BUSINESS FOR THE WEEK.

SLIGHT FALLING OFF IN THE VOLUME OF TRADE.

The Absence of Seasonable Weather Causes a Decreased Movement in Drygoods—Heavy Boots and Shoes and Rubber Goods in Good Demand—Payments Only Fair—Trade and Financial Topics.

There has been no material change in the wholesale trade during the week. In groceries a fair amount of business is being done, particularly in fruits. In drygoods the volume of trade shows a falling off owing to the mild weather, but a cool spell, it is anticipated, will bring activity in winter goods. Hardware is also less active, while in heavy boots and shoes and rubber goods an increased trade is reported. Leather is quiet and wool continues dull.

In some lines of trade payments are reported good, but generally speaking remittances are not up to what it was anticipated they would be in view of the good crops. The fact is, farmers' deliveries are still comparatively small.

PAINTS AND OILS.

Country trade continues good and city quiet. Much the same applies to payments. Turpentine quiet and firm. White lead is unsettled, and there is little or no enquiry for linseed oil. Glass is in good demand, and new goods are coming in rapidly.

WOOL.

Trade continues quiet. The Americans are taking a little fleece; one dealer shipped a carload a few days ago at 18c. Local dealers are doing a little in fleece and short wools. Supers are unchanged at 22c, and extras at 26c to 27c.

HARDWARE.

The volume of business is scarcely so heavy as a week ago, but is nevertheless up to the average of previous years at this time. Winter supplies are in good demand. There is no particular change in hardware or tinware and metals remain firm. Manufacturers have advanced the price of iron pipe. Payments fair.

BOOTS AND SHOES.

The improvement noted a week ago continues. Heavy goods are moving pretty freely, and for rubber goods the demand is active. Very little raw material is being purchased at the moment owing to the approach of stock-taking. Payments are up to expectations and equal to the average of the past ten years.

DRYGOODS.

Trade has been rather quiet since November came in. The weather has been mild, and until there is a cold spell the trade do not anticipate a brisk movement in such goods as blankets and flannel goods. Flannelettes are in active demand and gloves, hosiery and underwear have been selling fairly well. A moderately good sorting-up trade in small wares and haberdashery is being done; but outside these business is quiet. It is expected that with colder weather will come an active demand for mantle cloths. In a few weeks preparations for the Christmas trade will begin. Payments are moderately good.

GROCERIES.

Trade continues fair for the season. Sugars quiet, only a car moving here and there; granulated is unchanged at 4⅝c to 4¾c and yellows at 3 5-8c to 4 1-4c. There is a good seasonable demand for fruits. Valencia raisins continue to tend upwards, and prices are likely to remain firm until the Christmas trade has been satisfied. Outside advices on currants are firmer; Valencia are quoted at 5¼c to 5½c and currants at 6c to 6½c. Demand for coffees continues good and all fine grades are scarce; few if any Rios are to be got here under 19½c to 20c. Teas continue in good seasonable demand; low and medium grade Japans are scarce and firm. Outside advices say that price of low grades must advance as soon as present stocks are closed out. Indian and Ceylon teas under 8d are scarce. Syrups are in better demand and low grades scarce. There is no material change in canned goods, the demand being poor.

LEATHER.

Trade has been a little on the quiet side during the week, but there is still a fair volume being done. Cables report improvement in the English market. Stocks here are in moderate compass and prices steady. There is still a good enquiry for colored leathers. Heavy harness leather continues in good demand and light neglected. Hides and skins are unchanged; 80c is the ruling price of the latter, but as much as 10c more is said to have been paid in some instances.

DRUGS.

Business has been fair during the week, but without any marked features. Quinine, carbolic acid, oil of peppermint and mercurials are firm. Camphor, glycerine and castor oil are all easier. At the moment the demand is chiefly for cough and patent medicines. There is a slight falling off in payments.

UNFORTUNATE MERCHANTS

Who Cannot Pay 100 Cents on the Dollar—Trade Sales.

William Fetherston, grocer and furniture dealer, North Bay, has assigned to A. G. Browning of the same place with liabilities of about $3000. Assets consist of about $1000 stock and $1000 book debts.

C. W. Browne, grocer, of Toronto has assigned to M. L. Noble.

Elias Foy, wagons, Campden; Fred Toms, gardener, Townsend; W. H. Anderson, general store, Kemptville.

