A little log house grocery stood on the near bank, about fifteen steps from where the ferry flat lay, tied to a mag in the edge of the water. Several bear skins, deer skins, and coon skins, were nailed up to dry against the walls of the grocery, but the door was closed, and no bar-keeper, ferryman, or other person was in sight. I halloed at the top of my voice some half a dozen times but no one answered. a dozen times, but no one answered ing an advertisement on the door, I

In obedience to the "noatis," I took blowing the horn, which stuckin a crack of the wall close by the door, and gave it a " toot," or two, which reverberated far around through the cane and swamp, and in a few moment was answered by a voice scarcely less loud and reverberating then that of the horn-it seemed to be about half a mile distant up the river; and in about fifteen minutes a stalwart femala made her appearance, and asked if I wanted "licker."

I obeyed, asking, as I led the horse into the boat..." Did your husband write that advertisement on the door there?"

"No, sir-ree! Schoolmaster Jones write that. John haint got no larnin!"

And the good woman rowed the boat stately across the ugly stream; and handing her the ferriage-fee, I bade her good morning, beleave then, as I still do, that she was one of the happiest women and best wife I ever saw—perfectily contented with her lot, because she knew no better.

TOUCHING INCIDENT.—The Buffalo Republic says:—A little boy, poorly clad, standing in front of the Western Hotel, was accosted by a rude young man, with the question, "Does your mother know you're out?" The little fellow looked at the interrogator a moment while his bosom heaved, and tears gathered in his eyes, as he replied, " Sir, my dear mother is dead."

The use of tar and feathers in the punishment of crime, is one of great antiquity. Richard I., in his voyage to the holy land, ordained thus: "If any one is convicted of theil, let his head be shaved, like a Champion's; let melted pitch be poured upon it, and feathers shaken over it, that he may be known; and let him be set ashore at the first land to which the ship approaches."

HOLLOWAY'S OINTMENT.

A CRIPPLE SETS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING.

Copy of a Letter from Mr. Thompson, Chemist, Liverpoof, dated August 20, 1852.

To Professor Holloway,

Dear Strill am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointatent and Pills which has astonished every person acquainted with the sufferer. About 10 years ago, Mr. W. Cammine, of Saltney Street, in this lown, was thrown from his horse, whereby he received very serious injuries; he had the best medical advice at the time, and was afterwards an immate of different infurnaries, yet the grew worse, and at length a malignant running elect settled in his hip, which so completely crippled him, that he could not move without crutches for nearly 10 years; recently he began to use your Ointment and Pills, which have now healed the wound, strengthened his limb, and enabled him to dispense with his crutches, so that he can walk with the greatest case, and with renewed health and vigor. To Professor Hob Lowax,
Sin.—Some time since, one of my children was afficted with dreadful gruptions over the body and limbs. I obtained the advice of several eminent Surgeons and Physicians, by all of whom the case was considered hopetess. At length I tried your Ointment and Fills, and sythest exaggeration, the effect was miracalous, for by persevering in their use, all the armstians quickly disappeared, and the child was restored to perfect, health.

I previously lost a child from a similar complaint, and I firmly believe, had I in her case adopted your medicines, she would have been saved also. I shall be happy to testify the truth of this to any enquirer.

CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a denut, that no medicine or combination of medicines yet knows, can so surely control and cure the namerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cares effected by its use, but we would present the following:—aud refer further enquiry to my American Almanac, which the agent below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these statements.
