

Farmer's Backache.

There is scarcely a farmer in this country but knows what backache is. The hard work and heavy lifts, the constant grind of toil from early morning till late at night, frequently bring the stabbing pain in the back or the dull grinding ache that knows no let up. Then too there are often urinary troubles, swelling of the feet and ankles, puffiness under the eyes, rheumatic pains in the joints and muscles.

Dr. Pitcher ought to be held in high esteem by every farmer in the land on account of his Backache Kidney Tablets, which are doing such a grand and noble work in banishing backache, kidney and urinary troubles, which are such universal complaints on the farm.

HEAVY WORK.
Mr. C. E. Leach, King Street East, Ingersoll, Ont.: "I have been subject to attacks of backache and kidney trouble for some years, owing to heavy work on the farm in my early days. Every attack of cold aggravated it. I have tried other remedies in the past but with little effect, and decided to try a bottle of Dr. Pitcher's Backache Kidney Tablets. I got a bottle from A. E. Gayler, druggist, using at first three and then two at a dose, as they proved a little too laxative. With the two tablets dose the pain and other trouble disappeared, and since then there has been no return, consequently I am sure they are a good medicine."

Dr. Pitcher's Backache Kidney Tablets are 50c. a box, at all druggists or by mail, THE DR. ZINA PITCHER CO., Toronto, Ont.

TROOPS AGAIN ORDERED OUT

Bad Outbreak of Foreign Strikers at Archibald, Pa.

Two Men Were Shot and the Deputy Sheriff Was Shot at—The Steam Pipes of the Pennsylvania Coal Co.'s Colliery at Old Forge Were Blown Up With Dynamite—President Comptons on the Chances.

Harrisburg, Pa., Sept. 23.—Thirtieth Regiment has been ordered out. The headquarters of the regiment is Scranton.

Two Men Shot.

Scranton, Pa., Sept. 23.—Sheriff Schatt of Lackawanna County last night telegraphed Governor Storer to send troops to his assistance. The sheriff has just prepared a proclamation announcing that he would call troops if the lawlessness did not cease when he received a series of telephone calls to quell disturbances on the valley. He found on investigation that the situation was such that he could not cope with it, and sent a call for troops.

The worst of last night's outbreaks occurred at Archibald. The crowd of 200 strikers, mostly foreigners, ransacked the quarters occupied by the forty men employed at the Raymond Washery of the Ontario and Western Company, while the men were at work and then meeting with the men as they were returning, drove them back to the refuge of the washery.

The mob then returned to the colliery proper, drove out the engineers, firemen, pumpmen and guards and took possession of the breaker. The plant of the Crescent Electric Light Company, which is supplied with steam from the breaker, had to shut down, and the whole region around on the breaker, two men were shot, was left in darkness. In the attack one striker and the other a woman, their names or condition could not be learned.

Chief Deputy Sheriff Miles McDermott was attacked and shot at by a mob at Oliphant. The steam pipes of the Pennsylvania Coal Company's colliery at Old Forge were blown up with dynamite last night. Two colored cooks at the William A. Colliery were rescued by Deputy Sheriffs from a crowd that was threatening to lynch them.

STRIKERS WILL NOT YIELD.

Because It Would Mean the Dismemberment of Their Union.

Washington, Sept. 23.—President Comptons of the American Federation of Labor said yesterday that the striking miners in the Pennsylvania coal fields were prepared to hold out for months. He said the miners were disposed to make concessions, but the operators had refused all overtures from them, and that the men persisted in their "wild" demands. "The strikers," he said, "are receiving all the supplies they really need, and can continue their fight indefinitely. The Federation will do all it can to aid them. One thing is certain, that the strikers will never yield on the basis of the dismemberment of their union organization, which is all that has raised them even over so little above their desperate condition."

SIR WILFRID SEES THE POPE.

Who Showed Much Interest in Canada—After Italian Trade.

Rome, Sept. 23.—His Holiness the Pope, yesterday accorded a private audience to Sir Wilfrid Laurier, the Premier of Canada, and Lady Laurier, and was very cordial to them. The Pontiff showed much interest in Canada, and said he had closely followed the proceedings of the Premier's conference in London.

Sir Wilfrid Laurier is studying the Italian tariff, with the object of arranging for closer commercial relations with Canada. He has had an informal conference with the authorities on the subject, and discussed what Canadian goods could be advantageously imported.

Sir Wilfrid's Plans.

Ottawa, Sept. 23.—According to a private cablegram received here, Sir Wilfrid Laurier is now in Rome, but will leave for Paris on Saturday. He will spend a couple of days in the French capital, after which he will proceed to London. It is possible the Premier and Lady Laurier will visit Lord Strathcona at Glencoe before their departure for Canada, which is fixed for Oct. 7. Montreal Liberals are arranging for a grand banquet to Sir Wilfrid when he returns home.

