SEWING MACHINES.

No. 8.

THE BEST AND CHEAPEST.

This Machine embraces all the latest improvements, and has all the
desirable points that can be claimed for any of its competitors, while the
inventor has avoided the objectionable features of other Machines.

It has no noisy Shuttle to thread or wear out, but simply a Bobbin
that never wears. It is simple of construction, easy to handle, and runs
quietly and rapidly. There are now 85 of these Machines in one Fac-
tory in Toronto, running from 1,200 to 1,500 stitches per minute. This
is a test of durability no other Machine could stand.
