OFFICIAL.

LONDON, Oct. 5.
The Governor, Newfoundland:
General French reports repeated enemy counter-attacks on the Vermettes-Hall road repulsed with severe loss. Further to the north-west the enemy recaptured the greater portion of the Holzengollen road. The cross roads in Givency were occupied by the French, but later recaptured by the enemy. Counter attacks near Mesnil were repulsed.
The Russian Government report that the Germans captured trenches near Dvinsk, but were driven back later with heavy loss. At other points the Russians obtained successes, capturing prisoners and quick-firing guns.

LETTER FOUND ON DEAD GERMAN

PARIS, Oct. 5.
This letter dated Sept. 26th, was found on the body of a German officer, killed in Champagne. "It is one o'clock in the morning; at seven, it will be seventy-two hours since, without interruption, we have been fighting. The telephone lines were broken; endless deafening uproar, which even the steadiest nerves can hardly endure. I was ordered into the trenches as observer at 7 a.m. Naturally the telephone lines were broken. I reached a position in the reserves without much trouble, the trenches being destroyed only here and there. But then the difficulties began. Mines and bombs exploded at brief intervals. From a point in the trenches so damaged, we were obliged to crawl on all fours, the shells striking our ammunition magazines, causing a formidable explosion. The French kept firing into the line. How I hate them. I admire the French artillery. They are master gunners. We really cannot imitate them. I regret to say that continuing fire into the enemy provokes more violent explosions than the preceding ones. God knows what they have blown up now. From this moment I have lost all sensation of fear. My telephone operator went ahead. Amid explosions of shells, whistling bullets, howling shell fragments, and fogs of smoke, by holding my breath behind my respirator, I got over where the trench

A BIG SALE!

About two months ago a statement appeared in this paper that over "TEN THOUSAND" (10,000) bottles of STAFFORD'S LINIMENT had been sold since the beginning of the year 1915. Certain persons were heard to remark that they were not so sure about this statement. We will go farther now and offer \$1,000 to the person or persons who can come in to our store on THEATRE HILL and ask us to show them orders amounting to over FOURTEEN THOUSAND (14,000) sold since the beginning of THIS year and by our not being able to produce them, will gladly forfeit the above sum mentioned.
All you have to do is to come in and ask us. The reason of the big demand for STAFFORD'S LINIMENT is that it is superior to any other LINIMENT on the market at the present time. It has a unique record for relieving RHEUMATISM, LUMBAGO, NEURALGIA and all ACHES and PAINS, in fact no home should be without a bottle.
"STAFFORD'S LINIMENT" is sold everywhere, and always be sure that you obtain the bottle with the green wrapper on the outside and the RED LABEL inside.

had been repaired thirty-five times. Communication with the trenches were completely levelled. Keeping closer and closer on the ground, I arrived at a second trench ten yards behind the first. Of the latter, nothing remains. The second trench is just deep enough to kneel in. Profiting from a period of calm, I cast a glance ahead. Our barbed wire fence is destroyed. I signal our batteries, which resume rapid fire, then I creep back and get my telephone operator. It takes me four hours to cover ground which ordinarily could have been covered in twenty-five minutes. Thus coming a frightful explosion, throws me against the wall of the trench. The lieutenant tells me that a shell struck his shelter also; I rush out to see all bomb-proofs on the slope burning."

FRENCH MINISTRY DENIES BERLIN STATEMENT.

PARIS, Oct. 5.
The Ministry of War has taken cognizance of a statement in an official communication from Berlin, that the French sent forward masses of cavalry beyond Douain in the recent offensive movement, and this cavalry was dispersed immediately by German artillery. The War Minister states that only small groups of cavalry were employed, and these were sent forward swiftly after the infantry had taken their German position, with the object of clearing the way for a further advance of the infantry. One of these cavalry detachments took 800 prisoners.

THE FRENCH STILL ACTIVE.

PARIS, Oct. 5.
There was a violent bombardment in the Arrais region yesterday, both sides taking part, according to an announcement given out by the French War Office this afternoon. In Champagne district artillery exchanges have continued. French artillery caused a violent explosion to a German railroad train at a point north of Verdun. French aviators have thrown down some fifty shells on a railroad station near Peronne.

NO ANSWER YET.

PETROGRAD, Oct. 5.
The Foreign Office at noon to-day stated that no answer had been received from Bulgaria as to the ultimatum. It is not expected by the Foreign Office that any ultimatum will be presented by Russia's allies. Russia did not insist upon demobilization by Bulgaria, but it is expected, that if this is done at once, Bulgaria will gradually reduce her army to a peace footing, in case her reply is favorable to Russia.

