Almost Helpless From Rheumatism

Only Able to Move about on
 Crutches—Dr. Williams' Pink
 Pills Restored Activity.

Inflammatory rheumatism, acute rheumatism and rheumatism fever are different names for practically the same thing. It comes on with hardly any warning. The pain is excruciating, and there is a tendency of the disease to attack the heart when it may have fatal results.

Any one who has suffered from an attack of inflammatory rheumatism knows that the usual treatment is highly unsatisfactory. External applications of hot cloths and liniments and internal doses of salicylates to relieve the pain are not enough, for they do not drive the poison from the blood, and the sufferer is liable to renewed attacks whenever exposed to cold or dampness.

To cure rheumatism so that it will stay cured the rheumatic poison in the blood must be driven out, and the blood made rich and red. When the blood is pure there can be no rheumatism. Dr. Williams' Pink Pills build up the blood, make it rich, red and pure and in this way cure the most obstinate cases of rheumatism.

Mr. George Harbottle, R. R. No. 1, Feversham, Ont., is one whose cure through the use of Dr. Williams' Pink Pills is most striking. His mother gives the particulars of his attack and cure as follows:—"Some years ago while my son was working as a blacksmith in a Michigan lumber camp he was attacked with rheumatism fever. He was at once taken to a hospital at Marsenett, and was there under medical treatment for four months with but little or no relief. He then decided to go to Mount Clemens, where he took the baths for three weeks, but did not find any benefit from them. By this time he felt that his case was hopeless and decided to return home. When he reached home he could only move around by the use of a crutch and a cane. One knee was so stiff that he could not bend it, and most of his joints were swollen, out of shape. He could neither dress nor undress himself and had to be helped like a child. I urged him to try Dr. Williams' Pink Pills and finally he consented to do so. He had only been taking the pills a few weeks when he could limp about, without the aid of the crutch, and his appetite greatly improved. This gave him new courage and as he continued the use of the pills he showed constant improvement, and was able to walk about inside. He continued to use the pills for some four months, by which time every symptom of the trouble had disappeared, and he went to his work in Michigan a cured man. His case was well known to the neighbors around here and his cure was looked upon as marvelous, for every one thought that at the best he was doomed to be a rheumatic cripple."

It is because they have made such wonderful cures as Mr. Harbottle's that Dr. Williams' Pink Pills have a world wide reputation, and are the only medicine used in thousands and thousands of homes. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

very well. The swine growers here are quite numerous, and the whys felt to be a valuable asset, especially as it is said the hog raisers are the main men in helping to win the war.
 Mr. Roy Chute had the ill luck to lose a valuable horse.

MOUNT SALEM CASE

Squire Hunt Hears Amusing Case

Squire Hunt was in Aylmer on Thursday hearing a charge laid against a young lad of 14 or 15 of Mount Salem of stealing a string of sleigh bells from a young colored man of that locality. The young man confessed to his guilt but pleaded innocent of any serious intent. After hearing evidence the squire dismissed the case, ruling that the offender should pay the costs, which amounted to \$11.

The case was a rather amusing one, the squire relates. The young negro had purchased the bells and had attached them to his speedy little road horse, much to the envy and chagrin of the white boys of the neighborhood. The boys had finally decided to have revenge and had learned that the colored boy kept his horse in a stable belonging to a Sarnia Company that is cutting wood in these parts. The boy who appeared before the squire was the one who had succeeded in getting the trouble-making bells. The young negro, upon discovering his loss had immediately laid information before Squire Ball, who made out a search warrant with the above result.

THE SPIRIT OF PROPHECY

It will scarcely be taxing anyone's credulity now, if it be stated that the present world-war has a religious content. It began as a war of conquest, on the part of Germany. From time to time we have heard of the Kaiser exhorting his soldiers to victory, "by the help of God" and with the next breath urging them to deeds of revenge that are as much the opposite of the Godly spirit as darkness is of light. It will avail nothing, God will give the victory in this war to those who will work on lines that further the Divine plan for this age. The conquests that look like permanent holdings are with the British. We have lost no territory, and we have gained territory that is equal in size to two Germanys. That is not too bad a record for even three years.

The unexpected turn in affairs in the East, in the conquest of Mesopotamia and Palestine, together with the fall of Jerusalem to the British, strengthens the conviction that this war has a great spiritual content; and it is in order for us, in the British Empire especially, to find out the spiritual meaning in the background of the rapid movements of to-day. Some think that the war is moving slowly. Not so. The world is moving at a tremendous rate of speed to-day: What is happening in Europe is only the curtain of the battle smoke that thinly veils what is happening in Palestine and Mesopotamia. These are the lands, of all lands in the world, that the Kaiser desired to get possession of. Strange, is it not, but he cannot have them now. They are now British and will remain so.

There are not a few people who have been expecting the things that are now transpiring in the East (although they have probably come to pass sooner than looked for. These people have been looked upon with a certain amount of suspicion if not disdain because they have surely believed the Divine word that "the testimony of Jesus is the spirit of prophecy." Rev. xix. 1. In so believing these persons have only been true to the counsel of the Apostle Peter in II Pet. 1, 19-21. Those who teach prophecy will not be in doubt any longer as to what the outcome of this war will be.

It is not at all likely that Britain will wait the end of the war to constitute Palestine an autonomous Jewish state and a British protectorate. Why should they wait? Palestine will never again pass out of the hands of Anglo-Saxons. It will be remembered that the Orange Free State and the Transvaal were "annexed" some months before the close of the South African War. It would seem that the sooner Palestine is proclaimed a Jewish state the better, and the sooner those Jews who desire to return to Palestine are encouraged to do so the better, for the land being almost unoccupied awaits them.

In January, 1914, (before the war began) the pastor of Hill street church London, preached a sermon on "The Jews" in which this sentence is found.
