MONTREAL, Aug. 11.—There were no new developments in the local grain trade teday, prices for all lines being well maintained, with a continued good demand for car lots and a fairly active trade doing. One lot of 255,000 bushels of No. 2 Canadian western oats was sold at 55c c.l.f. In spring wheat flour the feeling is firm, with a good demand from local and country buyers for car lots, but the market is less excited. Winter wheat flour continues very scarce, there being none obtainable on spot from first hands. Bran is stronger at an advance of \$1 under an increased demand. Baled hay is strong under a good demand. The trade in butter was rather quiet, but the tone of the market is very firm. There is no change in cheese for which the demand between houses was quieter. Eggs fairly active. Provisions in good demand at the recent advance in prices. pondence invited.
