

BARNARDO BOYS' BICYCLES !

A SPECIAL OFFER
TO OUR BOYS!

Don't buy a wheel if you can help it!

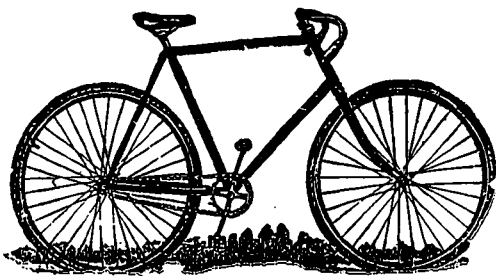

But if you must, buy a good one.

This is a good one.

The manufacturer claims for

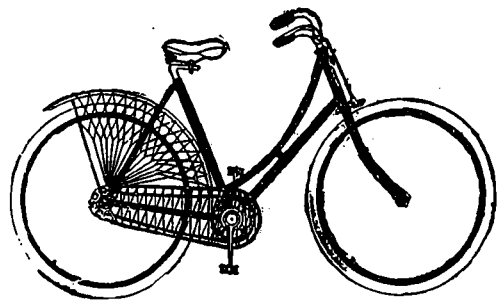

“The Ivanhoe”

That it is the strongest where most other bicycles are weakest—a perfectly

made machine, especially constructed to look well and wear well, even with hard and constant road service. While stronger than the average wheel, the Ivanhoe is as light as possible, and, therefore, the wheel for Barnardo boys and girls.

After inspection and mature deliberation, arrangements have been made with the Manufacturers' and Merchants' Cycle Co., of Toronto, to supply to Barnardo boys, on specially advantageous terms, the Ivanhoe—a remarkably good wheel at an exceptionally close price; fully guaranteed by the maker.
