

WM. HEAMAN IS HEAD OF THE LAY ASSOCIATION

Laymen Attending Conference Hold Annual Election of Officers.

William Heaman of this city was elected president of the Lay Association of the London Conference of the Methodist Church of Canada when the annual election of officers was held Wednesday night in the Askin Street Sunday School. The other officers elected are: Honorary president, T. B. Shillington, Elmheim, vice-president, F. B. Holtby, St. Thomas; secretary-treasurer, M. H. Moorehouse of this city. The report of the nominating committee was adopted unanimously.

The following were elected secretaries in the respective districts of the London Conference: London District, Joseph Pack, Stratford; E. L. Adolph, Listowel; Wingham, J. A. Mills, Wingham; Goderich, H. Horney, St. Thomas; E. A. Cattanech, Stratford; T. B. Taylor, Ridgeway; J. E. Cronk, Sarnia; W. J. Moorehouse, Windsor; A. T. Cadman, Elmheim; J. B. Little, Parkhill; J. E. Harrison.

J. M. Gunn speaks. The second meeting of the 18th annual conference of the Lay Association was marked by two excellent addresses by W. E. Gundy of Windsor, who spoke of "Border Problems," and J. M. Gunn of London, speaking on the rather contradictory subject, "The Conquest of the Impossible."

Mr. Gunn gave a highly entertaining as well as inspiring address which was interspersed with frequent flashes of keen wit. Throughout, he illustrated his talk by quotations from poets and philosophers.

After all, he said, it has been proven time and again that things are only impossible relatively speaking. The impossible has been conquered over and over again, especially in the field of science, and so now the world is slow to say that this or that is impossible.

The overcoming of the impossible, the speaker continued, is accomplished first in the human mind. To think it is to do it. The lower animals were different from the human being only in that they make no progress. Everywhere the overcome discontent could be seen driving men to reach out to overcome every obstacle.

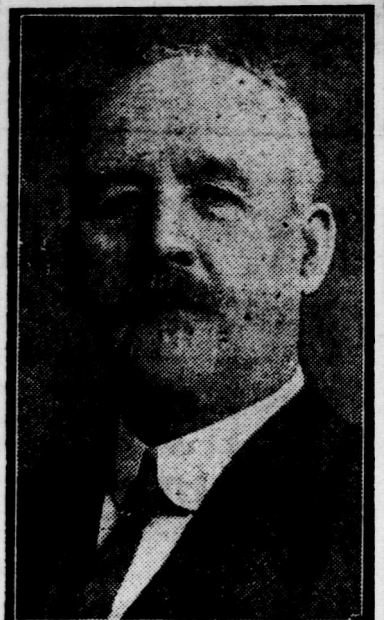

Turning backward through the pages of history he told of Napoleon, Wellington, Pitt and others, who accomplished great things, because they were possessed with indomitable wills. He then told of accomplishment in the literary world by men who had struggled under crushing handicaps.

A Dynamic Voice. "Although the invincible spirit of man can do so much towards the conquering of the seemingly impossible, yet there are many things men could not overcome without the aid of religion. After all I believe that the essence of religion is contained in the words of the Chinese philosopher when he said: 'I seek to think the unthinkable, to speak the ineffable word, and to do the impossible act.' Religion I believe is a dynamic force summed up in the words of Christ when he said: 'Nothing Will Be Impossible.'"

The span of life he said was much too short to accomplish all the desired tasks of life. This fact, he claimed, was the strongest argument in favor of an after life. God surely did not place an insatiable desire in the hearts of men to do things only to have it all ended by oblivion. The future life, he said, would be marked, no doubt, by an ever-searching for knowledge and by service. It would be an everlasting endeavor to do the infinitely impossible.

Cultivate Family Spirit. We on the border feel that it is our duty to cultivate the family spirit.

HEADS LAY ASSOCIATION

EX-ALD. WILLIAM HEAMAN, who was elected president of the Methodist Laymen's Association of London District.

With that irresistible charm of manner so pronounced and so becoming to a cultured southerner, tinged with the telling emphasis and earnestness of his appeal, Rev. C. G. Chappell, pastor of the Askin Street Place Church, Washington, D. C., won for all time the hearts of those of the Methodist persuasion who listened throughout his address last evening at the Askin Street Methodist Church.

The address of the evening was a study of the edifice was taxed to the utmost with every Methodist congregation in the city contributing liberally to the attendance. In fact, with a few exceptions, the church was full.