GREECE ACTIVITY.

ATHENS, Oct. 5.
Crown Prince George and Prince Nicholas, members of the Greek General Staff, are hurriedly arranging to leave for Salonika. Telegrams from diplomatic sources report the arrival at Sofia of a large number of German aviators and German officers.

GRAVE DEBATE IN GREEK CHAMBER.

LONDON, Oct. 5.
A Reuter despatch from Athens to-day says that it is a long time since so grave a debate has taken place in the Greek Chamber, as that which occurred to-day. Never in the history of the country has a Premier faced an opposition determined to overthrow him with greater self-confidence and pluck. Premier Venizelos defied his opponents to follow a different course than that which he took.

GREEK PREMIER RESIGNED.

PARIS, Oct. 6.
An Athens despatch to the Havas Agency says that Premier Venizelos has resigned. The King informed him that he was unable to support the policy of his ministry.

TREATY OF BULGARIAN PREMIER

BERLIN, Oct. 6.
A despatch from Sofia, dated Oct. 4th, says that Premier Radoslavoff, of Bulgaria, made the following declaration to representatives of the

Government parties: "We confront war, and must defend our national interests. We must wrest from our enemies everything they took from us two years ago, and get satisfaction for every insult."

WILL MAKE NO REPLY.

LONDON, Oct. 5.
A despatch from Amsterdam to Reuter's Telegram Co., says that the People's Gazette of Cologne under-stands the Bulgarian Government will make no reply to the Russian ultimatum. The recall from Sofia of all Entente Ministers, the newspaper says, is expected to-day. It adds that declaration of war by Russia is considered possible.

ROMANIA READY FOR ANY EVENTUALITY.

PARIS, Oct. 5.
Premier Bratianu, of Roumania, has already twice informed Bulgaria that the latter's mobilization is regarded by the Bucharest Government as an unfriendly act, says La Matin. It adds that Roumania, from a military point of view, is ready for any eventuality, thanks to the blunder of Austria, who, a month ago, closed the frontier, which gave Roumania the required pretext for concentrating troops. Roumania is safe from all surprise attacks.

BRITISH STEAMER SUNK.

ATHENS, Oct. 5.
The British steamer Arabia, en route from London to Greece, has been torpedoed by an Austrian submarine twelve miles south of Cythrus. Thirty-five members of the crew were saved.

TWO OTHERS SUNK.

LONDON, Oct. 5.
The announcement is made that the British steamers Haydn and Sallor Prince are sunk. It is reported that the crew of the Haydn is saved. Some of the survivors of the Sallor Prince have been landed.

MRS. PANKHURST SPEAKS.

LONDON, Oct. 6.
Mrs. Emmeline Pankhurst, at a Women's Social Political Union meeting in London to-day, denounced a traitor whose representatives of organized labor, she said, were opposing the employment of women in the present crisis. "I asked the Government to set up factories to train women munition workers," she said. "Lloyd George was willing, the women were willing, but this training of women is opposed by organized skill workers. This is nothing short of treachery. Those who stood in the way were traitors."

LONDON BUDGET.

LONDON, Oct. 6.
The Russian ultimatum to Bulgaria expired at 4 o'clock this afternoon but up to a late hour to-night, so far as was known in London, no answer has been received; nor is expected. It is taken for granted here that King Ferdinand and his Ministers are definitely committed to the German allies and, in return for territory to be ceded after the war of some ports including Constantinople, all that remains of European Turkey has undertaken to assist actively in operations against Serbia; thus hoping to open the way for the Austro-German army, the objective of which is the Sea of Marmora. The Entente Powers, in this belief, have landed or are landing a force in Salonika, which will take upon itself the duty of protecting the main railway through Serbia and Greece, and give what assistance it can to the Balkan allies should they be attacked by Bulgaria. This infringement of Greek neutrality has brought forth a formal protest from the Greek Government, but in the words of one correspondent, it is "being winked at" by a great majority of people in Greece. The Opposition in the Greek Chamber also made a protest against the policy of Premier Venizelos, which it claimed, was forcing Greece into an unnecessary war, but the Premier, who seemed firmly fixed in the saddle, and working in harmony with the King, until his resignation was announced to-night, succeeded in getting the chamber to pass a vote of confidence after a stormy all-night session. The next move devolves upon Bulgaria, and as soon as she moves, the Anglo-French troops which are being mobilized, will be put into action, while the fleets in the Black Sea and in the Aegean will assume their appointed roles. Meanwhile Russia, whose armies, for five months have been retreating, began an energetic offensive along the wide front from Riga, to southeast of Vilna, and, according to unofficial reports, have already met with considerable success. This, however, is denied by Berlin, which

