**And above all
-BOVRIL**

Add Bovril regularly to your grocery list. If "something hot" is wanted in a hurry, in sudden emergencies, whenever extra nourishment is required, a cup of hot Bovril gives just what you need in a moment.

In the kitchen nothing will contribute more to the success of your cooking than Bovril. A spoonful added to soups, gravies, stews and all "made" dishes ensures rich savouriness and nourishment.

Mandates Confirmed**

New System Becomes Effective Universally
--Nova Scotia Coal Miners Will Go On
Strike--Population of Limerick Suffered
Severely.

MANDATES CONFIRMED.
LONDON, July 23. Final confirmation was given yesterday by the Council of the League of Nations. This means the mandate system of government becomes effective throughout the world almost immediately. There remain for settlement only certain minor points between France and Italy respecting Syria, Palestine, Iraq, and the mandate system in the Pacific Islands. The Council of the League of Nations, at the request of the League of Nations, respectively the mandates for England, France and Italy, will make declarations on Monday regarding the future policy of the governments in the mandate system. Regarding confirmation of mandates, the Earl of Balfour said yesterday their immediate adoption was imperative in order to allay racial elements in the mandate system. The action of the Council is the culmination of three years' work and negotiation on the part of the League to institute the mandate system in the Pacific Islands, Central Africa and Asia Minor. It is construed as a victory for Earl Balfour and giving further effect to the establishment of the Jewish National Home.

VATICAN'S REPRESENTATIVE UNHEARD.
LONDON, July 23. Monsignor Ceretti, Papal Nuncio to Paris, who came to London Thursday to present the views of the Vatican to the Council of the League of Nations on the Palestine Mandate, particularly with regard to the custody of the holy places, through some misunderstanding was not heard by the Council. He made the following statement to the Associated Press: "I anticipated that the Council would approve the Palestine mandate, but did not expect it would do so before giving me an opportunity to express the views of the Vatican. The Vatican considers the holy places international in character and consequently the Commission should be international. It should embrace representatives of all countries which have special interests in the sacred areas."

N.S. MINERS ISSUE ULTIMATUM.

SYDNEY, July 23. A strike of the twelve thousand miners of Nova Scotia on August 15th unless the 1921 rates of pay are restored and made retroactive to January 1st, 1922, was declared for this afternoon by the principal officers of district 26 of the United Mine Workers of America and their audience at a mass meeting of miners at Glace Bay to-day. The declaration was made by the meeting in resolution form. President Robert Baxter, Vice-President W. P. Delaney, Secretary James D. McLachlin, International Board member Silby Barrett, and District Board member Lewis McCormick, strongly supported the strike resolution.

RECORD SHIPMENT.

SYDNEY, July 23. During the week ending Friday night eighty-five thousand tons of coal were shipped by the Dominion Coal Company from the International Pier here, being a record quantity. The highest previous shipment was eighty thousand tons. Thirty-one thousand tons were shipped for American ports, the largest United States shipment from Cape Breton in many years.

CONTROLLING GERMANY'S FINANCES.

PARIS, July 23. A plan for Allied control of Germany's finances, worked out by the Committee of Guarantees, the official acceptance of which the German Government announced yesterday, provides for the accrediting of committees to practically all departments of the German Ministry of Finance, over which they will exercise personal supervision. The Bureau dealing with receipts and expenditures, movement of capital abroad, and questions relating to publication of financial and economical status will be especially controlled.

THE SIEGE OF LIMERICK.

LIMERICK, July 23. From beginning to end in the operations which ended with the capture of Limerick on Friday by the Free State forces, the irregulars outnumbered the Nationals. Not more than seven hundred Free State troops were engaged, while Republican forces reached at least one thousand. The whole centre of the city was involved in the battle zone. The fighting during the week consisted mostly of rifle and bombing duels, each side tunnelling from house to house so that entire streets were transferred into miniature forts. The irregulars from the outset occupied the strongest positions. Before evacuation the Republicans set fire to all barracks by exploding mines. The new barracks, a great block of buildings erected around a square of about two hundred yards, were levelled to the ground. The Castle barracks were completely destroyed with the exception of the thirteenth century tower of King John's Castle. The civilian population suffered acutely, many were made homeless and at times in grave menace of starvation. Normal conditions are returning and business is proceeding after three weeks of almost complete suspension.

MINERS STRIKING AND AT WORK.

WASHINGTON, July 23. Approximately six hundred and ten thousand coal miners are on strike in the nation's bituminous and anthracite coal fields, and one hundred and eighty-five thousand still at work. The Department of Works announced last night upon completion of a survey of the coal mining industry.

WILL MOVE TO PARIS.

GENOVA, July 23. The League of Red Cross Societies will begin the removal of its offices and personnel to Paris early in August.

JAMACIA TO TAX WHISKEY.

KINGSTON, Ja., July 23. Customs Statistics show a great decrease in the whiskey export trade and as a consequence the Government has decided to put a tax of \$1.25 on each case of whiskey exported.