D. McCormick, hotelkeeper, of Wingham is offering to compromise at 25c on the dollar.

The creditors of Kilbourn, Bishop & Co., the insolvent drygoods merchants of Owen Sound, have received 39½c on the claims. The inspectors show liabilities of $12,852.55, and assets of $7182.36.

Profit Sharing in England.

[The Draper's Record.]

It happens unfortunately that a year in which the principles of profit-sharing were to be put to such an extensive test should have turned out one in which depression in every department of trade has been so severe. It will be remembered that about a year ago announcements were made in many directions that schemes of one kind or another, by which certain portions of the year's profits would be distributed among employes, would be tried by way of experiment. So far as is known there has been nothing startling in the way of results. There have been distributions of bonuses of four, five, or even 10 per cent., but in every case, while the principles involved are admitted to have worked with every success, the real value of the test has been marred by the circumstances of the time. In one case only does there seem to have been avowed dissatisfaction. The prospect of participation in profits has failed to bring about a noticeable increase in attention and care given by the workers to their work, by which it was anticipated that profits would increase in proportion. This, however, we hope is altogether an exceptional case and one in which the employer will reverse his finding at the end of another year. A distribution has just been made in our own trade at the rate of 4 per cent. on the year's earnings of the employes, a result which we venture to think, in view of the present condition of trade, not only satisfactory but encouraging.

TRADE AND FINANCIAL GOSSIP.

A gentleman recently in the West Indies informed The Halifax Herald that Canadian millers are overloading that market with the poorer grades of flour, while the merchants there are willing to pay for the best. He also complained that the packing was bad.

When Mr. Adam Brown, the Dominion's High Commissioner to the Jamaica Exposition, returned home he pointed out that while there was without doubt a market for Canadian flour of good brand, particular attention must be paid to the character of the packages in which it was put up, owing to peculiarity of climatic influences. His speeches emphasizing this were scattered broadcast, and if, as The Herald says, Canadian flour is getting into bad odor our millers have themselves to blame. This seems a matter that the Dominion Millers' Association might take up with profit.

The growth in England's import trade in eggs and poultry has been enormous during the past 20 years. In 1864 she imported from foreign countries £835,000 worth of poultry and eggs; in 1869 the value had risen to £1,128,000. In 1874 it had more than doubled, being then £2,423,000. In 1879 there was a slight decline, the value being £2,295,000, but in 1886 it had gone up to £2,910,000; and three years ago it was £3,600,000. In 1891, last year, it had reached the grand total of £3,977,000. The Board of Trade returns to the end of September of the present year showed that the increase over the corresponding nine months of last year was £254,000. In addition to the amount given for 1891 there were imports from Ireland amounting to £1,800,000, so that the grand total was £5,777,000. It is calculated that, leaving out the rural districts, which produced for themselves, the industrial population last year spent an average of from six to seven shillings upon foreign and Irish eggs and poultry.

Wholesale grocers report a larger volume of trade for October than for the same month last year.

Yokohama and Hiogo tea settlements up to Oct. 7 show a shortage of 19,200 piculs compared with last year.

The success of the Democratic party in the United States gives general satisfaction to local wholesale merchants. Some are, of course, more enthusiastic than others. A modification of the tariff is expected, a radical change not even dreamed of. Hardware men fancy there will be a reduction in the duty on tin plates, "but," as one of them remarked yesterday, "we don't for a moment think that the Americans are going to be such fools as to suddenly take away from this industry the protection they have been so industriously building up around it." Wool merchants hope for free wool, but not for a couple of years yet.

Trade Sales.

Yesterday was a busy day at Suckling's. The estate of J. T. Brown & Co. of Guelph was sold in four lots; the boots and shoes sold at 67½c on the dollar, the leather findings at 42c, the machinery at 17c and the book debts at 30c. The boot and shoe stock of Richard Eyre sold at 60c on the dollar and the book debts at 25c. The stock of J. J. Foy & Co. of Brighton, invoiced at $10,000, was knocked down at 34 1-2c on the dollar.

MARKET REPORTS.

Wheat Bounds Upward—Pork Still Rising in England—Toronto Stocks Dull, But Higher—New York Stocks Lower—Money Firm—Foreign Exchange.

Consols are quoted at 97 3-16 for money and 97 1-4 for account.

C.P.R. is quoted in London at 89 1-4, in Montreal at 87⅝ bid and in Toronto at 87 3-8 bid.

Northwest Land is easier to-day, the closing sale on the local exchange being made at 89½.

