ENGINEER AND BRAKEMAN BOTH KILLED IN WRECK

Charles Thompson, of Goderich, and Fred Pierce, of Mimico, Meet Death in Bad Smash at St. Catharines—Inquest Will Be Held.

[Special to The Advertiser.]
St. Catharines, July 28.—Two men are dead, two men are injured, two engines and a dozen freight cars were wrecked, as the result of a train wreck at the Grand Trunk depot at two o'clock this afternoon. The dead are: Fred Pierce, engineer, Mimico.
Charles Thompson, brakeman, Fort Erie.

The dead engineer was in charge of No. 644, which was hauling a heavy westbound freight train from Niagara Falls. The train was moving at a high rate of speed and ran into an open switch at the station, crashing with tremendous force into engine No. 1263, which was standing on a siding near the freight sheds.

Died at His Post.
Engineer Pierce stuck to his post and died at the throttle. His body was mangled in the wreck, one leg being severed. The body of Thompson was not found for about two hours after the accident, when it was discovered buried under a pile of coal.

One of the brakemen who saw the wreck said that it looked as if the rushing freight train was beyond control. Another said that the sema-

phore was not turned against the train, and that there was no signal for the engineer to stop.

A Close Call.
Two St. Catharines men named Richard Daniels and George Chout were loading a box car at the standing train at the freight sheds when their car was smashed to kindling. Another car partly telescoped it, and was forced completely on to the top of the car they were working in. They were both seriously, but not fatally, injured. Daniels, who is the foreman of the car repair gang, was injured internally, and taken home in the ambulance. Clout was hurt on the head, but is not regarded as in a dangerous state.

A tramp who was stealing a ride on the fast freight has been held at a witness at the inquest, which was opened Monday night, but adjourned until Tuesday evening. He states that the outside semaphore was set against the incoming train. The regular switchman was away, and his place was being filled by a temporary man, who will make no statement.
Thompson's relatives reside in Goderich and the remains will be taken there.

WANTS INVESTIGATION INTO UNION LIFE CO

Strong Criticism Was Made at a Meeting of the British Shareholders.

London, July 29.—A meeting of British shareholders of the Union Life Assurance Company was held yesterday at the Hotel Cecil. Mr. A. M. DeBrekka, chairman, said that the committee had earnestly endeavored to bring about a reconstruction, but without success. He criticized several members of the London advisory board, and condemned the administration of the company both here and in Toronto. Efforts were being made to get the Finance Minister of the Dominion to investigate thoroughly the company's affairs, and to punish those to whom punishment was due. As matters now stood, he considered that the shareholders' money was entirely lost. He intimated that legal proceedings might be taken against the directors collectively and individually. A resolution was unanimously passed appealing to the Canadian Minister of Finance to take all possible action to cause a Government inquiry to be held as to the failure of the company, particularly as to the prospectus issued to the English shareholders in 1910.

A Home Recipe For Removing Wrinkles

[From Woman's National Journal.]
Who will blame the modern woman for trying to look as young and attractive as she reasonably can? Why should she place at a disadvantage in numerous ways by wearing wrinkles, if she can avoid these hateful marks of advancing age?