CANADA SEEKING TRADE IN MEXICO.

OTTAWA, July 23. The Canadian Government will shortly appoint a Trade Commissioner and Assistant Trade Commissioner to report upon and investigate openings for Canadian trade in Mexico.

U. S. SHIP ASHORE.

TURK'S ISLAND, July 23. The United States schooner John R. Fox, from Philadelphia for Turk's Island, ran ashore July 19th, about five miles west of Bottlenose, Island of North Catros. Prospects for salvage doubtful.

BRITAIN BENEFITTING THROUGH U.S. COAL STRIKE.

for sailings to various United States ports, the freight rate being from eight to ten shillings a ton. The chartering market has become considerably firmer recently and the United States demand for coal has caused a scarcity of tonnage in some sections. Cardiff export firms alone are said to have booked three hundred thousand tons and Newcastle firms one hundred and fifty thousand tons. The coal supply on the East Coast is somewhat scarce for July shipment, and United States orders are being executed for August shipment at dealers' rates.

DUTCH CABINET RESIGNS.

THE HAGUE, July 23. The Dutch Cabinet resigned to-day and Queen Wilhelmina summoned C. J. M. Ruis de Beerenbroek, head of the retiring ministry, to form a new Cabinet.

What He Would Do?

During lunch hour one day in Haddon's Garden two Jews met in a restaurant.

Said Isaac to his friend: "I am going to give you a present of one hundred pounds, but you must tell me what you will do with it first."

The friend looked up in dazed wonder. Emotion choked him. His lips moved, but no sound came.

"Come," said Isaac, "what will you do with it?"

"Count it!" jerked the surprised one.

Child Welfare.

SUMMER DIARRHOEA.

Many babies die because their mothers do not know how to take care of the sick. Every child has the right to be loved, to be protected from disease and to have a fair chance in life.

In hot weather the baby needs less food, but more cold water to drink. The clothing in hot weather should be very light.

Baby needs fresh air as much as fresh food. Keep him out of doors as much as possible, but avoid the sun on hot days.

Breast milk is the best milk for the summer.

Breast-fed babies seldom have acute diarrhoea.

If they vomit or have acute indigestion, it is usually because they are fed too much or too often, or because the mother is so tired or sick that her milk is poor.

In very hot weather, the baby should nurse less often.

They are more likely to get diarrhoea.

If they have diarrhoea, it is often more severe.

The milk must be clean and be kept cold.

It should be boiled or pasteurised. The rubber nipples should be boiled daily and kept clean.

In very hot weather, the baby needs less food but more to drink. His milk should therefore be diluted with boiled water and water given freely between feedings.

I AM THE BABY.

I am the baby.
I am the youngest institution in the world and the oldest.
The earth is my heritage when I come into being, and when I go.
I leave it to the next generation of babies.

My mission is to leave the Earth a better place than I found it.
With my million little brothers and sisters I can do this, if the world does not impose too many handicaps. Now I need pure milk, fresh air and play.

When I am a little older I shall need good schools in which to learn the lessons of life.
I want to live, laugh, love, work and play.

I want to hear good music, read good books, see beautiful pictures.
I want to build houses and roads and railroads and cities.
I want to walk in the woods, bathe in the waters and play in the snow.
I am yesterday, to-day and to-morrow.

If you will make my way easy now I will help you when I grow up.
I am your hope—I AM THE BABY.

URGENT.

The same conditions which cause the death of thirteen out of every twenty babies born throughout the civilised world, on the broadest of averages, leave more or less permanent stamps on perhaps two or three times as many more babies who somehow manage to crawl over the infant dead line, many of whom will be the fathers and mothers of the next generation; the problem of infant mortality, therefore, is far more than one as to the means of decreasing the number of infant deaths. Its scope is world-wide, and on its partial solution, at least, depends the welfare of posterity. The call for action on such a problem may fairly be termed "URGENT!"

FIFTY CENTS.

I often wonder where he is, James Bulger, once my bosom friend; along the highway he may whiz, or through the solemn forest wand. No matter where he may have trekked, through palaces or Bedouin tents, he yet at times must recollect that he still owes me fifty cents. Perhaps he flees in frenzied haste before a wild mid-ocean gale; perhaps he's in some arctic waste, with polar bears upon a trail; picture him in camp asleep, when stars peep through the cloudy rents, and when he wakes I see him weep because he owes me fifty cents. No man can have a tranquil mind, or know the peace that does not fade, if he has left some debts behind, the debts he knows he should have paid. The memory will haunt him still when he communes with other gents; and when he sleeps upon the Hill, his dreams will be of fifty cents. I care not for that ancient loan, four bits won't make or break a man; but Bulger's soul must creak and groan whenever my name he haps to scan. He's lost the peace that is sublime, his halldom is full of dents, his fame is tarnished for all time because he owes me fifty cents.
