A New Military Division, that of the Philippines, has been created by Secretary Root. This is to free the head of tary Root. This is to free the head of the division of minor details, leaving him more time to devote to large questions of policy and civil administration. Gen Otis, the head of the division, is said to be prostrated in mind and body on account of the strain of work. There are four departments in the new division, commanded as follows. Northern Luzon, Gen MacArthur, southern Luzon, Gen Bates, Visayas, Gen Hughes, Mindanno and Jolo, Gen Kobbe.

violating the state's unti-trust law. If he is convicted, the line may go as high as \$5000 and the imprisonment may be anywhere from one year to 10 years.

New Jersey, the home of trusts, will receive an annual income of \$11,500 in taxes from the new corporation with \$160,000,000 of capital stock which Andrew Carnegie has formed.

The next step in the development of trusts, according to our consul general at Frankfort, Germany, is the international trust, as exemplified by a new plate glass combination. The Standard oil is virtually an international trust, independence of taxiffs is one of the great advantages of international coindependence of tarins is one of the great advantages of international co-operation. It is predicted that the steel makers of the world will form a combination so-in, which may prove to be stronger than any single government in the world.

Difficulty is being experienced with the Chicago drainage canal, according to a report from the war department. to a report from the war department. A current strong enough for saultary purposes makes it impossible sometimes to get a large versel out of a river into the take. The law requires a stream of 500 000 cubic feet per minute to pass through the canal, and thus far it has been possible to turn in only 200,000 cubic feet per minute. Another waterway around the south side of the city, costing about \$.000,000, may be necessary, though the city's taxpayers have feit that the \$34,000,000 already expended was enough. Efforts are being made in congress to get it federal government to take the canal.

New Zealand having done its share for the mother country in the South African war now asks through its governor for a share in the councils of the empire. This has been the boldest of all the English colonies in social reforms, and naturally leads in this movement for imperial federation. Canada's prime minister. Sir Wilfrid Laurier, hinted in a recent speech at something similar to what New Zealand asks. The develop of the colonies during the liver war has been a considence feature of the situation. There have been rumors in England that Lord Salabury, when the end of the war is clearly in sight, will disclose a vast plan of imperial federation. It is generally conceiled that Sir Joseph Chamberlain's work as colonial secretary has fostered the imperial feeling in the colonies. New Zealand having done its share

Prof Taussig of Harvard university, thinks that even if the new currency should amount to \$209,000,000 it would not appreciably affect prices or business under current conditions. charters for small banks under the new

International Arbitration awards about \$4,000,000 to citizens of England and the United States whose claims and the United States whose claims against the Portuguese government have been before a commission at Herne, Switzerland, for nearly 10 years. That government in 1859 selzed the Delagoa Hay railroad in Portuguese South Africa on account of jealer sy of the English, and the owners persuaded their respective governments to demand arbitration of their claims. Portugat submitted, and the commission has at last made its award, which is regarded by the claimants as but a fraction of their loss. The fact that the road derived its value largely from government concessions helps to square the account. Had Portugal been unable to pay the damages. England probably would have seized Delagoa bay, the strategic value of which is well known.

Coeur d'Alene-Federal troops were sent to the Coour d'Alene country last year in response to the request of Gov Steunenberg, a democrat and a labor Steunenberg, a democrat and a labor union man. In his testimony at Washington the governor declared this was the enly means of rest-ring and keeping order, the state militia being in the Philippines and the sheriff in sympathy with the union miners. Bad bread was fed the prisoners in the built-pen prison, he said, because the union would not allow the bakeries to sell hread to the authorities and a bakery with amateur help had to be started. The labor leaders generally have alded against the governor during the invessingation, lawking Congressmen Lentz of Ohio and Silzer of New York, who have done a large share of the questioning. Success Weeder and Surface Cultivator

The opinion of farmers who have tested it:

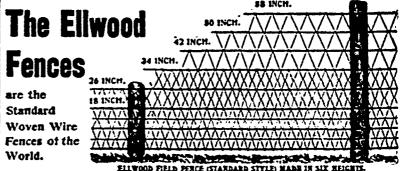

Who, have tested it:

"You appear to be the most liberal maniufacturers we have ever dealt with. This
is the third year we have used the Success
Weeder. We used it for corn, potatoes,
tomatoes, cabbage, etc., with wonderful
results. We had a good two-horse cultivator at the time we bought the weeder,
but have not used the cultivator since, as
one small horse and the weeder will do
more and better work than two teams and
cultivators."