Although reduced at frequent intervals to paroxysms of merriment by the speaker, with his seemingly inexhaustible fund of anecdotes and quaint southern reminiscences, the gathering failed to miss the vast import and emphatic significance of his remarks, and there were periods, too, as Mr. Chappell touched upon the glorious sacrifices of those who have died for the cause of the oppressed.

Mr. Chappell chose for his topic, "Making the Unworthy Worthy." "Centuries ago," he declared, "the Chinese constructed the massive wall around their domains, trusting that such would restrain the Mongolian hordes who threatened to overrun the continent. But it developed that the wall would not suffice to stop the invading hordes, and he swept on in overwhelming numbers. You see it is not the wall that alone protects. The wall is no good. There must exist something within the wall as well, whether the good while ins and out individual. With the latter it is the soul inside that really means something and counts. We must bring into our lives and the lives of others the power of God, the power which alone can now cannot understand—the power of the life of Jesus Christ. There comes the time in everyone's life, no matter who they are, or what they have seen or understood, powerful influences they may have lived, that they will be called upon to face a crisis. And that day it will be decided that the only religion inside is the religion of Jesus Christ. Nothing will be of use to us now. Ask: 'Are you going to be there?' And the one supreme endeavor of the Methodist Church this year must be our gigantic effort toward winning the children of the Sunday school, the young people of the church. We must create in them a knowledge of Jesus Christ as their saviour, their hope, their ideal, and that influence will bear upon others."

Mr. Chappell's address was a masterpiece of the art of the speaker. He spoke with a dynamic force, and his words were a revelation to many. He spoke of the power of the life of Jesus Christ, and of the need of a dynamic force in the lives of men.

BRITISH WAR MEDALS FOR 50 MEN, R. C. R.

Presentations To Be Made by Brig.-Gen. H. A. Panet.

Fifty British war service medals have been received by Col. C. H. Hill, D. S. O., officer commanding the Royal Canadian Regiment, to be distributed amongst the members who took part in the great war.

A general parade will be held, when it is expected Brig.-Gen. H. A. Panet, C.B., C.M.G., D.S.O., G.O.C., M. D. No. 1, will present the medals. Other military decorations are expected to be held after the presentation.

CLOCK PRESENTED TO REV. H. T. FERGUSON

Young People of Centennial Church Express Appreciation of Pastor.

On Monday evening the Centennial Epworth League entertained Rev. H. T. and Mrs. Ferguson and family in rather a unique manner. After a short program in the schoolroom, consisting of solos rendered by Misses Stanfield, Clarke and Cunningham, and an exceptionally clever reading by Miss Hylda Rowell, all who were present took part in a Bible name pronunciation match led by Ed. Tufts and refereed by Mr. Ferguson.

Following this the Ferguson family were asked to lead in a promenade toward the banquet hall, where Miss Elsie Wright and her social committee had a surprise for those present. Luncheon was served on gaily decorated tables, with masses of peonies and blossoms in every conceivable space. The Ferguson family table was especially elaborate with brightly-colored monograms on the cloths and the guests of the evening were seated. Robert Tufts read a remarkably original address, expressing in very eloquent terms the sincere regard of the leaguers for their pastor, and stated with great earnestness the affection of the young people for their minister had increased five hundred per cent during the five years he and his family had dwelt among them.

Both Mr. Ferguson and other members of his family have taken an active part in the young people's work of the church.

OVERLAND ANNOUNCES NEW PRICES ON ALL MODELS OF AUTOMOBILES.

Rock bottom prices for Overland automobiles went into effect June 1. This announcement was made yesterday by local dealer, Frank McLaughlin, for Willys-Overland products, following receipt of telegraphic advices from the factory at Toronto. The new prices are going to be of real value. The Willys-Knight touring car, \$2,900. Sweeping reductions are also announced on other models.

The new price is \$200 less than the lowest price for which Overland Four was ever sold, and is made possible by the quantity sale of their popular car, and the anticipation of great savings in manufacturing cost through increased volume production.

The company's information to dealers is: "We are going the whole route now. The price is the low price which we have long anticipated. We might as well reach the bottom now, and the car itself is better than ever before."

A surprising feature of the announcement is the big cut in the price of Willys-Knight touring car, with the famous Silent Knight engine. The new price is \$2,900. Sweeping reductions are also announced on other models.

