

THE FARMER'S FRIEND.

TO PREVENT HARES AND RABBITS FROM BARKING YOUNG PLANTATIONS.—Hares, Rabbits, and Rats, have a natural antipathy to tar; but tar, though fluid, contracts, when exposed to the sun and air for a time, a great dryness and a very blinding quality; and if applied to trees in its natural state, will occasion them to be bark-bound. To remove this difficulty, tar is of so strong a savor, that a small quantity mixed with other things, in their nature open and loose will give the whole mixture such a degree of its own taste and smell, as will prevent hares, &c., touching what it is applied to.

THE VIRTUES OF POPLAR WOOD FOR THE FLOORING OF GRANARIES.—The Lombard poplar is recommended as a timber adapted for flooring granaries which is said to prevent the destruction of corn, by weevils and insects. Poplar wood will not easily take fire.

For High Water at Cape Sable add 5m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.
