

Benger's Food is unique in combining the two natural digestive principals Amylopsin and Trypsin, in such a manner that these become active while the Food is being prepared with fresh new milk.

The digestive action is carried to any extent the physician may prescribe by allowing the Food to stand 15 or more minutes; it is stopped by boiling up.

# Benger's Food

For Infants, Invalids and the Aged,  
is pre-eminent in all conditions of digestive debility.

full particulars will be sent post free, to any member of the profession on application to
