#### **Vessel Stranded** In Narrows.

The English schooler Isabella is now lying submerged near Woods' dock where she was beached on Saturday night. About a month ago the Isabella came from Cadiz to Harbour Breton with a salt cargo. Then she went to St. Jacques for a fish cargo but could not get one and was coming to St. John's to load. While beating in the Narrows Saturday evening she ran ashore in Hay Cove and sprung a leak on the starboard side. Two pilot boats towed the vessel further in the harbour and the captain beached her at the place mentioned. The crew of three lost all their belongings. The Isabella can be easily refloated and repaired.

## If Tea and Coffee Don't Agree Use POSTUM

A prominent physician says:

"If, on discontinuing coffee, you feel tired, languid, and 'out of sorts,' the coffee had better be forever discontinued, for you are on the verge of inebrity.

Thousands of people have taken warning and proved what was the cause of their headaches, biliousness and nervousness. (Tea contains caffeine, the same drug found in coffee.)

A great many former tea or coffee drinkers, feeling the need of a hot drink with meals, now use

A rich, nourishing food-drink, with a delightful, snappy flavour. Postum is made from prime whole wheat, and a small percent of New Orleans molasses. Contains no caffeine or any other drug.

Postum comes in two forms. Regular Postum requires fifteen to twenty minutes boiling to bring out the rich flavour and food value.

Instant Postum requires no boiling, but is made instantly by stirring a teaspoonful of the soluble powder in a cup of hot water and adding cream and sugar

Drink it instead of tea or coffee.