As the evenings lengthen out and summer approaches, the question of "What shall we do this summer?" is in the minds of many. A new publication on the Algonquin Park, the wonderful Ontario Government reserve, has been issued by the Canadian National Grand Trunk Railways. It is filled with information helpful to those planning their summer holidays. The booklet is a handsome one, beautifully illustrated and describes the many attractions to be found in the Algonquin Park. It also describes the hotels that are situated there, and the information as to the rates. There is probably no booklet of the kind in the country that compares to this extensive territory for the canoe cruiser, camper and angler. With an altitude of two thousand feet above the sea, the air is pure and bracing. Two hundred miles north of Toronto and one hundred and thirty miles from Ottawa, it is easy of access. For pleasure, rest and recuperation there is no place like Algonquin Park. For full information, and a free copy of illustrated booklet, write any agent Canadian National Grand Trunk Railway, or C. E. Horning, D. P. A. G. T. R., Toronto, Ont. May 15, 21, 24, 27, 30, 31.

WHEAT SOARS TO NEW HIGH LEVEL

Shortage of 29,000,000 Bushels Sends Prices Skyward.

CHICAGO, June 1.—With next to no reserve of old wheat left in the United States visible supply, wheat traders today grappled with an authoritative showing that the size of the new wheat crop in the United States is 29,000,000 bushels, perhaps 33,000,000 bushels, during the last month. Largely as a result the price of the July delivery of wheat here made a sky-rocket flight today, surpassing any previous quotation for July this season.

The acre for the day was reached at \$1.37, just nine cents a bushel above yesterday's closing figures. Few speculators appeared to have the hardihood to take to the bear side of the market, and in the absence of such opposition prices most of the time were buoyant, despite a good deal of profit-taking by long.

Exporters and millers gave signs of concern as to the apparent curtailment of production. The crop damage indicated, chiefly in the southwest, has been to a great degree due to abnormal weather.

MAY REVISE ALLIANCE.

TOKIO, June 1.—Great Britain, the Nichi Nichi declares today, has suggested that Japan permit the Anglo-Japanese alliance to continue another year. The nations are definitely negotiating for a revision of the alliance, the newspaper says.

CHIROPRACTOR RAPS POLITICAL DOCTOR SEEKING MONOPOLY

Says Christ Would Be Arrested If He Were Here Today.

DRUGLESS HEALERS MEET

Dr. F. R. Margetts, of National College, Chicago, Addresses Convention.

"If Christ was here today and performed any of his healing miracles, he would be speedily arrested," asserted F. R. Margetts, D.C., Ph.C., professor of symptomatology, National College of Chiropractic, Chicago, addressing a public meeting in Hyman Hall last evening in conjunction with the drugless physicians' convention.

"Dispensation of a law in a particular case or permission to do something forbidden, or to omit doing something enjoined. The reason for any new dispensation is first, the old law has fulfilled its mission; second, because it has proven itself incapable of doing so. The reason for the new healing dispensation is that the old drug system has been proven incapable. The birth of any dispensation means travail. Every new life has meant that some mother has passed through the shadow of the valley. Likewise dispensation must be born through travail caused by those twin adversaries, prejudice and persecution."

Prejudice Blinds.

"Prejudice blinds the vision, warps the judgment, closes the door against reason, pulls down the blind against information, etherizes the conscience and embitters the heart. It compelled Socrates to drink of the hemlock cup because he held the truth. Fulton ran his first steamboat along the Hudson between two rows of sneering skeptics. Lincoln, the greatest American president, was dubbed in derision a rail-splitter. Harvey, upon discovering the circulation of the blood, was fiercely denounced by the doctors of his day."

"The faith of the medical man in medicine is wonderful. It is in truth the assurance of cures hoped for, a conviction of cures yet unseen. I respect the many splendid men of the medical profession. I feel somewhat chagrined toward the political doctor who, spending his time to create a monopoly of healing, masquerades as a friend of the sick and yet wants to deny them the advantage of drugless methods which have cured hundreds of thousands after the medicals have failed."

Makes Too Many Guesses.

"The medical man makes too many guesses. He must guess what is wrong, if any, is diseased. He then guesses the disease, its stage, necessary drugs, quantities; when to give and when to stop giving. In the State of Michigan medical officials challenged the drugless healers to a competitive healing contest, and upon the challenge being accepted, withdrew their offer. That the National T. B. Association advertises that there are one million cases of active tuberculosis in the United States is ample testimony to the failure of drugs."

To illustrate the fairness of the political doctor: The famous Rubins case (that of the talking girl) is but one of the many notable cases where drugless methods cured when medicine had failed. Yet such has been described through the country. It is amusing also to note that Dr. Robertson, health commissioner of Chicago, recommends "jazz" music as curative, while he denounces alcohol. "Jazz" would be drugless, while the other would be the drug.

