An offer of \$11,000 has been made by one man, who has been anxious to get it, but nothing definite has been done regarding it. The hotel sold for \$7,500 about a year ago.

GREENBACKS GALORE

Scattered on Ground While Being Taken to New York.

New York, Oct. 27.—The breaking down of a big automobile loaded with \$1,000,000 of greenbacks, which were being taken to the Grand street ferry today that police reserves had to be called out to keep back the mob and protect the money.

In the automobile were Mr. Roth, manager of the Standard Bank of Brooklyn, and a chauffeur. Over the top of the doors of the machine the edges of bales of greenbacks could be seen, and when the front part of the car blew up packages of money were scattered all over the rear seat, a few falling to the ground. The machine was headed for the Williamsburg Bank.

The sight of the greenbacks started a rush of hundreds of the crowd, and when Mr. Roth announced that the machine carried \$1,000,000, the four policemen on duty at the ferry rushed in to protect the treasure. A fireboat was moored near, and the firemen aided in the protection until the chauffeur repaired the machine sufficiently to move on.

BOURASSA'S NEW ALLY

Quebec Conservatives Have an Agreement With the Nationalists.

Montreal, Oct. 27.—A similar alliance between the Conservative party and Hon. J. I. Tarte, after the latter's retirement from the Dominion cabinet, has now been formed between the Conservative party and Mr. Henri Bourassa, and as a result of it the interests of the Conservative and so-called Nationalist party will be coupled and where a Nationalist candidate may have a good chance of election, no Conservative candidate will be put in the field. The Nationalist party will follow this policy where a Conservative candidate is in the field, either for the Provincial or the Dominion house.

The recent disturbances in the Provincial cabinet have resulted in increased activity among the Conservative interests in the province and the latter expect to win quite a few seats if an election is held next spring, especially if Mr. Bourassa defeats Hon. Turgeon, the ex-minister of agriculture, in the county of Bellechasse.

Inspector Sanders Is Investigating

Inspector Sanders, of the Children's Aid Society, is at Southwold today investigating the case of a young white girl who has been reported as living with an Indian in a hut near that place.

The news of the discovery came to The Advertiser by way of a letter from a lady living in Southwold.

The letter read as follows: Southwold, Oct. 26. The Advertiser: I write to inform you that a young girl with red hair, and who is, perhaps, 15 years of age, is living with an Indian, in the woods near here.

"The girl is the one that was missed from Lucan some time ago, and is evidently being detained by force. I would advise the party who comes to her relief to come when the Indian is absent, as he is said to be a bad customer."

Lucan in the Dark. A telephone message to Lucan elicited the fact that no girl was known to be missing from that place.

The letter was then handed to Inspector Sanders, who journeyed to Southwold to investigate the matter.

Trains relieving. Congratulations in large numbers by mail, telegraph and telephone, were received at the White House during the day. King Edward cabled good wishes.

One Italian was drowned and others were buried beneath gravel and rocks. The trainmen saved themselves by jumping.

CHICAGO WHEAT IN HEAVY BREAK

New York Money Flurry Causes a Slump of Four Cents.

Chicago, Oct. 28.—All of the grain markets broke heavily at the opening today. The extreme decline in wheat showed a slump of about 4 cents. The chief reason for the decline was the financial condition in New York, which induced a strong bearish feeling on the local exchange.

Duluth, Oct. 28.—The dealing in grain was suspended on the Duluth board of trade this morning, owing to the money conditions. No sales were made in either cash grain or the options, although the trading room was open and the members were on the floor. The business will not be resumed until conditions improve. Country elevators are being advised not to buy grain.

H. C. Beecher, stockbroker, received the following by private wire from Bartlett, Frazier & Carrington today:

New York, Oct. 28.—Noon.—The action of today's market so far has been decidedly encouraging, though there has been some liquidation, conducted in an orderly manner, and in spite of it prices are ranging well above Saturday's quotations. Conservative attitude, and in almost all cases are refusing to buy stocks except for cash. An intimate has been sent out for the effect that although stock exchange houses will receive the proper assistance for the financing of their existing commitments, should they attempt to extend or to encourage speculation they would have difficulty in securing the necessary funds. Endeavors are being made, and are meeting with success for the engagement of considerable sums of gold in London, is being estimated that so far not less than \$3,000,000 having been engaged. Unless some unexpected developments of an adverse character should occur, a gradual righting of the situation may be looked for.
