Protect your Eyes from Dust and other Flying Particles, and from Cold Winds and Snow in the Winter Season.

The Lamb "Eye Shield"

PATENTED APRIL 14, 1901.

FLEXIBLE, WATERPROOF & NON-HEAT-CONDUCTING.

The Cheapest, Lightest and Most Durable Eye Protector ever presented to the public.

The LAMB "EYE SHIELD" fits closely to the face, around the eyes, a soft, perforated felt rim on the face side rendering it impossible for dust or any other substance to enter between it and the skin. Small perforation in the felt rim admit sufficient air for the eyes to retain their normal moisture. The lenses are formed of the clearest mica and are perfectly transparent. There is consequently less liability of injury to the eyes, with this Shield, in case of accident, than with other similar devices in which glass lenses are used.

Horsemen, Bicyclists, Street-car Drivers, Motor Men, Trainmen, Stone Cutters, Blacksmiths, Iron Workers, Roofers, Metal Polishers and Grinders will find the "Eye Shield" invaluable. Chemists, whose eyes are exposed to poisonous vapors and liquids, need no longer fear for their vision. All Winter Sportsmen, Skaters, and persons sleighing or tobogganing will recognize the safety and comfort to be derived from using the Lamb "Eye Shield."

Each shield is neatly packed in a box convenient for being carried in the pocket.

Shields furnished with PLAIN or NICKLE frames, and with CLEAR, BLUE or SMOKE lenses, as desired.

The Lyman Bros. & Co.

(LIMITED)

TORONTO, - ONT.

CHLOROFORM

PURE. Lyman's S. G. 149.

—AND—

ETHER SULPHURIC

PURE. Lyman's S. G. 725.

FOR ANÆSTHETICAL PURPOSES.

(The above have been manufactured by our firm for over forty years, and are being used by leading Surgeons and Physicians in Canada.)

The late **Dr. J. H. McCallum** says of our CHLOROFORM, "that during the nearly five years that I held the position of Medical Superintendent of the *Toronto General Hospital*, the Chloroform manufactured by **The LYMAN BROS. & CO. Ltd.**, was administered to about one thousand annually, and in no case had we fatality from it. I have also used it for thirteen years in private practice."

Dr. T. G. Johnston, Sarnia, says: "For the last six or seven years I have used no other Chloroform than that manufactured by **The LYMAN BROS. & CO. Ltd.**, both in surgical and obstetrical practice, and have had, and still have, every reason to be thoroughly satisfied with it."

WE CLAIM THE FOLLOWING ADVANTAGES:

1. Its Comparative Cheapness.
2. The Stage of excitement is not nearly as great as with other makes.
3. The after effects are not so pronounced.
4. No offensive odor during administration.

Dr. C. O'Reilly, Medical Superintendent of *Toronto General Hospital*, says of our ETHER SULPHURIC: "During the last several years the Ether manufactured by **The LYMAN BROS. & CO. Ltd.**, has been extensively used for anæsthetical purposes in *Toronto General Hospital*, and no accident has taken place from its administration."

Dr. James F. W. Ross says: "I have overcome my former prejudice against Ether, but **The LYMAN BROS. & CO. Ltd.**, are now supplying an article put up in $\frac{1}{2}$ and $\frac{1}{4}$ lb. tins equal to any in the market. I have used it frequently, and have seen it used by others during the last twelve months for operations of all degrees of severity. The after effects are no greater than after Squibb's or any other pure Ether."

We claim for this Absolute Purity and Comparative Cheapness.

When Ordering, specify **LYMAN BROS.**