The Queen's Funeral Train.

Brussels, Sept. 23.—The funeral train of the late Queen of the Belgians arrived at Laeken at 3:40 p.m. The engine was draped with a crane-covered flag. The King and other members of the royal family, the men in full uniform, with crapes and sword hilts covered with crapes, descended and gathered in the waiting-room, to which the coffin was removed. The coffin was borne into the church, where the Archbishop of Malines pronounced the absolution, after which the coffin, followed by the King and others, was taken by the crypt. The remains later will be placed in the Mausoleum.

To Disband Halifax Battalion.

Halifax, N. S., Sept. 23.—It was reported here last night that the military authorities have received a cablegram from London with regard to the disbandment of the 3rd Special Service Battalion, R. C. R., and that the regiment will vacate the Wellington Barracks on next Monday.

Serious Outbreak of Hog Cholera.

London, Sept. 23.—Dr. J. H. Tennant of this city, Government veterinary surgeon, last week discovered a very serious outbreak at Hilsbury east, and in four days 289 hogs were killed under his direction.

A DOUBLE TRAGEDY.

A Farmer Near Brandon Shot a Merchant and Lady Companion and Afterwards Took Poison.

Winnipeg, Sept. 20.—Miss Ernie Therrien, who was shot by Alonzo Rowe near Brandon Thursday afternoon, died in Brandon Hospital a few minutes before 10 o'clock yesterday morning.

The tragic affair was a most remarkable one. Thomas Law, of Alexander & Law Bros., millers, of Brandon, went to the Beresford district for a day's shooting, accompanied by Miss Therrien, to whom he was engaged to be married. They drove to the farm of Alonzo Rowe, well-known as "Old Man Rowe," and were about to commence shooting. Rowe was in the field at the time, and as soon as he saw the party he started his horses for the house, where he procured a gun, and returning, fired at the couple. Miss Therrien was hit in the knee, and Miss Rowe received almost the entire charge in her hip and abdomen. She fell from the rig to the ground, where her companion also lay unable to rise. Rowe returned to the house, where he took poison, dying almost instantly.

For some time Rowe has been pestered by sportsmen, who have persisted in trespassing on his farm. It is supposed that, blinded with anger at the approach of Law and his companion, he seized his gun, and, without considering the consequences, fired point-blank. Then, realizing what he had done, he committed suicide. Rowe was 70 years of age.

R. L. BORDEN HURT.

The Conservative Leader's Narrow Escape From Death on Saturday.

Calgary, N. W. T., Sept. 22.—While R. L. Borden and his party were returning Saturday from the Indian reservation, a Calgary rig in which Mr. Borden was seated, passed over a rough and sloping piece of ground, and as the one containing Mrs. Borden and others was passing over this spot, the driver of the rig was thrown from his place and the horses at once bolted with the rig and six helpless occupants. The runaway team ran astride the rig containing Mr. Borden and other ladies and gentlemen, and Mr. Borden was, by the pole of the pursuing rig, thrown in such a manner that his left knee was caught between the wheel and the brake of his rig, and a furious horse was all but planing him beneath its feet. The runaway was stopped.

IN AN AIRSHIP.

Aeronaut Stanley Spencer Traveled Over London Nearly 30 Miles.

London, Sept. 20.—Stanley Spencer, a well-known English aeronaut, yesterday successfully accomplished a remarkable flight over London in an airship of his own invention. It is his latest "air ship," which he traveled nearly thirty miles. From observations of those on the ground, Stanley seemed to have complete control of his vessel.

Perceval Spencer, referring to his brother's trip through the air, said it was the most successful trip of Santos-Dumont, the Brazilian aeronaut, by nearly twenty miles. Spencer's airship has a blunt nose and tail and does not taper in a cigar-like point, like the airships of Santos-Dumont. In general outline it has the appearance of a whale.

DATES FOR ELECTION TRIALS.

East Middlesex and South Oxford Fixed For October 15.

Toronto, Sept. 22.—At Osgoode Hall on Saturday morning Justices MacLennan, Street and MacMahon sat for the purpose of fixing the dates for the election petitions. There are altogether 48 protests and 17 cross-petitions to be dealt with.

The judges, however, only fixed the dates for East Middlesex and South Oxford, both against Conservatives. The trials will both be held on the same day—Wednesday, Oct. 15, at 1:30 p.m., the former at London and the other at Woodstock.

The Queen in Denmark.

Copenhagen, Sept. 20.—Queen Alexandra arrived here yesterday from England on board the British royal yacht Victoria and Albert, which was met outside the harbor by King Christian, her father, and other members of the royal family, and escorted into the roadstead by a Danish squadron of warships. The royal party drove to Bernstorff Castle, through cheering crowds of people.

