British Grain Trade.

London, May 19.—The Mark Lane Express, in its weekly review of the British grain trade, says: The weather favors the growth of wheat, which is strong, regular and hardy. Beans, peas and spring corn look well. Continental advices are satisfactory. It is estimated that a little above 1,000,000 quarters of English wheat of 1889 remain to be disposed of. This, together with the fair quality of the offerings, has hardened prices. The sales of English wheats during the week were 81,719 quarters at 325 8d. against 61,188 at 79s 11d per quarter during the corresonding week last year.
