Our Ships Are in the Fat.

It is nice to know that soon we'll see
The dandelion in bloom,
The grand to hear our Councilors
The grand to hear our Councilors
Will for others soon make room.
To make our little town, we pray,
Clear as a Sunday hat,
But better still to know to-day
Our ships are in the fat.

The news is dashed across the wires
From o'er the frozen foam,
It brings great joy to many fires
In our dear Island Home.
For after all the ocean's spoil
For after all the ocean's spoil
Makes us "throw up our hat."
Hurrah, my boys, for "skins and oil."
Our ships are in the fat.

It is nice to see a hockey match
Where boys kick up a fuss,
And 'tis lively in a mix-up
When they're joined by "Harder
Gus".
But you hockey chaps ain't in it
With the men of gaff and bat.
The richest prize they win it
When the ships are in the fat.

A smile is on the maiden
Who watched the ships go by
That morning out near "Chain Rock"
With a tear drop in her eye.
And your wife no doubt is thinking
Of the latest style of hat,
And tells you as she's winking
The ships are in the fat.

God bless our hardy seafarers
And keep them safe and sound
Until their ships are laden
And coming homeward bound;
They are our greatest toilers
We all must admit that;
Three cheers for the "swiflers."
Our ships are in the fat.
JAMES MURPHY.
March 19th, 1914.

Baseball.

The first annual meeting of The St. John's Amateur Baseball League was held at the offices of The Imperial Tobacco Co., Ltd., last night, Mr. J. W. Hawermale presiding. The Secretary and Treasurer's reports for the season were read and adopted. The latter showing a substantial balance to the credit of the League. The election of officers then took place which resulted as follows:—

Mr. R. G. Reid—President.
Mr. J. O. Hawermale, 1st V. P.
Mr. W. J. Higgins, 2nd V. P.
Mr. Herbert Power—Treasurer.
Mr. P. Grace—Secretary.

All the old officers were elected with the exception of Mr. Power who resigned. Mr. McManus formerly of the Bank of Montreal but who has since been transferred to Toronto.

Some discussion took place regarding the Constitution and Rules and one or two minor amendments relating thereto effected.

Votes of thanks were then unanimously passed to the Press for its kindly interest in the introduction of the game here which largely contributed to its success; to the Reid Newfoundland Company for the facilities offered in arranging the Inter-Town games; to Mr. Higgins, M. H. A. for courtesies extended in the formation of the League in compiling the rules and Constitution; to the Imperial Tobacco Co., Ltd., for their many favours; and to Chaplin, King of Tailors, and the K. & A. Store for prizes. Mr. Joe Murphy then presented the League with a gold watch to be awarded to the player with the best batting average during the league series. Mr. Murphy's interest in the development of clean, manly sport is well known, and his generous gift is appreciated not only by the League and its players but by the "fans" as well.

The Wanderers were presented with the League pennant for 1913 together with the G. G. Allan Cup for the championship of the City League and the City team with the Inter-Town pennant and R. G. Reid Cup.

The meeting was very enthusiastic and this great game will receive considerable impetus this season. The fans have quickly caught on and great interest is already being evinced in the line-ups of the various clubs.

The schedule will shortly be drawn up, and it is hoped to start the League games early in June. St. George's Field has been secured so that greater facilities will be offered the public the coming season. Two outside clubs, one consisting of former cricketers and the other of one of our Brigade Reserves, have intimated their intention of making application for entrance to the League and these will be considered at the next meeting.

13 Antos On wrecked Steamer

We understand there were no less than thirteen autos on the City of Sydney which went ashore near Halifax, on Monday night. Eight of these were Fords, the others being three Hudson's and two Franklin's. Four machines were not insured. Messrs. J. J. Duff and Joe Murphy had a car each on her, and word was received in town to-day that up to last night none of the machines had been saved.

Friday.

Of all fried days this is the best, for men who earnestly have toiled; it couldn't have a keener zest if it were poached or stewed or boiled. For now the week draws to its close, and we, who worked to gain the prize, look forward to the sweet repose the Sabbath brings to weary guys. Full soon the wages we have earned will come to us, the plunks, the rocks; and will those wages then be burned, or thrown at owls and chicken-hawks? Shall we go forth and blow the coins, to gather which we strained our thews, and dislocated back and loins, and tore the half-soles from our shoes? Ah, no! The passing years have brought some wisdom, and we're frugal now: each man will toddle to his cot, and hand the bul lion to the frau. On Friday, with reward in sight, the cheerful toiler turns his crank, and thinks of how, with sane delight, he'll place three dollars (\$3) in the bank. The week grows old, 'twill soon be sped, and we have rocks who for them chased; but those who paint the village red have nothing but a dark green taste.

A Baby's Face.

How nice baby's skin is now; not a red mark or abrasion anywhere to be seen.
"Yes, I was noticing. His face used to be so spotty that I often wondered if it were possible to do anything for him. How did you manage to cure the trouble?"
"Simply enough after all. A few applications of that wonderful new ointment Zylex, and the steady use since of Zylex Soap was all that was needed, that made the little chap right."

Zylex (50c.) and Zylex Soap (25c.) can be had from your druggist. mar16.

Club Meeting.

The annual meeting of the B. I. S. Athletic Association will be held at their Club Rooms on Wednesday night at 9 p.m. for the purpose of electing officers and to make arrangements for entrance to the various leagues for the coming season.

The Wanderers Baseball Club also meet to-morrow night to receive Reports and to elect officers.

The Shamrocks and Red Lions will hold their meetings next week for the same purpose.

McMurdo's Store News.

