Catarrah—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Dixon Treatment of catarrah. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of the patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished the catarrah is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are still. No one else has ever attempted to cure catarrah in this manner, and no other treatment has ever cured catarrah. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. DIXON & SON, 305 King-street West, Toronto, Canada, and enclose stamp for their treatise on catarrah.—*Montreal Star.*

CONBOY'S CARRIAGE TOPS

is one of the hits. Not that a carriage top is anything new, but the great want of something more perfect than the heavy, expensive, inconvenient top in use, suggested the invention of the Conboy Adjustable Top, which has been altered and improved until it now stands without a rival. The style and color now manufactured are the most popular, and are varied enough to suit all tastes. Mr. Conboy is the Pioneer in this business. It has been his aim since the commencement to merit the patronage and confidence of the trade and the public, by producing durable and convenient, and at the same time, elegant and stylish top, that could be sold at exceedingly low prices. That this end has been attained is abundantly proved by the thousands sold, and the numerous letters of approval received from the leading carriage builders throughout the country. Since moving to Toronto, Mr. Conboy is giving his whole attention to the improvement and manufacture of carriage tops, where his increased facilities, his practical knowledge, and his numerous patented improvements, give him great advantage over all competitors.
