The unusual heats that have this spring followed so swift upon the heels of unusual cold will turn the thought of housekeepers of cooling creams. Below the reader will find several good coldcream receipes:

RASPBERRY CREAM.

Boil one-half glass of respherry jam with one pint of water for a few minutes then add two tablespoons of fine sago. Boil until thick and sago is clear. Serve with cream.

VELVET CREAM.

One pint of milk, one envelope of min ute gelatine, two yolks of eggs beaten with two tablespoons of sugar, a little salt. Add gelatine to heated milk, boil three minutes and flavor with vanilla. Set to harden

ICE CREAM.

One pint of milk, one-half pint of cream, one egg, three-fourths cup of sugar, one teaspoon vanilla. Scald milk, egg and sugar. When cool add cream and

STRAWBERRY SARABANDE.

Whip one cup of cream till very stiff and light; cut one pint of strawberries into small bits with a silver knife, and atir them lightly into the cream. Soak one tablespoonful of granulated gelatine in one-fourth cup cold water, and when soft place over the steam teakettle till dissolved; and by degrees to cream and berries, stirring and adding three tablespooners of the converse of the control of nowdered sugar, when the spoonsful of powdered sugar; when the mixture begins to thicken turn it into a wetted mould and set away to cool. Serve with lady fingers and maccaroons ORANGE SALAD.

A tablespoonful of powdered sugar, juice of a lemon and of an orange, a shake of paprika and half a tablespoonful of olice oil. Mix the fruit juices, paprika and sugar, then all the oil in drops, stirring constantly. Chill thoroughly and senve on orange and lettuce (or endive) salad, with cheese balls and saltines, or serve a bit of any cheese liked. Cheese balls of Roquefort cheese and Bar le Duc jelly blended are delicious with any fruit or vegetable salad.

STRAWBERRY WHIP.

One cup of crushed strawberries, one cup of powdered sugar, one egg white. Put ingredients in bowl and beat with wire whisk until still enough to hold in shape—about thirty minutes will be required for beating. Pile lightly on dish and chill. Beat egg a little first.

PINEAPPLE SPONGE. Set your pudding dish in a pan of hot Set your pudding dish in a pan of hot water, have emptied into it one can of grated pineapple and one cup of granulated sugar. Boil together and stir into it one-fourth of a box of best gelatine which has been soaked in water. Cool and stir in one pint of whipped cream, stirring very lightly. This dish may be discorated with preserved cherries or candies. Serve the sponge with ordinary

cream as a dressing. BASKET CREAM.

Make a very short, sweetened pie crust, roll thin and cut into squares. Bake them delicately and fasten the two opposite corners together while hot with a toothpick. Serve filled with whipped cream or any kind of filling preferred, and either hot or cold, according to the kind of filling used.

PRUNE JELLY WITH ALMONDS.

Soak one pound of prunes overnight and stew till tender in the water in which they have soaked. Remove the stones and sweeten to taste. Soak one-half box of gelatine in a little cold water, dissolve in hot water and add to the prunes while hot. Lastly put in the juice of one lemon and two tablespoon-fuls of blanched almonds cut into small pieces. Pour this jelly into moulds, set it on ice to harden and eat with crea-

Over eighty magnificent elm srees were sacrificed in the recent Bangor fire. Only such trees as were entirely girdled by the fire and of which there can be no possible hope of saving are being taken down. Others where the trees have budded or there is enough bark left to allow the circulation of the sap are to remain until it is definitely

known whether or not they will survive the damages of the flames. The loss to the city in its splendid shade trees cannot be estimated in money, and it will be years before some of them are replaced. The park com-missioners plan to set out trees to replace the loss whenever an appropris tion is available for such purposes. Some of the wood from the trees is being sold and the money devoted to the use

WONDERFUL HENS.

An American, spending his holidays in County Roscommon, Ireland, fell into conversation with a native, who was feeding his hens.

"I guess, Pat, you haven't as good hens here as we have in the States." "Perhaps not," said Pat. "I'll tell you," said the Yankee, "about

a hen my mother had. She went out one day and ate a feed of corn, and returned and laid twelve eggs. She went out the next day and ate a feed of corn, and laid twelve more eggs. WINDOW DRESSING.