The exports of apples from Atlantic ports this year, up to Oct. 29, were 465,834 bbls, against 433,501 bbls up to the same date in 1891.

A despatch from the Inland Revenue Department settles the question as to what jurisdiction of inspection North Bay grain comes under, by declaring it to be under the jurisdiction of Toronto.

The effect of the Presidential election on stocks is bearish, and on wheat bullish. Chicago wheat bounded up 2 points yesterday, re-acted and closed 1 1-4 points over Tuesday's close.

Secretary Ogden of the local Stock Exchange says the newspapers were in error as to statements made regarding the sale of the seat on the exchange on Tuesday. There is no "par" for the seats, he says, but the entrance fee is $4000. When a member wishes to sell his seat or it is vacated from other causes, entrance may be bought for less than $4000. The limit to the number of members is 50, not 33.

WEDNESDAY EVENING, Nov. 9.

Trading was slow on the Local Stock Exchange to-day, 475 shares representing the transactions for the day. The tone was better, however, both buyers' and sellers' figures having stiffened since yesterday. Montreal was 1-4 higher at to-day's close, as compared with closing bids yesterday; Ontario, 1 1-4 higher; Toronto, ½ higher; Merchants', 1 higher; Commerce, ½ higher; Imperial, 1-4 higher; Dominion, ½ higher; Western Assurance, 1-8 higher, and Commercial Cable, 1-8 higher. Twenty-five shares of Cable sold at 173. Northwest Land closed easier, though during the day there were transactions in it at 90. Quotations are:

MONEY INVESTED Estates Managed and Rents Collected. JOHN STARK & CO 26 TORONTO-STREET

GUFF FROM GOTHAM.

John J. Dixon & Co. received the following despatch over their private wire from Henry Allen & Co. to-day:

NEW YORK, Nov. 9.—The stock market opened very weak to-day. The Democratic avalanche gave Wall-street a chill, or at least the active speculators on the stock exchange professed to feel such a chill, and they went in and smashed things. All the industrials are under fire; most of them yielded somewhat, but a few of them that were knocked down stayed down. There is generally a realization that this country is prosperous beyond the reach of political ups and downs. Whatever sort and speculative onslaughts based upon political prejudices are not likely to be effectual, even temporarily. Nearly every branch of business is in good shape; the people are contented and confident. The election of yesterday shows that the great majority of citizens are agreed upon a governmental policy, and that there is evidently an opinion among this majority that under Mr. Cleveland good times are sure to continue, and even grow better. Money is fairly easy. After the first confusion of the election sensation is over we expect to see activity in the stock market. Further reactions are not improbable, but on such reactions we incline to the idea that most stocks are a purchase.

GOSSIP FROM CHICAGO.

R. Cochran received the following despatch from Kennett, Hopkins & Co. to-day:

CHICAGO, Nov. 9.—Wheat—Apparently the same party that has been bulling corn and oats the past few days are responsible for the advance to-day in wheat. Shorts were alarmed and covered freely. There has been nothing in the news to justify the advance. Receipts at primary markets keep up surprisingly. Clearances moderate. Cables show no strength, and the amount on ocean passage, like our visible, continues to increase. Corn and oats receiving houses say little demand. Chicago is highest market and carrying much the largest stock. Provisions—Big holders apparently realizing, but strength of other markets has prevented a decline.

John J. Dixon & Co. received the following dispatch over their private wire from Walker & Co. to-day:

CHICAGO, Nov. 9.—Receipts of hogs were again light. The market for same opened strong; close was a little lower. They are still away above January product. Provisions opened strong and higher on some good buying for both local and outside accounts. At the extreme advance were as we wired you large orders to sell, but market declined so quickly that not much was sold. We expect to see the bull party create an advance to-morrow, and on such advance they are liable to make sales. The expectation is that Friday and Saturday will see larger receipts. Wheat has been strong and higher. No feature to market except the buying of short stuff. Strength in corn had considerable to do with holding up prices. The cables were easier; receipts fair and clearances only moderate. The weather is still bad and will cut off receipts some for few days. The feeling among local traders is for strong and higher market.

Corn has been strong and higher. Shorts have been the best buyers. Outside business has helped up prices. A big local short was run in presumably on account short of money. The cash stuff is still well held.

GRATEFUL—COMFORTING EPPS'S COCOA BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette. Made simply with boiling water or milk. Sold only in packets by Grocers, labelled thus: JAMES EPPS & CO., Homœopathic Chemists, London, England. ed