FRIDAY, March 20, 1914.
Nervazone has been found by many who have used it a handy and convenient means of taking a tonic, blood builder and appetite-increaser. For those who do not easily take liquids, and some have quite a difficulty in taking liquid medicines, they come as a way out of a difficult situation. Nervazone tablets taken regularly are said to have an excellent effect in making good red blood, and making the weak strong. Price 50c. a box.

Have you seen that "Frozen Brilliance"? It is much to the taste of some people who call it a perfect dressing for the hair, and one that acts in a beneficial manner in increasing its growth. Price 30c. a pkg.

NELSON DULEY ILL.—Mr. T. J. Duley had a message on Wednesday night from Sherbrooke, Quebec, saying that his son Nelson was very ill. Mr. and Mrs. Duley left by last evening's train. We hope that his illness is not serious and that he will soon be at his desk again in the Bank of Montreal branch of that city.

Wireless on Railway Trains.

Experiments with Marconi wireless apparatus installed on trains of the Delaware, Lackawanna, and Western Railroad Company have proved that it is possible for trains so equipped to be in constant communication with stations and each other regardless of the speed at which they are travelling, and have led railway men to predict that the wireless will prove of nearly as much value to land travel as it has been to navigation.

The Lackawanna Railroad has established wireless stations at Binghamton, New York, and Scranton, Pennsylvania provided with the ordinary "aerials" supported between high towers. Of course it would be an impossibility to equip an express train with such a system, but it has been found that communication can be maintained up to a distance of fifty miles from a train carrying a very low aerial, consisting of a quadrangle of wire supported by insulators on iron pipes eighteen inches above the roofs of the cars. Four cars have been so fitted out on an express train that passes through Scranton and Binghamton. The cars are connected by special attaching plugs, and the operator's station, in the third car of the group, takes up no more room than the ordinary lavatory. The regular Marconi system is used, except that power is furnished by a special motor-generator set driven from the regular train-lighting dynamo, and the ground connection is made to the rails by a wire to one of the car trucks.

Scranton and Binghamton are about sixty-five miles apart, but when the train is between these two points it is constantly in communication with one or the other, and if out of direct touch with one can reach it by sending a message through the other.

As a precaution against collision he railway wireless may have great possibilities, and it has already been proved to have them in regard to safety and time-saving through the ensuring of constant communication of trains with stations regardless of line breaks caused by blizzards, washouts, signal-obscuring fogs, and other abnormal conditions. Apart from this value in emergencies, the amount of time saved in routine train operation when conductors are able to keep in direct communication with train dispatchers without stopping their trains makes it likely that the wireless will soon be as much used on railway trains as it is on ocean liners.

The emergency value of the wireless, as already stated, has been thoroughly proved on the Lackawanna. The other day the conductor of the train carrying a radio was suddenly taken ill as the train was approaching Scranton. Ordinarily a delay would have been necessary, either a stop in order to send a telegram to Scranton after arriving there. As it was, however, a message was flashed ahead through the air and the relief conductor was picked up at Scranton with no delay. On another occasion two tramps were found stealing a ride on the blind baggage, and the conductor telegraphed ahead to the next scheduled stopping-place for detectives, who arrested the vagrants when the train drew into the station. In fact, the only persons to lose by the general use of wireless on trains are "hoboes" and train robbers, to whom the sending out of railway "S. O. S." might often be embarrassing.—The "Outlook," New York.

The One to Own if
You Can Own But One.

That is what a critical user of a "Globe-Wernicke" cabinet says of his equipment. Another says "It leaves nothing to be desired." Another says "So complete yet so concise." Another "Perfection as a filing arrangement." Another "It is really indispensable." Another "A surprising advance in handling records." Another "A welcome improvement in office conditions"—and so on. The extensive sale of "Globe" filing cabinets in St. John's is by no means as remarkable as the abundant evidence that it is on merit alone that these devices have earned such generous appreciation. For certain when you become a user you will be well contented with your adaptable and reliable outfit. Mr. Percie Johnson has your catalogue ready for the asking as well as all other necessary details.

A Canada Life Actual Result!

NET CASH RETURN MORE THAN TWICE THE COST.
W. J. Robertson, Welland, 12th June, 1912.
Agent CANADA LIFE ASSURANCE CO., Port Hope, Ontario.

Dear Sir,—
When acknowledging receipt of the Company's cheque for my matured Endowment Policy No. 54937, I desire to avail myself of the opportunity to express my satisfaction with the outcome of my investment.

The policy was payable to me at age 60, with ten premiums of \$48.00 each. The return under it is as follows:
Sum assured ————— \$1,000.00
Dividends added ————— 446.31
Total amount payable ————— \$1,446.31
Deduct total premiums paid ————— 480.00
\$ 966.31

That I should have insurance protection free for all these years and now have over twice the amount of my premiums returned to me in cash is a most satisfactory outcome and I heartily congratulate you on it.

Yours very truly, GEO. ROSE.

A CANADA LIFE POLICY PAYS.

C. A. C. BRUCE, Manager, St. John's.

The New Way.**THE CONNOR BALL BEARING WASHER**

is the new easy way of washing clothes. It will wash a tubful of clothes in five or six minutes and will do it better than could possibly be done by hand in half an hour. It runs so easily a child of eight or nine years of age can run it with perfect ease; and best of all, it washes clothes to snowy whiteness without tearing the clothes.

Price: \$11.00.

We have other Machines in stock at \$5.00, \$6.70, \$7.75 and \$10.25.

Also Wringers, Wood and Galvanized Washtubs, Wood, Zinc and Glass Washboards, Clothes Pins, &c.