A Visitor Observes and Comments of the Displays of Small Stores. "In no city in the country are store windows dressed so tastefully as in this town," said the visitor. "The large town," said the visitor. "The large stores go in for it on a magnificent scale and undoubtedly employ high-priced win-dow dressers, but owners of the smaller stores take great pains to decorate their

window space in becoming fashion. "I saw an instanct of this the other day. It was in a downtown street after business hours. A new dress was being fitted to the window of a sporting goods

BABY'S TEARS TURNED TO SMILES

The well baby is a happy baby-always cooing, gurgling and smiling. It is only the sickly baby who is cross, fretful and cries. The smile or the tears indi-cates baby's state of health. Mothers, if you want your baby to smile—the smile of good health and freedom from pain— give him Baby's Own Tablets. They give him Baby's Own Tablets. They never fail to turn the tear into a smile. Concerning them Mrs. Jas. Hutcheson, Marysville, B. C., writes: "Your Baby's Own Tablets have been a great comfort to me while baby was teething. He was cross and fretful, but as soon as I began giving him the Tablets the effect was wonderful. He became a good-natured baby right away and is now big, fat and healthy. SIZE OF THE FEET

Paris just now is having a wave of in-erest in human feet. Two scientists, Marie and MavAuliffe, recently advance ed the observation that the sanest type of men had the biggest feet, while the sanest type of women had the smallest feet. Which has started the boulevardiers to scanning the feet of pedestrians. Out of 100 normal men these scientists have asserted that only 18 have small fcet, while of 100 insane men only 24 have large feet. These proportions for women are almost exactly the reverse. Out of 100 sane women only 23 have large feet, while of 100 insane women 18 have small feet. On the male side of the roposition the American-long having oked upon Lincoln as one of the sanest sagest of American statesmen—probably will agree with the French scientists.—

MARRIAGE LAWS.

(Montreal Gazette.)

Mr. Justice Riddell, speaking at Toronto on the marriage question as recent events have brought it to the fore, pointed out that no church has any right to say that a marriage celebrated according to the law is not valid; no church can change the law; a marriage is valid or lively and the law is not control of the law is not read to the law says so, but because the law says so. Keeping this in memory should prevent some errors by those who discuss the issue. A marriage was recently annuled in this Province because the law of Quebec says that marriages contracted in defiance of church regulations shall be null. The Legislature made the law that recognized ecclesiastical impediments to marriage; and the Legislature can change it.

WALNUTS FROM FRANCE. The best walnuts in the world—at least they have that reputation—are those grown around Grenoble, France, and a singular fact about them is that at least three-quarters of the entire production are transported across the ocean to be eaten in New York, Boston, Philadelphia. Chicago and other large American cities. The calcareous soil of Southeastern France appears to be particularly favorable to the walnut. Alps the nut-trees often form veritable cultivated forests. The finest variety, the "mayette." has a light-colored shell, and a broad, flat base, on which it readily stands upright.

BILL'S IN TROUBLE.

The following poem is a good type of the anonymous verse which appears from time to time in the newspapers, and then is half-forgotten, half-remembered, forever afterwards b yevery one who reads it. A tew weeks ago a correspondent who remembered the last lines of the newspapers. who reads it. A tew weeks ago a cor-respondent who remembered the last lines of the poem wrote to the newspapers asking if there was any one who recalled it in its entirety. By return mail came evidence that it had been garnered in more than one time-honored yellowed scrap-book. There is many a family with a "Bill" in it, and, as often as not, unhappily, the cause of anxious thought.

Pive got a letter, parson, from my son away out west,
An' my of heart is heavy as an anvil in my breast.

But he said th' farm was hateful, an' he guessed he'd have to go.

I know thar's big temptation for a Foungster in the west, But I believed our Billy had the courage to resist.

An' when he left I warned him o' the everwaitin' snares, erwaitin' snares,
That you find like hidden sarpintr in
life's pathway everywheres.
But Bill he promised faithful to be keerful, an' allowed

ADVICE TO GIRLS.

(Toronto Mail and Empire.) The boating fatality is distressing be-yond description. That a holiday should thus terminate is deeply to be deplored. It is not desirable, and it would not be fair, to comment upon the seamanship of those in charge of the little dingey of those in charge of the little dingey that upset. Yet the lesson of the incident cannot be overlooked. It is to be feared that too many people are inclined to tempt the waves, although their knowledge of navigation is small. Their idea is that they have merely to manipulate the oars or to put up the sails, and the delight of motion upon the lake is enjoyed without danger. This is a mistake. Manuging a skiff is not child's play, and for sailboats a good deal of skill, and where there are passengers on board who are unused to the boat a good deal of pre-sence of mind, is required. No man ought to undertake to sail a boat containing a number of people, unless he is an expert. No girl ought to trust herself in a boat unless she is assured that her companien knows how to conduct himself under any and all circumstances on the water.

The King of England is in severe training to get ready for the coronation hardships.