HEADACHES

Thousands of men and women suffer from headaches every day, other thousands have had severe ones every week or every month, and still others have headaches occasionally, but not at regular intervals. The best Doctor is often unable to find the cause of many of these headaches, and in most other cases, knowing the cause, he does not know what will remove it, so as to give a permanent cure. All he can do is to prescribe the usual pain relievers, which give temporary relief, but the headache returns as usual, and treatment is again necessary. It is a relief to find a medicine that will remove the cause of the headache, no matter what their nature, take Anti-Headache Tablets, and the result will be a permanent cure. You can obtain them at all drug stores in any quantity, 10c worth, 25c worth or more. Ask for A-K Tablets.

SICK-HEADACHES

Sick-headache, the most miserable of all sicknesses, loses its terrors when A-K Tablets are taken. When you feel an attack coming, take two tablets, and in many cases, the attack will be over. In other cases, take one A-K Tablet every two hours. The rest and comfort which follow, can be obtained in no other way.

Genuine A-K Tablets bear the K monogram. At all drug stores.

Mother! Don't Take Chances If Child's Tongue Is Coated

If cross, feverish, sick, bilious, give fruit laxative at once.

Every mother realises, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.
When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, Mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, cold, remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful to-day saves a sick child to-morrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeiters sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

says all Russian attacks have been repulsed.

On the western front the big guns again have undertaken the task of emptying to level the German entrenchments, presumably in preparation for the continuation of attacks which proved so successful in Artois and Champagne. In some sectors here has been infantry fighting in which a trench or few yards of trench changed hands this being particularly the case in the areas where the Allies made their gains, and where the Germans are trying to win back lost ground. The British fleet, too, is almost continuously bombarding the German positions on the coast of Belgium.

GERMANY ACCEDES TO AMERICAN DEMANDS.

WASHINGTON, Oct. 6.
Germany has completely acceded to the American demands for a settlement of the Arabic case. The Imperial Government's letter, presented to-day by its Ambassador, Count Von Bernstorff, to Secretary of State Lansing, disavows the sinking of the vessel and denounces it. It has so notified the submarine commander who made the attack. It expresses regret for the loss of American lives and agrees to pay indemnity to their families. The officials at Washington are both gratified and relieved by the diplomatic victory. The communication delivered by the Ambassador pursuant to general instructions from his government, has spread the absolute confidence that there would be no more submarine controversies between the States and Germany. The document reveals that stringent orders have been given to submarine commanders to prevent the recurrence of such incidents as the sinking of the Arabic. Since this case embraces the principles for which President Wilson contended in his notes following the torpedoing of the Lusitania and Palao, the concessions made by Germany, from an American viewpoint, are generally regarded to-night as paving the way for an amicable settlement of all cases, which threatened the severance of diplomatic relations between Germany and the States would continue to improve. With the settlement of the Arabic controversy, the despatch to Britain of the long-delayed American note, on interference with trade, is expected within a few days. President Wilson consistently intended to send this communication while the issues with Germany were pending, because the Berlin government had, through its notes, given the impression on the action which the United States took with one set of belligerents, depending its own conformity with international law. As the issues with Germany appear now to be adjusting themselves, the President, it is known, feels free to press Britain for a modification of orders in councils on restrictions of American trade.

lead. A cell in a prison, and work without pay—such fortune is his, or will be some day. No comforts can reach him while serving his time; you'd think it would teach him the folly of crime. You'd think he'd endeavour when once he is free, to cut out forever the loot-hunting spree. But when the grim cooler has opened its door, one hope is his ruler—to burgle some more! He goes forth a-stealing, he wallows in sin, and poolers come peeling, and gather him in. Why is he so mulish, so stubborn, insane? The fellow so foolish requires a new brain. For honesty's easy, and profits us well, but crime's always cheery, and ends in a cell. Oh, bairns, hear me gurgie this warning to you: Don't learn how to burgle, whatever you do!

REPORT OF CAPT CORBETT.
H. M. C. S. Nobe, Sept. 1st.
On giving up command of H. M. C. S. Nobe, I have much pleasure in reporting upon the conduct of the Newfoundland Royal Naval Reservists. Their character has been excellent, and with very few exceptions, poolers names have not appeared in the Defaulter's Book. They are a physically fine body of men and have carried out their duties in a most satisfactory manner.
(Signed)—ROBERT T. CORBETT, Captain.

While sitting in the court house yesterday listening to the evidence in a well case—where one party claimed a right to use the water which was refused by the other, we were much interested and had great sympathy for all court officials. Well, we said to ourselves at the conclusion, well, well, well.
