Christian people that make a Christian church. The Bible was the outcome of religious minds. The church may have many branches, all of which are striving for the one goal. No one church has a monopoly of the divine truth. The church is built upon the teachings of the apostles and prophets, Jesus Christ being the chief corner stone. The church should be a growing institution and the members should try to obtain a more profound insight into human needs. Religion is a growth, Christianity is a growth, first a grain, then a sprout, then a tree which shall bud and bear fruit. Christianity started that way—first 12 disciples—three days later, 40,000, and when Christ died over 500,000, and now over 400,000,000, professed his name. In those days there was only

one church. Christ said, "I am the vine, ye are the branches," and these branches have continued to spread. Religious knowledge and keep the truth before the minds of the people. The church is not the product of mechanism. There is no heart like the heart of right living. Truth is never full truth until organized into personality. Truth in personality is life and power—no man can live to himself and no man can die to himself. Then let us have hope and sure faith. The only solid reformation is what each begins and perfects on himself.

Smith's Falls market is a growing concern if the building of another spacious platform is any criterion to go by.

Arnprior has passed a by-law by which all wood sold in that town has to be measured and inspected. It is a good idea.

Magistrate Eady, find one Calvin Smith \$25 and costs recently, according to the Mercury, for purchasing liquor from a hotel-keeper, and giving it to a drinker to whom the hotel keeper had been forbidden to sell to.

Mr. B. B. Coons, an old Matilda boy and Iroquois High School student, has removed from Salt Lake City to Denver, Colo., where he has a responsible and lucrative position on the Colorado Midland R. R. Our Canadian boys do well.

Five years ago a young man by the name of James W. Dillon left Gananoque with his worldly possessions, which were small, and went west, and with the opening up of the Yukon, he was successful in locating the Glen mines, which are said to be worth \$1,000,000 to him. After a visit to his parents he will go back to that far north to look after his interests there.
