THE CHICAGO STRIKE!

The slogan of Wall Street from its early days has been "never sell short on a strike," which is entirely correct when the strike actually starts, but during the preliminaries the market frequently declines, a condition which is somewhat in evidence now.

If, however, a strike be actually called, whether it succeeds or fails, the market is a buy.

In similar past situations the market has always been a purchase, because all strikes must end, and they are always discounted in advance.
