For Cauadian and other travellers, the New York and Eric Ruilway is one of the most expeditious routes; and for scenery, the most varied and de-lightful on this continent. There is no more at-tractive read to travel on in the world, the care are so wide, easy riding and cleanly kept. A person has room enough to roam around, spread out, rest, take comfort, lum back and enjoy himself. There are other good railroads in the world, but none whose cars are so attractive as those of the broad gauge, well managed and rather extensively known Now York and Eric Railway. The sleeping cars are bet-ter than the bridal couches of our forefathers, and far ahead of what the ancient kings and queens onjoyed; and they thought they lived high. A train on this route arrives at and leaves the South side of the Dopot, west end of Suspension Bridge, (Csnada side,) so as to form a connection with all other trains calling at this station. .

REPRESENTATIVE AND CHAMPION OF AMERICAN ART.

ALDINE: THE

ANILLUSTRATED MONTHLY JOURNAL

claimed to be the

HANDSOMERT PAPER IN THE WORLD.

"Give my love to the artist workmen of THE ALDINE who are striving to make their profession worthy of admication for beauty, as it has always been for usofulness."—Henry Ward Beecher.

THE ALDINE, while issued with all the regularity, has note of the temporary or timely inferest characteristic of ordinary periodicals. It is an object that an expectation of pictures, the arrest specimens, of artistic skill, in black and white Althousa each succeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated affor it has been bound up at the close of the year. While other publications may claim superior cheapness as compared rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition or in price or character. The possessor of the volume just completed cannot duplicate the quantity of incepaper and engravings in any other shape or mumber of volumes for ten times its cost.

The labor of getting THE ALDINE ready on the press is so great that reprincing is out of the question. With the exception of a small number specially reserved for binding, the edition of 1871 is already exhausted and it is now a scarce as well as valuable book.

# New Features for 1872.—Art Department.

The enthusiastic support so readily accorded to their enterpriso, wherever it has been introduced has convinced the publishers of THE ALDINE of the soundness of their theory that the American public would recognize and heartily support any slucere efforts elevate the tone and standing of illustrated puplications. That so many weokly wicked shoots exist and thrive is no evidence that there is no market for anything better—indeed the success of THE ALDINE from the start is direct proof of the contrary. With a population so wast, and of such varied taste, a publisher can choose his patrons, and his paper is asther indicative of his own than of the taxic of the country. As guarantee of the excellence of this department, the publishers would beg to announce during the coming year, specimens from the following eminent American Artists. The enthusiastic support so readily accorded to

The pictures are being reproduced without regard to expense by the very best engravers in the coun-try, and will bear the very severateritical compari-son with the best foreign work, it being the deter-mination of the publishers that THE ALDINE shall be a successful vindication of American taste in be a successful vindication of American taste in competition with any existing publication in the world.

#### LITERARY DEPARTMENT.

Where so much attention is paid to illustration and got up of the work, to nuch dependence on appearances may very naturally be feared. To anticipate such misgivings, is only necessary to state that the oditorial management of THE ALDINE has been intrusted to Mr. Richard Henry Stoddart, who has received assurances of assistance from a who has received assurances of assurance from a host of the most popular writers and poets of the
