

1849.

- Note to a Paper on the Chemical Nature of Gelatine. S. J., vi, pp. 259, 260.
- On the Acid Springs and Gypsum Deposits of the Onondaga Salt Group. S. J., vii, pp. 175-178; Edinb. New Phil. Jour., xlvii, pp. 50-53.
- On Some Principles to be Considered in Chemical Classifications. S. J., vii, pp. 89-95; viii, pp. 89-95 (?).
- Chemical Examination of Algerite, a New Mineral Species. S. J., viii, pp. 103-108; also B. J. N. H., vi, 1857, pp. 118-123.
- Chemical Examination of the Water of the Tuscarora Sour Spring, and of Some Other Waters of Western Canada. S. J., vii, pp. 364-372.
- On the Decomposition of Aniline by Nitrous Acid. S. J., viii, pp. 372-375.
- On the Geology of Canada. P. A. A. S., ii, pp. 325-334.
- On a New Mineral Algerite, Boston, Proc. Nat. Hist. Soc., iii, 1848-1851, pp. 259, 260.
- Leucine and Its Homologous Relations, with some Critical Remarks upon the late Researches of Mr. Würtz. A. A. A. S., pp. 231-233; also S. J., ix, 1850, pp. 63-67.
- Report on Limestones, Assatite, and Mineral Waters. C. G. S., pp. 47-65.

1850.

- Geology of Canada (1849). S. J., ix, p. 12-19.
- Leucine and Its Homologous Relations, with Some Critical Remarks on the Late Researches of Mr. Würtz. S. J., ix, p. 63.
- Chemical Examination of the Waters of Some of the Mineral Springs of Canada. S. J., ix, pp. 266-275.
- Research upon some Derivations of the Benzoic Series of Chural. S. J., p. 275; and other note in the Scientific Intelligence.
- On Some Saline Springs Containing Baryta and Strontia. P. A. A., pp. 153, 154.
- On the Taconic System. P. A. A., pp. 202-204.
- On the Determination of Phosphoric Acid. P. A. A., p. 338.
- Analysis of Soils and Ashes of Peat. P. A. S., p. 222 (not received).
- Canadian Localities of Minerals. P. A. S., p. 311 (not received).
- On Magnesite. P. A. S. p. 352 (not received).
- Locality of Asphaltum. P. A. S. p. 357 (not received).
- Malate of Lime in Sugar Maple. P. A. S., p. 389 (not received).
- Report on Soils of Canada East and Mineral Springs. C. G. S., p. 73-106.

1851.

- On the Mineral Springs of Canada. S. J., xi, pp. 174-181.
- On the Chemical Constitution of the Mineral Warwickite. S. J., xii, pp. 352-356.