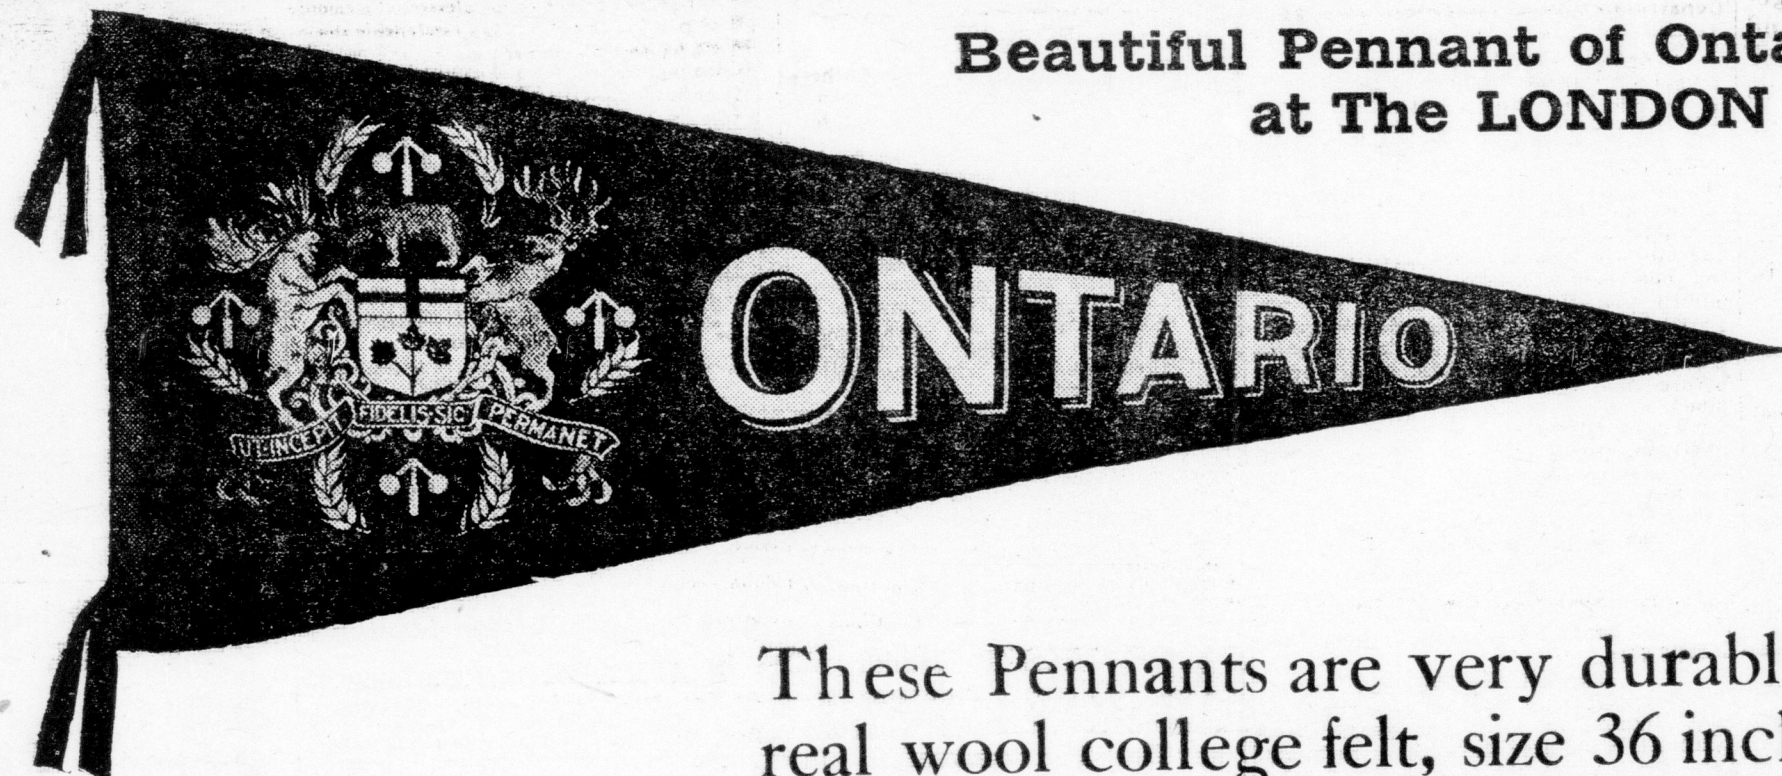

Few women, however, know what to do to effectively rid themselves of wrinkles or sagging. None of the advertised preparations is satisfactory and most of them are very expensive. But a very simple and harmless home remedy, which any woman can make, will work wonders where all the patent preparations fail. Buy an ounce of powdered salicylate at any drug store. Dissolve the whole ounce in a half pint of witch hazel and use it as a wash lotion. The results are practically instantaneous. Marked improvement is noticed immediately after the first trial. Wrinkles and sagging are corrected and the face feels so refreshed and smug-like.
