Park

Manufactured by W. A. BRADSHAW,

109 FRONT ST. E., TORONTO.

## Combination Union Valve Elbow

Patented January 30, 1909

### For Hot Water

Is more elegant in design than a Valve or an Elbow.  
It is quick opening (Qr. turn) and adjustable to either  
end of the radiator. It has a true curved, full sized  
water way which reduces friction. It is neatly and  
compactly made of valve metal and packed ready to  
use. It has rough body, with finished trimmings  
and is nickel plated all over.

Operated with the foot. Costs no more than a  
valve. Every one warranted.

Third Edition

**CANADIAN CONTRACTOR'S  
HAND-BOOK  
and Estimator.**

THE third edition of the Canadian Contractor's Hand-Book has been published and is now on sale. The book has been revised and enlarged to upward of two hundred pages, and the title changed to the Canadian Contractor's Hand-Book and Estimator, considerable matter bearing upon the cost of performing various kinds of work having been added. The price of the third edition, mailed free, is \$1.00 to subscribers of the CANADIAN ARCHITECT AND BUILDER, and \$1.50 to non-subscribers. Order from the publishers.