A sufferer From Backache

Mr. W. Gilroy, general merchant, Blenheim, Ont., states: "I am rather enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills, and believe I have good reason to be. For several years I was a great sufferer from kidney disease, and had pains in my back almost constantly. I tried a great many remedies, but did not succeed in obtaining more than slight temporary relief."

"A friend of mine advised me to try Dr. Chase's Kidney-Liver Pills, and I did so, with great satisfaction. I had taken half a box before I began to feel better, and now realize that I have entirely recovered. I often wonder now why people go after new-fangled remedies when this tried and proven medicine is so easily obtained, and so certain to cure." Dr. Chase's Kidney-Liver Pills have an enormous sale because they radically cure serious and chronic disease, one pill a dose, 25 cents a box. All dealers, or Edmanston, Bates & Co., Toronto.

Dr. Chase's Kidney-Liver Pills

TEST DRINKING WATER.

Two Methods by Which You May Determine Its Quality.

The supply of drinking water for the family should be tested at least once a year. Water that at one time is pure and wholesome may become too impure for use, yet it may be without color, and have no odor or taste to show its dangerous qualities.

A simple test of drinking water is the Meisch sewage test. Fill a clean pint bottle three-quarters full of the water to be tested, and dissolve in it half a teaspoonful of granulated sugar. Cork it and set it in a warm place for two days. If during this time it becomes cloudy or milky it is unfit for domestic use. If it remains perfectly clear it is probably safe. Be careful that the bottle is absolutely as clean as you can make it and the sugar pure.

The second test is also a simple one. Obtain from a trustworthy druggist 5 cents' worth of saturated solution of permanganate of potassium. Add about five drops of this to a pint bottle of water. This will turn the water a beautiful rose purple. If there is any considerable amount of organic matter the color will give place in the course of a few hours to a more or less dirty reddish brown. If the color of the water in the bottle remains for twelve hours unchanged from the rose purple it assumed when the permanganate of potassium was first added, it may be considered free from organic contamination.

The Hawaiian as a Diver.

The working crews of the Hawaiian Islands were quartered in suitable camps near their field of labor. They were natives, good fellows, willing workers, admirably adapted to the duty required of them, which was largely in boats and in the water. I well remember one who excelled in diving. On a certain occasion, when he had just been accomplished, it became necessary to detach under water the end of a hawser, which had been made fast to the submerged part of a spar buoy about forty or fifty feet below the surface of the sea. The man was told to take his sheath knife down with him and cut the hawser as near its end as he could, so as to lose as little as possible of the valuable cable. Taking his knife in his teeth, he disappeared beneath the water and remained out of sight so long that he was almost given up for lost, when he suddenly reappeared, and on being asked if he had cut the hawser as he had been told to report that he had uncut it without cutting off any part of it whatever.—James D. Hague in Century.

Arm in Arm With a Tigress.

It is related of Sir Edward Bradford that he once walked arm in arm, so to speak, with a tigress. He was out shooting and, always a fearless sportsman, had come to close quarters with his quarry. He fired, and either the ball failed to take effect or but slightly wounded the animal. She sprang at him and seized his left arm above the elbow. The pain must have been terrible, but Sir Edward kept cool, and, realizing that it would be death to drag his mangled arm away and allow her to spring afresh at him, he deliberately walked a few agonizing paces until his comrade was able to take aim and kill the brute. Thus his courage saved his life, though the amputation of his arm at the shoulder proved necessary.

Wild Brook Trout.

Hawthorne describes an ideal breakfast as consisting of hot cakes, brook trout, roast potatoes, fresh boiled eggs and coffee. The piece of resistance of this breakfast is the brook trout. In spite of all the efforts of fish culturists, the wild brook trout remains the finest morsel the epicure can seek. Quilted trout taste too perceptibly of liver to be a food greatly desired. The wild trout that springs in his native mountain stream is far superior to any cultivated fish. Cook it in the simplest manner, dipping it in oil, salt and pepper and broiling it over hot coals. Serve it simply with butter and slices of lemon.

Benefits of Traveling.

Proper recreation prolongs life. This fact is now better appreciated by busy people than ever before. Of all the forms of recreation the best perhaps is traveling. The benefits to be derived from it cannot be exaggerated. A journey, whether brief or long, is sure to relieve the mind of business or domestic cares by directing it into pleasanter channels. Thousands can testify that traveling has improved their health, lengthened their lives, brightened their mental faculties more than anything else.

The Other One.

Two brothers in Paris were remarkably alike. A gentleman meeting one of them on the boulevard stops him, saying, "Pardon me, but is it you or your brother that I have the honor of speaking?"

"Sir," was the reply, "you are speaking to my brother."

His Hard Luck.

Jones—Brown is an unlucky dog. Smith—How's that?

