AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly afte in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pill—one which should have some of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to be public decision. It has been unfortunate for the patient hitherto that almost every purgative meeting is serimonious and irritating to the bowels. This is not. Many of them preduce so muck put in a serimonious and irritating to the bowels. This is not. Many of them preduce so muck put in a serimonious and irritating to the bowels. This is not many of them preduce so muck put in the public of the pu

An occasional does stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renevate the atrength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional does is advantageous, even though no serious derangement exists; but unceressry dosing should never he carried too far, as every purguive medicine reduces the strength, when taken to excess. The thousand oassen which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will asserve a beefter purpose than any thing which has hitherto been available to mankind. When their ritings are once known, the public will no longer doubt what remedy to employ whou in used of a such a strength of the confidence.

AYER'S PILLS.

A New and singularly successful rémedy for the cure of all Billious diseases - Costit eness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Cout, Humors, Nervossness, Irritability, Indiamations, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sidences and suffering might be prevented, if a harmoss but effectual Cathartie were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and offen fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike trade Colde, Exercish symuthons, and Thious desappended: "Twee all years to become or produce the new parated and formatable fishenger which load the hearies all over the lang. Hence a reliable family physic is of the first importance to the public heaith, and this Fill has been perfected with consummatic skill to merighat demand. An extensive reliable for the public heaith, and this Fill has been perfected with consummatic skill to merighat demand. An extensive reliable family physic is of the first importance to the public heaith, and this Fill has been perfected with consummatics skill to merighat for spiring Rodes. the public health, and this I'll has been perfected with consumnate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond behef, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the eminent gentlemen to whom we are allowed to refer for these facts, are Paop. VALENTIER MOIT, the distinguished Surgeon of New York Cips.

DOCT. A. G. HANGS, Practical Chemist. of the Port of Boston, and Geologist for the State of Massachusetts.

Buor. Valentine Morr, the distinguished Surgentic's New. York City.

Doct.—A. A. Havra, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

Illa L. Moorn, M. D., an eminent Surgeon and Physician, o' the City of Lowell, who has long used them in his extensive practice.

H. C. Northwer, Esq., one of the first merchants in New York City.

C. A. Davis, M. D., Suy't and Surgeon of the United States Marine Hospital, at Chebea, Mass. Did space permit, we could give many hundred such names, from all parts where the Phils have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical acience can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly elvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and inurious qualities; by this, each individual virtue only that is desired for the curative sitrues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a sure, more powerful antidote to disease them any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly ludge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are mused to the whole body of Practitioners in the United States and B

BOX.
