# Cheap Life Insurance. The co-operative assessment associations have secured a large memberthat they furnish chean insurance. Men

ship from their representations that they furnish cheap insurance. Men have been induced to join these associations because they recognize the have been induced to join these associations because they recognize the uncertainty of life, and their duty to provide for their families in event of death. They have been led to believe it is the only true form of insurance, and superior to the well-tested plans in use by the legitimate companies. We have frequently shown through the columns of this paper that the representations of these associations and their over-sanguine agents are delusive and untrue, and that they are unworthy of confidence or retropage having no representations begins to stand upon dence or patronage, having no permanent basis to stand upon.

THE ÆTNA LIFE INSURANCE CO'Y, of Hartford, Conn., was early in recognizing that a considerable number of those seeking insurance desired it upon the most inexpensive plans. With a view of meeting the popular demand it organized a copyrighted system, which combines the utmost cheapness, safety and equity. The plan requires only a minimum rate, and avoids the necessity of taking large premiums for the sake of returning large dividends. It gives all the advantages obtainable under more expensive policies. It is peculiarly adapted to those who desire to secure the largest amount of insurance at the least possible cost; to those who want immediate protection, but are not ready or able to pay for endowments or other plans more expensive, and for those who wish insurance for a limited time, or for a specific purpose. The accumulations under this plan are kept distinct and separate, and the insured receive the benefit of them by the application of the surplus at stated periods.

There is, therefore, no further necessity or excuse for trusting the future happiness and support of dependent ones to the deceptive and uncertain system of passing round the hat after the funeral, for the Ætna Life Insurance Company issues policies secured by an accumulation of

\$27,000,000 to back up its promises, and at less expense than the article obtainable of any co-operative company, whose certificates are of no permanent value.

Circulars giving the full particulars of the plan above referred to, can be obtained by addressing the company,