Scores Medical Domination.

"It is absurd for the law to give a monopoly of healing to one, or to allow the prejudiced advocates of the drug methods to have control over those practicing other methods. Every human being is entitled to life, liberty and the pursuit of happiness, and medical domination means the denial of these. Let there be a competitive system, and the public will benefit by the survival of the fittest."

That the medical profession was fast becoming mercenary was contended by the speaker, pointing out that the appendicitis "scare" brings them untold riches for operations, while reports showed that thousands of "boozie" prescriptions were being issued, meaning much money in their pockets.

"The medical profession," he concluded, "has plenty to occupy itself with in cleaning up after its own errors, without being so busy about people heaving the poison injected into their pure blood."

Hope of Humanity.

At the afternoon session of the conference Professor Margetts spoke on "Healing and Healers." "Drugless healing," he said, "is the physical, and to a large extent the mental and spiritual hope of humanity. Man is a triunity of body, mind and soul. All three overlap, but the spiritual is the most important. Consider the need of drugless healing and its opportunity: suicides, divorces, insanity, which are all increasing in the number of cases."

"The drugless healers must be united for the sake of humanity, if not for themselves. This is a fight between the two methods of medical healing. In this fight of this, as shown by their tremendously effective political organization and propaganda. Their plan of war is Napoleonic. Drugless healing is one of the greatest blessings afforded mankind. The curse of the world is provincialism, with its narrowness and illiberality. It was responsible for the European war."

In Politics it Makes a Man Place his Party Before his Country.

In industrial circles it makes the 'gunman' and the 'slugger' fasten himself tenaciously upon honest labor. In religion it means denominational prejudice. In racial differences it breeds cruelty. In neighborhood affairs it promotes family feuds. In society it is responsible for bigoted envy. In business it creates the spirit of intolerance of one businessman for another. In healing it gives the medical man an intolerance of any new system that would be a blessing to humanity."

The attendance at the conference numbered more than sixty, representing every principal center of Ontario. E. T. Essery, K.C., of London, presided at the evening session, delivering an introductory address.

MORE HOSPITALS BADLY NEEDED IN RURAL DISTRICTS

Lack of Facilities Appalling, Doctor Tells the Medical Association.

NIAGARA FALLS, Ont., June 1.—Dr. J. Heurner Mullin of Hamilton, president of the Ontario Medical Association, in his presidential address at the opening of the association's annual convention here today, said the association's present duty was to improve its standing regarding strictly professional affairs. Referring in general terms to hospital or licensed practitioners, Dr. Mullin said: "The public in large numbers have been carried off their feet by extravagant claims as to the results of treatment by those whom we know to have had insufficient training."

Greater responsibility should be assumed by the Ontario Legislature in providing for the public purse higher education in the medical field. Dr. Mullin said. The lack of present day hospital requirements in rural communities was appalling. Dr. Mullin declared, and he urged an extension of hospital facilities to the country districts.

"Our plan for medical service to the public," Dr. Mullin continued, "needs some revision in order to keep pace with changing conditions. Every individual in the community has a right to the best possible medical treatment. The poor should receive the best without any suggestion of charity, and much of the cost of sickness should be transferred to the whole community. Each individual should pay when he is well, in proportion to his capacity and not be exploited when he is ill."

The medical profession in Ontario, Dr. Mullin said, should assist in the development of some plan for the improvement of the service to the community. In his opinion no plan has been tried which completely supplied the public need.

REBELS FIRE DWELLING.

MALLOW, Ireland, June 1.—The residence of Mrs. Purdon Coots was completely destroyed by fire today. The blaze was started by a party of fifteen men.

Organdy Frocks in All the Shades of Summer

Organdy has come to stay, and there is every reason to believe that its stay will be long. It makes up so beautifully for summer wear. It is cool, and it has a certain richness of effect. And these frocks especially are so simple, so adorably young. The shades are so pretty, they whisper summer, and absolutely fast to washing in hot water.

THEFT CASE SETTLED.

THEDFORD, June 1.—A theft charge arising out of a deal over a cow ten years ago, brought Walter Martin into police court at the instance of Ezekiel Burnham. Mrs. Martin, chief witness, told of the deal being made when she was ten years of age. Martin will return the cow and pay costs. All parties were Indians.

Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain mulsified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else at the price. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in about a teaspoonful of it that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Adv.