Jones—His object in marrying was to get out of a boarding house.

Smith—Well?

Jones—Now his wife is running one to support the family.

An Easy Task.

Lover (mournfully)—Have you learned to love another?

Elfrid (who had just broken off her engagement with him)—Oh, no, George; I didn't have to learn. The man is very, very wealthy, and the love came spontaneously.

OUTING OF ONTARIO ORE.

Shows Large Increase for the First Half of 1902.

Toronto, Sept. 23.—A statement issued yesterday by the Ontario Bureau of Mines shows that the value of the Provincial metalliferous products for the first half of the present year, ending June 30, was \$2,902,722, compared with \$1,438,539 for the corresponding period of last year, an increase over the first six months of 1901 of \$1,464,183, and over the half year of 1900 of \$2,078,646.

As compared with the first six months of 1901, there were the following increases—Gold, ounces, 516, \$11,968; nickel, tons, 1,211, \$891,256; copper, tons, 377, \$164,771; iron ore, tons, 134,242, \$229,680; pig iron, tons, 14,302, \$180,439; arsenic, pounds, 108,946, \$2,088.

Silver showed a decrease of 5,200 ounces in weight and \$8,016 in value.

The gains in nickel and copper were large, both in quantity and value. The increased value is partly accounted for by the higher grade of matte now being turned out in the Sudbury district, the improved practice being to bring the product to a metallic content of 70 or 80 per cent.

By far the larger proportion of the iron ore raised in the Province comes from the Helen mine in the Michipicott district. Compared with the first half of 1901, the pig-iron produced by the furnaces at Hamilton, Midland and Deseronto was 25 per cent. greater in value. Ontario mines—mainly the Helen—supplied 51 per cent. of the ore smelted, the remainder being imported from mines south of the line.

WOULD BENEFIT ONTARIO.

Says Hon. E. J. Davis of Increase Duty of U.S. on Pulp Wood.

Ottawa, Sept. 23.—The E. B. Eddy Company and the Customs Department are the authority for the statement that the United States will increase their tariff on wood pulp shipped from Canada to 25 cents a ton. This additional duty is now brought into force by reason of the tax collected in Ontario on pulp wood cut on Crown lands in Ontario for export. This retaliatory rate amounts to about 20 cents a ton on wood pulp, and 40 cents on sulphite. The export of Canadian wood pulp in the fiscal year up to June 30 last was \$1,937,207, of which \$937,330 went to the States and \$934,722 to Britain.

Mr. Cushman of the Eddy Company says: "What Canada ought to do is to put an export charge on pulp wood that would confine the manufacture of pulp and paper to our own country."

May Benefit Ontario.

Toronto, Sept. 23.—The report that the United States Government intends to add 25 cents a ton duty on ground wood and 35 cents a ton on unbleached sulphite and soda pulp, has caused considerable interest around the Parliament Buildings. The Commissioner of Crown Lands said he had not had time to consider what the effect of such action would have in Ontario, but he thought on the face of it, that it would have tendency to open paper factories in this Province. At any rate, he added, he could not see that it would hurt Ontario.

Must Abate the Nuisance.

Hamilton, Sept. 23.—The Board of Health, after numerous postponements, finally, last night, took action regarding the Freeman fertilizing works on North Wentworth street. After hearing three expert witnesses on behalf of the company, the board decided to order the firm to abate within 30 days the nuisance at its factory, and, in default, the Provincial Board is to inspect the place.

Died From Cholera.

Toronto, Sept. 23.—Rev. Dr. Warden received a cablegram yesterday afternoon from Honan, China, announcing the death of a Canadian missionary, Rev. Thomas Craigie Hood of Harrow, Ont. Rev. Mr. Hood died on Friday last from cholera. Deceased was a native of Harrow, Ont., where his relatives reside. He went to China as a missionary in 1890.

Thanksgiving.

Ottawa, Sept. 23.—A Cabinet Council was held yesterday morning, when Thanksgiving Day was fixed for Thursday, Oct. 16. Last year Thanksgiving Day was held on Nov. 23. The Ministers present at the Cabinet meeting were Sir Frederick Borden, Hon. William Paterson, Hon. Clifford Sifton, Hon. A. G. Blair and Hon. R. W. Scott.

Philadelphia, Pa.

"For two years I suffered terribly from dyspepsia, with great depression, and was always feeling poorly. I then tried Ayer's Sarsaparilla, and in one week I was a new man."—John McDonald.

Don't forget that it's "Ayer's" Sarsaparilla that will make you strong and hopeful. Don't waste your time and money by trying some other kind. Use the old, tested, tried, and true Ayer's Sarsaparilla.

\$1.00 a bottle. All druggists.

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows all about it, and we will be glad to send you a free trial bottle.
