Minister testified that in his opinion the schedule would not apply at all, but the day's work system would prevail throughout.

There is similar discrepancy and ignorance in other details. The Deputy Minister thought the sewer was 1,000 feet long, and perhaps 18 feet deep.

A PROPOSED MONOPOLY.

Mr. Wallberg conceived the idea that he ought to have a patent on his concrete lighthouse towers, and he proposed to the Department that one be secured and that he would go on building for the Government at a fair price.

NO CHECK.

Some attempt was made to find out what system of check the Government had. The Chief Engineer said he had no objection to any system of Mr. Wallberg's men.

BUILD OUT.

Throughout the construction of the whole lighthouse system on the ground that no payments for this sewer were yet in the Auditor's accounts.

THE CHARLOTTETOWN CONTRACT.

Another contract of Mr. Wallberg was for the construction of a station at Charlottetown for \$58,900. Here again there were large additions.

WALLBERG AND THE MARINE DEPARTMENT.

Mr. Wallberg has also constructed the lighthouse system on the ground that no payments for this sewer were yet in the Auditor's accounts.
